## **Remembering History:**

Memory and History Joan Tumblety, 2013-07-15 How does the historian approach memory and how do historians use different sources to analyze how history and memory interact and impact on each other Memory and History explores the different aspects of the study of this field Taking examples from Europe Australia the USA and Japan and treating periods beyond living memory as well as the recent past the volume highlights the contours of the current vogue for memory among historians while demonstrating the diversity and imagination of the field Each chapter looks at a set of key historical and historiographical questions through research based case studies How does engaging with memory as either source or subject help to illuminate the past What are the theoretical ethical and or methodological challenges that are encountered by historians engaging with memory in this way and how might they be managed How can the reading of a particular set of sources illuminate both of these questions The chapters cover a diverse range of approaches and subjects including oral history memorialization and commemoration visual cultures and photography autobiographical fiction material culture ethnic relations the individual and collective memories of war veterans The chapters collectively address a wide range of primary source material beyond oral testimony photography monuments memoir and autobiographical writing fiction art and woodcuttings everyday and exotic cultural artefacts journalism political polemic the law and witness testimony This book will be essential reading for students of history and memory providing an accessible guide to the historical study of memory through a focus on varied source materials

**Remembering War** J. M. Winter, 2006-01-01 This is a masterful volume on remembrance and war in the twentieth century Jay Winter locates the fascination with the subject of memory within a long term trajectory that focuses on the Great War Images languages and practices that appeared during and after the two world wars focused on the need to acknowledge the victims of war and shaped the ways in which future conflicts were imagined and remembered At the core of the memory boom is an array of collective meditations on war and the victims of war Winter says The book begins by tracing the origins of contemporary interest in memory then describes practices of remembrance that have linked history and memory particularly in the first half of the twentieth century The author also considers theaters of memory film television museums and war crimes trials in which the past is seen through public representations of memories The book concludes with reflections on the significance of these practices for the cultural history of the twentieth century as a whole

**History and memory** Geoffrey Cubitt, 2013-01-18 In recent years memory has become a central though also a controversial concept in historical studies a term that denotes both a new and distinctive field of study and a fresh way of conceptualizing history as a field of inquiry more generally This book which is aimed both at specialists and at students provides historians with an accessible and stimulating introduction to debates and theories about memory and to the range of approaches that have been taken to the study of it in history and other disciplines Contributing in a wide ranging way to debate on some of the central conceptual problems of memory studies the book explores the relationships

between the individual and the collective between memory as survival and memory as reconstruction between remembering as a subjective experience and as a social or cultural practice and between memory and history as modes of retrospective knowledge

**History and Memory After Auschwitz** Dominick LaCapra, 1998 Dominick LaCapra focuses on the interactions among history memory and ethico-political concerns as they emerge in the aftermath of the Shoah Particularly notable are his analyses of Albert Camus's novella *The Fall* Claude Lanzmann's film *Shoah* and Art Spiegelman's comic book *Maus* LaCapra also considers the Historians Debate in the aftermath of German reunification and the role of psychoanalysis in historical understanding and critical theory

**Factories of Memory: Cinematic Representations of the 12 September Military Coup** Ozan Tekin, 2014-02-01 12 September 1980 the third successful military coup in the history of Turkey has had a debilitating impact on the social political and cultural life of the country This study examines the representations of the 12 September coup through the lens of film as memory Based on the content analysis of the two films *Beynelmilel* 2006 and *Bu Son Olsun* 2012 and their reception this study examines the representations of the 12 September military coup by means of the concepts of cultural memory communicative and material memory memory of objects and construes whether the reconstruction of this particular past event is challenged by the abovementioned cinematic products as a way to impinge upon the collective memories of this seminal event in Turkey

**Memory, History, Justice in Hegel** Angelica Nuzzo, 2012-04-05 This reconstruction of the work of dialectical memory in Hegel raises the fundamental question of the principle that presides on the articulation of history and indicates in Hegel's philosophy two alternative models of conceiving history one that grounds history on ethical memory the other that sees justice as the moving principle of history

**History and Memory in African-American Culture** Genevieve Fabre, Robert O'Meally, 1994-12-08 As Nathan Huggins once stated altering American history to account fully for the nation's black voices would change the tone and meaning the frame and the substance of the entire story Rather than a sort of Pilgrim's Progress tale of bold ascent and triumph American history with the black parts told in full would be transmuted into an existential tragedy closer Huggins said to Sartre's *No Exit* than to the vision of life in Bunyan The relation between memory and history has received increasing attention both from historians and from literary critics In this volume a group of leading scholars has come together to examine the role of historical consciousness and imagination in African American culture The result is a complex picture of the dynamic ways in which African American historical identity constantly invents and transmits itself in literature art oral documents and performances Each of the scholars represented has chosen a different site of memory from a variety of historical and geographical points and from different ideological theoretical and artistic perspectives Yet the book is unified by a common concern with the construction of an emerging African American cultural memory The renowned group of contributors including Hazel Carby Werner Sollors V. V. Clark Catherine Clinton and Nellie McKay among others consists of participants of the five year series of conferences at the DuBois Institute at Harvard University from which this collection originated

