crony in the Oval Office Even after his impeachment Trump continues to defend Putin and jeopardize American intelligence And instead of interfering Trump s powerful Republican allies have done everything they can to facilitate Trump s irreparable damage to national security Through in depth research and interviews with intelligence experts and insiders Nance charts Trump s deep financial ties to Russia through his family s investments including those of Donald Trump Jr Ivanka Trump and Jared Kushner and exposes the corrupt behavior of Trump s other double crossing pro Moscow associates In doing so Nance also draws a portrait of a venal and selfish president one who willingly sells American national security to dictators strongmen and the ultra rich at the expense and sometimes the lives of American citizens In this newly revised and updated edition *The Plot to Betray America* ultimately sketches the blueprint of the Trump administration s conspiracy against our country and shows us how we can still fight to defend democracy protect our national security and save the Constitution

Unmaking the Presidency Susan Hennessey, Benjamin Wittes, 2020-01-21 This is a book for everyone who has developed an unexpected nostalgia for political norms during the Trump years Other books on the Trump White House expertly detail the mayhem inside this book builds on those works to detail its consequences Carlos Lozada one of twelve books to read to understand what s going on Perhaps the most penetrating book to have been written about Trump in office Lawrence Douglas *The Times Literary Supplement* The definitive account of how Donald Trump has wielded the powers of the American presidency The extraordinary authority of the U S presidency has no parallel in the democratic world Today that authority resides in the hands of one man Donald J Trump But rarely if ever has the nature of a president clashed more profoundly with the nature of the office *Unmaking the Presidency* tells the story of the confrontation between a person and the institution he almost wholly embodies From the moment of his inauguration Trump has challenged our deepest expectations of the presidency But what are those expectations where did they come from and how great is the damage As editors of the invaluable *The New York Times* Lawfare website Susan Hennessey and Benjamin Wittes have attracted a large audience to their hard hitting and highly informed commentary on the controversies surrounding the Trump administration In this book they situate Trump era scandals and outrages in the deeper context of the presidency itself How should we understand the oath of office when it is taken by a man who may not know what it means to preserve protect and defend something other than himself What aspects of Trump are radically different from past presidents and what aspects have historical antecedents When has he simply built on his predecessors misdeeds and when has he invented categories of misrule entirely his own By setting Trump in the light of history Hennessey and Wittes provide a crucial and durable account of a presidency like no other *American Global Leadership* G. Doug Davis, Michael Slobodchikoff, 2024-07-26 In *American Global Leadership* Ailing US Diplomacy and Solutions for the Twenty First Century G Doug Davis and Michael O Slobodchikoff present a selection of fifteen essays that trace the history of American diplomacy from Eisenhower to Trump Penned by American statesmen among them James A Baker III General Wesley Clark Thomas Pickering and Michael McFaul

these essays illuminate US foreign policy through the Cold War the Iraq and Afghan wars the economic crisis of 2008 and the instability that arose during Trump s presidency Each chapter reflects the wisdom and experiences of its author to illustrate the realities of diplomacy in the United States and the difficulties diplomats military leaders and foreign policymakers encounter today Among other themes the discussions in this volume explore the relevance of diplomacy in resolving global crises the use of military policy and force as diplomatic tools skills diplomats should possess and current obstacles facing US foreign policy Through the lens of their professional service as US diplomats the authors examine American mistakes and successes of the past seventy years to assess how the role of diplomacy within US foreign policy has changed over time and how it must continue to evolve to meet future challenges One conclusion proves recurrent the US can no longer afford to rely only on might and force but must rededicate itself to diplomatic strategies to achieve its long term goals American Global Leadership is not just a valuable resource for scholars of diplomatic history and political science it is also an important work for current diplomats and those aspiring to careers in the US Foreign Service **White House Inc.** Dan
