Training the Trotting Horse Charles Marvin, 1890 **Weathering the Storm: Innovation-Driven Human Resource Management Practices** Regina Lenart-Gansinieć, Barbara A. Sypniewska, Jin Chen, 2023-01-01 Innovation driven human resource management practices A systematic review integrative framework and future research directions Abstract PURPOSE It is increasingly emphasized that human resource management practices HRMP which refer to recruiting and selection training and development compensation and performance appraisal are of great importance for creating innovation However the COVID 19 pandemic has shown that traditional HRMPs are already insufficient which entails the need to rethink and reformulate them in the direction of more effective innovation while also allowing organizations to survive COVID 19 like crises While there is an extensive literature on human resources management and innovation there is still no consensus on innovation driven HRMP This study aims to identify and synthesize most significant and trustworthy research contributions of innovation driven HRMP In addition to facilitate theory building in the field of HRMP this article consolidates the existing knowledge into an integrative framework This framework can be used by future researchers to identify gaps and ambiguities in the meaning of innovation driven HRMP METHODOLOGY The article presents the results of a systematic literature review of 71 empirical research articles referring to innovation driven HRMP from the Web of Science and Scopus

**Overcoming the pitfalls in employee performance evaluation**

An application of ratings mode of the Analytic Hierarchy Process

**Abstract**

**PURPOSE** Employee performance evaluation is a common exercise conducted in many organizations Employees need to know the feedback on their performance from the management Often the results of performance evaluation exercises are used for promotion confirmation in service and awarding of bonuses for employees However the performance evaluation exercise often meets with criticism due to the presence of subjective factors and specifically the way in which these factors are handled The purpose of the present paper is to show how the Ratings mode of the Analytic Hierarchy Process AHP can be applied to evaluate employee performance using objective as well as subjective criteria

**METHODOLOGY** The whole AHP exercise for the present employee performance evaluation has been shown through a case study on CLSB a company in Kuala Lumpur Malaysia Four senior managers and the Managing Director of the company were involved in all phases of the present evaluation exercise including elicitation of the criteria sub criteria and assigning weights to them The AHP data were analyzed using software called AHP Calc version 24 12 13 developed by Klaus D Goepel and available online In particular the Ratings mode of AHP was used to evaluate employees performance at CLSB

**FINDINGS** Five criteria namely Services Quality Financial Timing and Teamwork are found to be important for the evaluation of employee performance at CLSB Each of these criteria has sub criteria Harmonious work Skills and Punctuality are found to be the three most important sub criteria for the present evaluation exercise The outcome of the evaluation exercise provides an ordered set of ranks of 20 employees working in the company Apart from the application of AHP for performance evaluation an ordered set of detailed rubrics for all the criteria have been developed The rubrics provide precise guidelines to the evaluators at the time of evaluating employees performance

**IMPLICATIONS** An evaluation scheme that is scientific and systematic such as the present one will minimize criticism levied against the performance evaluation exercise Once the employees are aware of the criteria and sub criteria set along with the associated weighting scheme and the evaluation process itself they will be motivated to perform their tasks and discharge their duties accordingly Hence employee job satisfaction and productivity are expected to increase This will bolster not only the employees morale but also the organization s overall performance

**ORIGINALITY AND VALUE** In the literature many schemes are available to evaluate employees performance But often these methods are criticized as they either take all the criteria of evaluation as equally important or they lack the capability to strike a balance between objective and subjective factors The main contribution of the present work is to show how AHP can alleviate the above drawbacks of the existing methods The present research work has developed a performance evaluation method which is simple and straightforward and the detailed steps have been elaborated on how the method can actually be applied to measure the performance of employees The method can be applied to measure employees performance of other companies with the necessary modification of the criteria

set and assigning appropriate weights to them
