Marsh, 2016-09-07 This book is about memory the power of memory the weight of memory the presence of memory Its about how memory works and its about how memory moves and shapes us profoundly and deeply every moment of every day Most of all however its about how memory points us to some questions that try as we might we cannot elude altogether questions that force us to confront the very nature of existence Suppose that no one no one at all remembered us Suppose that no one no one at all remembered the universe How can we make sense of a world that one day will be utterly gone and forgotten Memory makes us speak of things we may not want to accept or understand thrusts us into things lying beyond what we can picture imagine or know Twisting itself around our heart and burrowing into our soul memory stretches us It stretches us to ponder purpose it stretches us to consider meaning Memory forces us to think about how unbearably complex we and this bewildering world can be if nothing precedes or follows them Memory opens our heart to God *May God Remember* Lawrence A. Hoffman, 2013 Engaging and sobering Traces the development of Yizkor from the original memorializing of Jewish communities destroyed by the Crusaders to the touching service we have today and reflects on how we remember both personal losses and the martyrs of history *Vick's Monthly Magazine ...* , 1884
