**World Report on Ageing and Health** World Health Organization, 2015-10-22 The WHO World report on ageing and health is not for the book shelf it is a living breathing testament to all older people who have fought for their voice to be heard at all levels of government across disciplines and sectors Mr Bjarne Hastrup President International Federation on Ageing and CEO DaneAge This report outlines a framework for action to foster Healthy Ageing built around the new concept of functional ability This will require a transformation of health systems away from disease based curative models and towards the provision of older person centred and integrated care It will require the development sometimes from nothing of comprehensive systems of long term care It will require a coordinated response from many other sectors and multiple levels of government And it will need to draw on better ways of measuring and monitoring the health and functioning of older populations These actions are likely to be a sound investment in society's future A future that gives older people the freedom to live lives that previous generations might never have imagined The World report on ageing and health responds to these challenges by recommending equally profound changes in the way health policies for ageing populations are formulated and services are provided As the foundation for its recommendations the report looks at what the latest evidence has to say about the ageing process noting that many common perceptions and assumptions about older people are based on outdated stereotypes The report's recommendations are anchored in the evidence comprehensive and forward looking yet eminently practical Throughout examples of experiences from different countries are used to illustrate how specific problems can be addressed through innovation solutions Topics explored range from strategies to deliver comprehensive and person centred services to older populations to policies that enable older people to live in comfort and safety to ways to correct the problems and injustices inherent in current systems for long term care *Environmental Health Perspectives*, 2007-08 **New York**

**Depressive Disorders** Neal L. Cohen, 2017-08-29 How does mental health impact public health In 2001 the WHO recognized depressive disorders as the leading cause of disability worldwide But most Americans who meet diagnostic criteria for major depression are untreated or undertreated Luckily recent advances have finally made it possible for the field of public health to address mental health in the population Public Health Perspectives on Depressive Disorders fills a gap by identifying the

tools and strategies of public health practice and by exploring their application to twenty first century public mental health policy and practice By looking at depressive disorders through a public health lens this book highlights the centrality of mental health to public health Linking the available research on depressive illness at the population level with public mental health policy and practice expert contributors set a research agenda that will help make mental health a central part of public health science and practice This book is an invaluable resource for researchers and practitioners to develop facilitate and conduct pilot and feasibility studies of promising preventive and treatment interventions that might mitigate the progression toward major depression and other mental disorders among populations at risk The first part of the book underscores the public health significance of depressive illness by focusing on the evidence provided by recent approaches to nosology epidemiology illness burden and impact on overall health The second part looks at the social and environmental influences on depressive disorders that are critical to future efforts to prevent illness and to promote mentally healthy communities The third and longest part addresses the vulnerability of diverse groups to depressive illness and underscore best practices to mitigate risk while improving both the preventive and therapeutic armamentaria Health and Medical Care in New York City Health Insurance Plan of Greater New York.
