**Casebook on Insurgency and Revolutionary Warfare: Revolution based on identity or ethnic issues** Chuck Crossett, 2012 This casebook provides a summary of twenty three insurgencies and revolutions the goal of the book is to introduce the reader to modern style irregular and unconventional warfare as well as to act as an informational resource on these particular cases While not trying to provide an in depth analysis of any case our intent was to provide enough background material and description of the revolution to allow comparisons and analysis of broader ideas and insights across this broad spectrum of cases If further study is desired each case contains a detailed bibliography that points toward what we found to be the most helpful and insightful sources All cases in this book are presented in a standardized format a research framework making it easy to compare various aspects of revolutionary warfare The Methodology section will define what each section of the framework provides and our justification for its inclusion preface v 2      [Sendero Luminoso in Context](#)
