Rankings – Soziologische Fallstudien Leopold Ringel, Tobias Werron, 2019-09-03 Rankings sind in der modernen Gesellschaft allgegenwärtig. Athleten, Hotels, Nationalstaaten, Unternehmen, Universitäten, Kunsttreibende und viele andere sehen sich Leistungsvergleichen in der Form von regelmäßig veröffentlichten Ranglisten ausgesetzt. Die Beiträge des Sammelbandes nähern sich dem Phänomen aus einer genuin soziologischen Perspektive und untersuchen u.a. die Produktion, Verwendungsweisen, Institutionalisierung und Effekte von Rankings in unterschiedlichen gesellschaftlichen Feldern.

Failing Universities Howard Karger, David Stoesz, 2024-10-31 Colleges and universities were once places where students came to learn, experts, intellectuals and others came to teach, and where knowledge was created. Today, America's higher education system is severely compromised by commodification and corporatization, which have transformed higher education into a marketplace. This book examines the effects of these transformations, providing a comprehensive critique of the problems the sector faces. It outlines how higher education's commodification has impacted areas including affordability, access, waste, hierarchical administrative structures, faculty governance, the college sports industrial complex and status, and social mobility based on institutional prestige. The authors explore alternative policy solutions and examples of systems of higher education that are both effective and cost-effective. They propose a forward-looking agenda for structural reform that is less expensive and more educationally sound than the current model, emphasising social cohesion, sustainability, a respect for diversity and an understanding of democracy and democratic principles. *Failing Universities* offers alternative solutions for US higher education to return to its basic mission.

*Philosophy, Sport and the Pandemic* Jeffrey P. Fry, Andrew Edgar, 2022-03-03 The COVID-19 pandemic has had an impact on every aspect of our social, cultural and commercial lives, including the world of sport. This book examines the ethical and philosophical dimensions of the intersection of COVID-19 and sport. The book goes

beyond simple description of the impact of the pandemic on sport to offer normative judgments on how the sporting world responded to challenges posed by COVID 19 as well as philosophical speculation as to how COVID 19 will change our understanding and appreciation of sport in the long term It examines the considerations that either influenced or arguably should have influenced decisions to continue or to resume the playing of organized sport in the midst of a pandemic As a part of this analysis a spotlight is shone on how sport intersected with political issues surrounding COVID 19 It also explores the configuration and meaning of sport in the COVID 19 era touching on themes such as the nature of sport and its integrity and sport s relationship to technology Other themes include the changed nature of spectatorship suffering in sport during pandemic times and the impact of COVID 19 on the Olympic and Paralympic Games A final chapter looks ahead and asks what sport might look like in a post COVID world This is fascinating reading for anybody with an interest in the ethics and philosophy of sport the sociology of sport event studies politics or public health TV Guide ,2001 **Managing**