Conducted under the leadership of Geneviève Fabre, Melvin Dixon and the late Nathan Huggins the conferences and as a result this book represents something of a cultural moment themselves and scholars and students of American and African American literature and history will be richer as a result *Education for Sustaining Peace through Historical Memory* Markus Schultze-Kraft, 2022-02-12 Informed by the author's long standing work on violent conflict peace and education in countries of the Global South particularly Colombia this open access book presents a comprehensive narrative about the relationship between peace education historical memory and the sustaining peace agenda advocating for the adoption of a new perspective on education for sustaining peace through historical memory Education on and for peace in countries wrestling with or emerging from protracted violent conflict is up against major challenges and both conventional and critical approaches to peace education are limited to address these Incorporating a focus on historical memory without losing sight of its own pitfalls into peace education can support learners and teachers to come to grips with achieving positive peace sustaining change at both the micro individual and macro social and institutional levels and to develop concepts and practices of effective and legitimate alternatives to violence and war Conceived in these terms historical memory oriented peace education also stands to enhance the work in progress that is the UN led sustaining peace agenda including its Sustainable Development Goals *History, Memory and Public Life* Anna Maerker, Simon Sleight, Adam Sutcliffe, 2018-07-06 History Memory and Public Life introduces readers to key themes in the study of historical memory and its significance by considering the role of historical expertise and understanding in contemporary public reflection on the past Divided into two parts the book addresses both the theoretical and applied aspects of historical memory studies Approaches to history and memory introduces key methodological and theoretical issues within the field such as postcolonialism sites of memory myths of national origins and questions raised by memorialisation and museum presentation Difficult pasts looks at history and memory in practice through a range of case studies on contested complex or traumatic memories including the Northern Ireland Troubles post apartheid South Africa and the Holocaust Examining the intersection between history and memory from a wide range of perspectives and supported by guidance on further reading and online resources this book is ideal for students of history as well as those working within the broad interdisciplinary field of memory studies **In Praise of Forgetting** David Rieff, 2016-05-10 The conventional wisdom about historical memory is summed up in George Santayana's celebrated phrase Those who cannot remember the past are condemned to repeat it Today the consensus that it is moral to remember immoral to forget is nearly absolute And yet is this right David Rieff an independent writer who has reported on bloody conflicts in Africa the Balkans and Central Asia insists that things are not so simple He poses hard questions about whether remembrance ever truly has or indeed ever could inoculate the present against repeating the crimes of the past He argues that rubbing raw historical wounds whether self inflicted or imposed by outside forces neither remedies injustice nor confers reconciliation If he is right then historical memory is not a moral imperative but rather a moral option sometimes

called for sometimes not Collective remembrance can be toxic Sometimes Rieff concludes it may be more moral to forget Ranging widely across some of the defining conflicts of modern times the Irish Troubles and the Easter Uprising of 1916 the white settlement of Australia the American Civil War the Balkan wars the Holocaust and 9 11 Rieff presents a pellucid examination of the uses and abuses of historical memory His contentious brilliant and elegant essay is an indispensable work of moral philosophy The Memory Phenomenon in Contemporary Historical Writing Patrick H. Hutton, 2016-07-15 In this book the author provides a comprehensive overview of the intense and sustained work on the relationship between collective memory and history retracing the royal roads pioneering scholars have traveled in their research and writing on this topic notably the politics of commemoration purposes and practices of public remembrance the changing uses of memory worked by new technologies of communication from the threshold of literacy to the digital age the immobilizing effects of trauma upon memory with particular attention to the remembered legacy of the Holocaust He follows with an analysis of the implications of this scholarship for our thinking about history itself with attention to such issues as the mnemonics of historical time and the encounter between representation and experience in historical understanding His book provides insight into the way interest in the concept of memory as opposed to long standing alternatives such as myth tradition and heritage has opened new vistas for scholarship not only in cultural history but also in shared ventures in memory studies in related fields in the humanities and social sciences **Memory, Trauma, and History** Michael S. Roth, 2011-11-01 In these essays Michael S Roth uses psychoanalysis to build a richer understanding of history and then takes a more expansive conception of history to decode the cultural construction of memory He first examines the development in nineteenth century France of medical criteria for diagnosing memory disorders which signal fundamental changes in the understanding of present and past He next explores links between historical consciousness and issues relating to the psyche including trauma and repression and hypnosis and therapy Roth turns to the work of postmodern theorists in connection with the philosophy of history and then examines photography s capacity to capture traces of the past He considers how we strive to be faithful to the past even when we don t care about getting it right or using it productively Roth concludes with essays defending pragmatic and reflexive liberal education Drawing on his experiences as a teacher and academic leader he speaks of living with the past without being dominated by it Theatre History Studies 2014, Vol. 33 Elizabeth Reitz Mullenix, 2014-12-15 Volume 33 of Theatre History Studies explores war War is a paradox horrifying and compelling galvanizing and devastating a phenomenon that separates and decimates while at the same time creating and strengthening national identity and community bonds War is the stuff of great drama War and theatre is a subject of increasing popularity among scholars of theatre The essays in this special edition of Theatre History Studies brings together a unique collection of work by thirteen innovative scholars whose work explores such topics as theatre performances during war times theatre written and performed to resist war and theatre that fosters and promotes war The contributors to this volume write poignantly about

