*Couponing for the Rest of Us* Kasey Knight Trenum, 2013-05-01 Not everyone is an extreme couponer. Most of us just want to save some money, not let clipping coupons and scouring the internet for deals take over our lives. For all the savvy shoppers out there, Kasey Knight Trenum has written *Couponing for the Rest of Us*. She knows that money is tight, food prices are going up, gas prices are closing in on unbearable, and people have better things to do than spend every spare minute if they have any. Obsessing over costs and coupons. She also knows coupons just happen to be a tool that can save a family hundreds of dollars every month and ultimately improve a family's finances and its future. *Couponing for the Rest of Us* shows readers where to find coupons for what your family eats, how to make the internet do the work for you, how to find sale cycles and store match-ups, and what those terms mean, how to reinvent your shopping strategy and toss your lists, how to make grocery shopping less stressful, even fun, how to turn money saved into money shared, and much more. If readers want to save money and time, this book is a gold mine. [The Complete Idiot's Guide to Couponing](#) Rachel Singer Gordon, 2012-04-03 Combines couponing advice with up-to-date online coupon tips and a sensible approach. **Prepper's Survival Hacks** Jim Cobb, 2015-09-22 Discover ingenious tips, tricks, and techniques for turning ordinary objects into survival gear from the author of *Prepper's Communication Handbook*. When a catastrophic event strikes you, you'll need to rely on your skills and supplies to keep you alive. This book teaches you how to improvise solutions for the scarcities, deficiencies, and dangers that will arise in a worst-case scenario. *Prepper's Survival Hacks* offers a wide range of creative ideas for transforming cheap and widely available items into life-saving gear: Harvest water in a transpiration bag. Catch food with a pocket fishing kit. Cook using a handy hobo stove. Craft quick fire starters in an egg carton. Make a mini oil lamp using a mint tin. Assemble a survival kit in a belt pouch. [Accessible Algebra](#) Anne Collins, Steven Benson, 2023-10-10 *Accessible Algebra: 30 Modules to Promote Algebraic Reasoning, Grades 7-10* is for any pre-algebra or algebra teacher who wants to provide a rich and fulfilling experience for students as they develop new ways of thinking through and about algebra. The book includes 30 lessons that identify a focal domain and standard in algebra, then lays out the common misconceptions and challenges students may face as they work to investigate and understand problems. Authors Anne Collins and Steven Benson conferred with students in real classrooms as the students explained what problem-solving strategies they were using or worked to ask the right questions that would lead them to a deeper understanding of algebra. Each scenario represents actual instances of an algebra classroom that demonstrate effective teaching methods, real-life student questions and conversations about the problems at hand. *Accessible Algebra* works for students at every level. In each lesson, there are sections on how to support struggling students as well as ways to challenge students who may need more in-depth work. There are also numerous additional resources, including research articles and classroom vignettes. *Save Your Money, Save Your Family: The Guide to Savvy Shopping Skills* Toni House, 2011-11 Toni House, America's most trusted money management consultant, gives you the tools to
