We Want Bama Joseph Goodman,2021-11-09 A lively chronicle of how the 2020 Crimson Tide became Nick Saban's ultimate team Was Alabama's Crimson Tide in 2020 the greatest team of all time The squad went 13-0 in a pandemic year scored a combined 107 points against SEC powerhouses LSU and Florida crushed Ohio State in a National Championship Game 52-24 in a contest that wasn't even that close and followed it up with another top rated signing class Nick Saban called his boys the ultimate team but it wasn't just because they kicked the ever living hell out of everyone on the football field It was because the team leveraged a power and influence born of Southern pride to push back against a hateful legacy of racism that a populist president was exploiting to divide the nation At a time when Americans needed real leaders in the face of so much hate the sports world answered the call and fought back for the soul of the country In the summer of 2020 the Tide players left their training facility and led by their celebrated coach marched to a campus doorway made infamous sixty years earlier by another political demagogue and showed what people can accomplish when they fight together for a just cause in the name of unity The most powerful force in a state crazy for college football had chosen to make a stand and replace George Wallace's Segregation forever with a different message written by one of the players All lives can't matter until Black lives matter There have been some great football teams through the years and they all deserve respect But here's what we know for sure They all would have been appreciative of what this Alabama team represented and proud of what it accomplished The Crimson Tide in 2020 captured something special that moved it beyond the conversation of best ever and into the place reserved for most important of all time

Americanness Simon J. Bronner,2021-08-11 Americanness Inquiries into

the Thought and Culture of the United States analyzes several core themes that connect Americans because of and despite their pronounced diversity The book investigates shared ideas and ideals such as individualism mobility materialism and future orientation that drive an overarching American worldview Simon J Bronner begins with ideas of space and time as they formed and changed through the history of the United States before moving to the emergence of modern American culture He examines reasons America is characterized as having a victory culture that extends to the American legal military and business complexes This victory culture is further analyzed by looking at the country s relationship with the game of football a sport that thrives in America but has not caught on in other countries Finally the volume probes American consumerism driven by a desire for individual prosperity in a supposedly egalitarian society Using interdisciplinary approaches drawn from psychology sociology ethnology and history Bronner seeks explanations for people invoking and evoking ideas that they perceive as American This book would be an invaluable addition to courses on American history sociology cultural studies and American studies
