Post-Communist Democratization John S. Dryzek, Leslie Holmes, 2002-06-13 Democracy is not just a matter of constitutions parliaments elections parties and the rule of law In order to see if or how democracy works we must attend to what people make of it and what they think they are doing as they engage with politics or as politics engages them This book examines the way democracy and democratization are thought about and lived by people in China Russia and eleven other countries in the post communist world It shows how democratic politics and sometimes authoritarian politics work in these countries and generates insights into the prospects for different kinds of political development The authors explore the implications for what is probable and possible in terms of trajectories of political reform and examine four roads to democratization liberal republican participatory and statist The book will be of interest to students and scholars of comparative politics political theory and post communist studies

Exploring the Caucasus in the 21st Century Francoise Companjen,László Marác, Lia Versteegh,2025-10-01 Although the name Caucasus has been around for some 2000 years and may suggest unity and coherence the region these days is best known for the ethnic and religious divides resulting in recurrent bloody conflicts between the various minorities and the post Soviet independent states Geographically the Caucasus has traditionally been a buffer between Russia Turkey and Iran Part Russian Federation part Georgia Armenia and Azerbaijan the area has a tradition of fast shifting partnerships of rich and varied cultural heritage and fierce ethnic tensions going back centuries This fascinating volume creates an illuminating perspective on the politics history and culture of the Caucasus it includes an account of how several 19th century Hungarian linguists fascinated by the region s famously difficult languages conducted field research still used by politicians to prove or disprove ethnic links an analysis of the recurring forcible movements of the people a study of the region s Russian Imperial past an exploration of the Muslim North Christian South division in the context of the recent conflicts and their international ramifications the elite driven nature of the region s politics finally the role of art as a medium of freedom in the war torn zones of the region

The Oxford Handbook of Peaceful Change in International Relations T. V. Paul, Deborah Welch Larson, Harold A. Trinkunas, Anders Wivel, Ralf Emmers, 2021 Abstract With the rapid rise of China and the relative decline of the United States the topic of power transition conflicts is back in popular and scholarly attention The discipline of International Relations offers much on why violent power transition conflicts occur yet very few substantive treatments exist on why and how peaceful changes happen in world politics This Handbook is the first comprehensive treatment of the subject of peaceful change in International Relations It contains some 41 chapters all written by scholars from different theoretical and conceptual backgrounds examining the multi faceted dimensions of this subject In the first part key conceptual and definitional clarifications are offered and in the second part papers address the historical origins of peaceful change as an International Relations subject matter during the Inter War Cold War and Post Cold War eras In the third part each of the IR theoretical traditions and paradigms in particular Realism liberalism constructivism and critical perspectives and their distinct views on peaceful change are analyzed In the fourth part papers tackle the key material ideational and social sources of change In the fifth part the papers explore selected great and middle powers and their foreign policy contributions to peaceful change realizing that many of these states have violent past or tend not to pursue peaceful policies consistently In part six the contributors evaluate the peaceful change that occurred in the world s key regions In the final part the editors address prospective research agenda and trajectories on this important subject matter Keywords Peaceful Change War Security International Relations Theory Sources of Change Systemic Theory Realism Liberalism Constructivism Critical Theories

Politisches Vertrauen in neuen Demokratien Daniela Braun, 2013-04-15 F r die vollst ndige Konsolidierung einer Demokratie ist eine demokratische politische Kultur vonn ten Vertrauen stellt in diesem Zusammenhang einen wesentlichen Aspekt dar und gilt zudem als unerl ssliche Voraussetzung f r Demokratien Erstaunlicherweise hat die

politikwissenschaftliche Forschung der Frage nach der Entwicklung des politischen Vertrauens in neuen Demokratien bislang jedoch nicht die notwendige Aufmerksamkeit geschenkt Vor diesem Hintergrund untersucht die Autorin drei wesentliche Fragestellungen anhand von empirisch quantitativen Analysen Wie entwickelt sich politisches Vertrauen in Ländern nach einem Systemumbruch Handelt es sich dabei um eine stabile Vertrauensbeziehung Inwiefern wirkt sich das Regimeerbe auf die Herausbildung und Entwicklung des politischen Vertrauens aus Die Ergebnisse beinhalten sowohl einen theoretisch konzeptuellen Beitrag zur politischen Vertrauensforschung als auch inhaltliche Erkenntnisse über die Vertrauensentwicklung in neuen Demokratien