nationhood and about how war through both propaganda and protest defines a people The contributors also delve into numerous fascinating themes that transcend time peoples nations and particular conflicts the foundations of nationalism and the concepts of occupied and occupier nostalgia and utopia and patriotism and revolution These essays survey a march of civil and international wars spanning three centuries Arranged chronologically they invite comparisons between themes and trace the development of the major themes of war Ideas manifest in the theatre of one period recall ideologies and propaganda of the past reflect those of the present and anticipate wars to come

**General History of Civilization in Europe** François Guizot, 1877 A Cultural History of Memory in the Long Twentieth Century, 2024-02-08 A Cultural

History of Memory presents an authoritative survey from ancient times to the present The set of six volumes covers over 2500 years of history charting the evolving nature and role of memory throughout history This volume A Cultural History of Memory in the Long Twentieth Century explores memory in the long nineteenth century As with all the volumes in the illustrated Cultural History of Memory set this volume presents essays on memory and power and politics time and space media and technology science and education philosophy religion and history high culture and popular culture rituals faith practices and the everyday and remembering and forgetting A Cultural History of Memory in the Long Twentieth Century is the most authoritative and comprehensive survey available on memory since 1900 Remembering America Lawrence R. Samuel, 2015-11 American history is ubiquitous underscoring everything from food to travel to architecture and design It is also emotionally charged frequently crossing paths with political and legal issues In Remembering America Lawrence R. Samuel examines the place that American history has occupied within education and popular culture and how it has continually shaped and reflected our cultural values and national identity The story of American history Samuel explains is not a straight line but rather one filled with twists and turns and ups and downs its narrative path as winding as that of the United States as a whole Organized around six distinct eras of American history ranging from the 1920s to the present Samuel shows that our understanding of American history has often generated struggle and contention as ideologically opposed groups battled over ownership of the past As women and minorities gained greater power and a louder voice in the national conversation our perspectives on American history became significantly more multicultural bringing race gender and class issues to the forefront These new interpretations of our history helped to reshape our identity on both a national and an individual level Samuel argues that the fight for ownership of our past combined with how those owners have imparted history to our youth crucially affects who we are Our interpretation and expression of our country's past reflects how that self identity has changed over the last one hundred years and created a strong sense of our collective history one of the few things Americans all have in common

**The Cultures of History in Early Modern India** Kumkum Chatterjee, 2009 This volume explores two themes historical traditions in early modern India and Mughal political culture as manifest in the cultures of history writing in Bengal It analyses the interaction between Islamic cultural traditions in the

South Asian sub continent with Indic vernacular traditions      History of the Celebration of the Fiftieth Anniversary of the Taking Possession of California and Raising of the American Flag at Monterey, Cal., by Commodore John Drake Sloat, U.S.N., July 7th, 1846 Associated Veterans of the Mexican War, 1896      *Writing the History of Memory* Stefan Berger, How objective are our history books This addition to the Writing History series examines the critical role that memory plays in the writing of history The volume includes essays from an international team of historians bringing together analysis of forms of public history such as museums exhibitions memorials and speeches coverage of the ancient world to the present on topics such as oral history and generational and collective memory and two key case studies on Holocaust memorialization and the memory of Communism From Amazon com      *Prose Elements* Thomas Lowe Taylor, 2004 Essays and creative non fiction
