The Use and Abuse of Music Eleanor Peters, 2019-08-23 Using a critical criminological approach, this book analyses what is deviant and transgressive about music, focusing on three main parts: the concept of harmful or deviant music, the use of music as punishment and the censorship and silencing of music.

Locating Imagination in Popular Culture Nicky van Es, Stijn Reijnders, Leonieke Bolderman, Abby Waysdorf, 2020-12-29 Locating Imagination in Popular Culture offers a multi-disciplinary account of the ways in which popular culture, tourism and notions of place intertwine in an environment characterized by ongoing processes of globalization, digitization and an increasingly ubiquitous nature of multi-media. Centred around the concept of imagination, the authors demonstrate how popular culture and media are becoming increasingly important in the ways in which places and localities are imagined and how they also subsequently stimulate a desire to visit the actual places in which people's favourite stories are set. With examples drawn from around the globe, the book offers a unique study of the role of narratives conveyed through media in stimulating and reflecting desire in tourism. This book will have appeal in a wide variety of academic disciplines ranging from media and cultural studies to fan and tourism studies, cultural geography, literary studies and cultural sociology.

Tourism as a Resource-based Industry Anna Lydia Svalastog, Dieter K. Müller, Ian Jenkins, 2022-08-16 Tourism as a Resource-based Industry presents the conceptual framework of the Norwegian economic geographer Sondre Svalastog and functions as a practical tool for analyzing and identifying resources when working towards a more sustainable tourism industry. Tourism resources and their sustainability are analysed through the lens of a multidisciplinary approach which includes social, economic, cultural and natural dimensions. Contextual awareness is achieved by combining research-based knowledge with local know-how and information on local conditions. The book facilitates a way forward that examines both productivity and sustainability. The usefulness and value of Svalastog's conceptual work is demonstrated by a selection of new case studies by

experts in the field from different countries including Sweden Norway Slovenia and the UK Tourism researchers and students will find this book helpful for understanding the development of tourism and how it can contribute to the UN Agenda 2030 which reflects the urgency for change to secure cultural and natural resources health and social resilience and the stability of a socially constructed economy Thus tourism research needs to include a constant review and if required renewal of processes that manage how society culture and natural resources are used to achieve a balanced sustainable tourism process
