Leithoff, 2014-12-10 After Nero's death and the following civil wars in 68-69 A.D. it was the victor Vespasian who re established stability and continuity What set him apart from his Julio Claudian predecessors was his origin from a municipal family and his status as a normal member of the senatorial order until his revolt In this context the legitimisation and presentation of his new position of power was vital for him The question therefore is how Vespasian and his sons who succeeded him and came to power under very different circumstances used the past for their own purposes This study concentrates on these references to the past with a view to three main aspects gaining power which meant dealing with the pretenders of the civil wars on the one and presenting the victory over the Jewish Rebels on the other hand consolidating the principate which focuses on the relation between senators and the princeps and the impact of this process on the creation of the republican idea last shaping the principate which concentrates on the role model character of the Julio Claudian principes for Vespasian Titus and Domitian Cicero, Philippics 3-9 Marcus Tullius Cicero, 2007 The Philippics form the climax of Cicero's rhetorical achievement and political activity Besides these fourteen speeches are an important testimony to the critical final phase of the Roman Republic Yet for a long time they have received little scholarly attention This two volume edition now provides a comprehensive scholarly commentary on Philippics 3-9 seven central speeches of the corpus Full annotations explain the speeches in terms of linguistic literary and historical issues vol 2 they are based on a revised Latin text with a facing translation into English as well as a detailed introduction dealing with problems relevant to the whole corpus a bibliography and indices complete the edition vol 1 Besides a running commentary on each speech the study shows these orations to be rhetorical constructs in a historical conflict hence particular emphasis is placed on an analysis of Cicero
