Senior Management Control Of Computer Based Information Systems:

Senior Management Control of Computer-based Information Systems Robert Kuhn Mautz, Alan G. Merten, Dennis G. Severance, 1983 Managing Computer Based Information Systems in Developing Countries Abdullah H. Al-Abdul-Gader, 1999-01-01 Managing Computer Based Information Systems in Developing Countries A Cultural Perspective analyzes computer based information systems in the Arab Gulf Countries starting with an analysis of culturally oriented perceptions and attitudes It treats the issue of CBIS diffusion into the AGC with consideration to its vast potential of strategic tactical and operational demands of the region **Computerworld** ,1983-07-25 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld's award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world's largest global IT media network Personnel Literature ,1984 Financial Executive ,1984 Management Controls for Data Processing Price, Waterhouse & Co,1976 *Security of Computer Based Information Systems* V. Zani,1971 Introduction to information systems Technological considerations in information systems design Information systems administration Information systems for operation control Information systems for management control Information systems for strategic planning Information systems planning and organization **Issues & Trends of Information Technology Management in Contemporary Organizations** Information Resources Management Association. International Conference,2002-01-01 As the field of information technology continues to grow and expand it impacts more and more organizations worldwide The leaders within these organizations are challenged on a continuous basis to develop and implement programs that successfully apply information technology applications This is a collection of unique perspectives on the issues surrounding IT in organizations and the ways in which these issues are addressed This valuable book is a compilation of the latest research in the area of IT utilization and management New Directions in MIS Management Robert J. Thierauf,1988-11-15 Thierauf's work develops a number of interesting and potentially useful approaches to management information systems MIS practice The author presents a number of techniques some well known others more recent that practicing MIS managers may adopt to facilitate effective MIS planning for the 1990's by focusing on problem finding rather than on problem solving A primary recommendation of Thierauf's is the restructuring of the MIS organization using a functional end user departmental approach Discussed at length are various issues relevant to this restructuring such as staffing motivating MIS personnel and end users and MIS soft controls Recommended for upper level undergraduate and graduate students as well as practicing managers and MIS specialists Choice With new developments in hardware and software MIS managers are increasingly faced with the need to develop more sophisticated managerial as opposed to purely technical skills Here an acknowledged

expert in the field of information systems draws on his own original research and experience to develop a set of workable strategies and techniques that MIS managers can use to function more effectively as we move into the next decade Thierauf identifies probable trends in the field in coming years and outlines ways in which MIS managers can anticipate predictable problems apply improved management skills to the end user interface and effectively motivate MIS personnel Thierauf concentrates particularly on four major areas of managerial responsibility planning organizing motivating and controlling In planning he shows how to use problem finding techniques to anticipate and solve potential problems between MIS personnel and end users To help reduce this conflict Thierauf argues there is a need for a new direction in organizing MIS departments He proposes bringing MIS and end use departments together by using a functional departmental approach In motivating MIS personnel there is need to go beyond self actualization by emphasizing mutual actualization as well as self donation Finally in the area of control Thierauf advocates the use of soft controls to replace stringent controls that have had a tendency to restrict personal freedom on the job A common thread throughout the discussion is a focus on effective guidelines for the MIS manager to follow in order to come to grips with the changing realities of the 1990s *Systems Auditability & Control Study: Data processing control practices report* Stanford Research Institute,1977 *Management Accounting* ,1983