Civil Society and Government Institutions in Armenia Valentina Gevorgyan, 2024-05-09 The book provides an understanding of the three decades of Armenia's young history from the perspective of relations between civil society and government institutions It explores the intricate dynamics between the two entities by explaining the patterns of relations since 1991 to present The book offers a comprehensive exploration for understanding the state society relations and also delves into the historical backdrop of the region Drawing on the latest data the author examines real world practices exemplifying relational variations and the opportunity structures for Armenia to progress by means of its civil society *Berliner Debatte Initial*, 2004

The Prospects for Liberal Nationalism in Post-Leninist States Cheng Chen, 2007-08-27 The fall of communism in the Soviet Union led many to hope and expect that liberal democracy would immediately take root across postcommunist states marking what Francis Fukuyama famously referred to as the end of history Since then however a very different picture has emerged most notably in the form of nationalist sentiments that have steered many postcommunist countries in an illiberal direction even in regimes committed to market reforms and formally democratic institutions Cheng Chen examines this phenomenon in comparative perspective showing that the different pathways of nation building under Leninism affected the character of Leninist regimes and later the differential prospects for liberal democracy in the postcommunist era In China and Russia Chen shows liberalism and nationalism were more difficult to reconcile because Leninism was indigenous and had a more significant impact on nation building In Hungary and Romania by contrast Leninism was a foreign import and had less of an effect on traditional national identity As we witness the struggle to establish democracy in places such as Afghanistan and Iraq a study that examines the salience of historical legacies seems particularly timely

Does Everyone Want Democracy? Paula L. W. Sabloff, 2016-06-16 Do all people desire democracy For at least a century the idea that democracy is a universal good has been an article of faith for American policy makers Paula Sabloff challenges this conventional wisdom about who wants democracy and why Arguing that certain universal human aspirations exist she shows how local realities are highly particularistic and explains that culture history and values are critical to the study of political systems Her fascinating study of Mongolia feudal until it became the first country to follow Russia into communism and now struggling with post socialist democratization is a model for investigating how everyday people around the world actually think about and implement

democracy on their own terms On the Edge of Democracy Rosario Forlenza, 2018-10-25 On the Edge of Democracy examines the emergence of democracy in Italy in the wake of World War Two It examines the nature of the democracy forged in the liminal period after Benito Mussolini the Duce of Fascism was removed from government in the summer of 1943 Instead of pouring through institutional accounts which root the origins of democracy in the establishment of parties and in electoral outcomes Forlenza focuses on the lived experiences of ordinary people and elites in extraordinary times Meanings of democracy are not variations of a universal model but emerge as contingent interpretative acts and a symbolization following political and existential crisis under condition of violence and war On the Edge of Democracy captures a series of key events which saw people torn between going home or staying at the front between clinging to a disrespected but habitual monarchy or engaging with a republican experiment Becoming a democracy was also a kind of politically spiritual act the power of the myth of America and the struggle for order as a function of the cosmic fight between communism and ant communism in the incipient Cold War had a formative power on the origins meanings and characters of post fascist democracy in Italy **Osteuropa** ,2004 **Jahrbuch Extremismus & Demokratie** ,2003 **Explaining Post-communist Diversity** Mieczyslaw Pawel Boduszynski, 2004 **Problems of Post-communism** ,2006 *Karlsruher juristische Bibliographie* ,2002 *Slavic Review* ,2003 American quarterly of Soviet and East European studies varies

Federalism and Decentralisation in Eastern Europe Miodrag A. Jovanović, Slobodan Samardžić, 2007 Although fully aware of the gravity of violent ethnic wars and challenges that multiethnic societies pose for any democratic polity both authors endorse multicultural democracy Jovanovic argues against territorial accommodation of ethnic demands and in favour of community based minority rights policy Samardzic understands territorial decentralisation as an indispensable guarantee for a fully fledged protection of minority ethnic groups Despite this major conceptual difference they put forward democratic legitimacy as a fundamental condition for peaceful multiethnic societies Trust and Transitions Joseph D. Lewandowski, Milan Znoj, 2008 Employing a range of empirical and theoretical approaches contributors to this volume examine the nature and function of trust from within the framework of social capital theory The empirically oriented chapters focus on post Communist countries including Serbia and Montenegro Romania and especially the Czech Republic Indeed the collection contains an entire section devoted to analyzing trust and transition in the wake of the velvet revolution The theoretical chapters engage the work of Tocqueville Putnam and Uslaner among others as they seek to clarify and rethink what in fact trust is where trust originates the causal relevance of trust for successful marketization and democratization and the extent to which existing conceptions of social capital can be adequately deployed in diverse contexts With contributions from noted American and Central European political scientists sociologists and philosophers this book presents an illuminating set of contemporary perspectives on the complex role of trust in times of transition Political Science Quarterly Munroe Smith, Thomas Reed Powell, Parker Thomas Moon, Henry Raymond Mussey, Robert Livingston
