Positivo Del No Lo:

El lado positivo del fracaso John C. Maxwell,2011-05-30 La principal diferencia entre la gente que alcanza metas y la gente promedio es su percepción y respuesta al fracaso John C Maxwell trata sobre las razones más importantes por las que la gente fracasa y muestra cómo dominar el temor en lugar de ser dominado por él Los lectores descubrirán que los beneficios positivos pueden acompañar las experiencias negativas si uno tiene la actitud correcta Completamente lleno de sugerencias de acción e historias de la vida real El lado positivo del fracaso ayudará a hombres y mujeres a superar los errores para satisfacer su potencial y lograr el éxito Nacieron algunas personas para lograr lo que quieren mientras que los demás tienen que luchar Algunos dirán que tienen suerte están bendecidos o tienen el toque de Midas Pero cuál es la razón de sus triunfos Ser que tienen mejor trasfondo familiar más capital mayores oportunidades o normas más altas John C Maxwell autor de éxitos de librería según el New York Times tiene la respuesta La diferencia entre la gente promedio y los triunfadores es el concepto que tienen del fracaso y cómo lo enfrentan La mayoría de las personas no está preparada para enfrentar al fracaso Dice Maxwell que si somos como era él al salir de la escuela temíamos al fracaso no lo entendíamos y huíamos de él Pero Maxwell ha aprendido a hacer del fracaso un amigo y puede enseñarnos a hacer lo mismo Quiero que aprenda cómo mirar con confianza la posibilidad de fracasar y a trabajar para transformar ese fracaso en victoria dice Maxwell Porque en la vida la pregunta no es si vamos a tener problemas sino cómo vamos a enfrentarlos No damos un paso atrás sino transformamos nuestros problemas en victorias

Anti-psicología positiva Julio Alfonso Piña López, 2021-02-15 En la actualidad la psicología positiva ha tenido una amplia difusión no solamente en la comunidad científica sino también en la sociedad en general ya que uno de sus campos más importantes es el estudio del sentimiento de felicidad o bienestar que perciben las personas independientemente del ambiente en donde viven Este libro es una aportación importante y controversial de dicha temática como lo seala Luis Fernandez Rios autor del prólogo convirtiéndolo en un inteligente intento de realizar una aproximación crítica acerca de la psicología de la positividad bajo el respaldo epistemológico de la denominada Anti Psicología Positiva Desde este punto de referencia se considera que los psicólogos positivos construyen teóricamente primero un ser humano desgraciado para posteriormente aportar soluciones mágicas sustentadas en narrativas literarias fantásticas que ocultan un negocio lucrativo que vende la ilusión de alcanzar un paraíso terrenal Es una obra de referencia que pone al día con una visión fresca novedosa y detallada las principales controversias surgidas en el seno de la ciencia sobre los postulados de la psicología positiva rompiendo con la idea como lo diría Jos R Alonso de que existe una mutación en los genes en nosotros los hispanos que nos predispone en contra de la ciencia Esta crítica de la psicología positiva se desarrolla a lo largo de cinco capítulos en el primero de ellos se aborda cómo la psicología positiva reinventa el paraíso terrenal En el segundo se presentan las virtudes y las fortalezas de carácter necesarias para incursionar en la psicología positiva El siguiente capítulo

aborda la manera en la que se maneja el optimismo mediante la perversión del lenguaje en la psicología positiva. Posteriormente en el capítulo cuatro se hace una analogía de las intervenciones de la psicología positiva al compararlas con el divino arte de seducir con la palabra. El libro termina con una serie de reflexiones a manera de corolario.
