Representing Humanity in the Age of Enlightenment Alexander Cook, 2015-10-06 The Enlightenment era saw European thinkers increasingly concerned with what it meant to be human This collection of essays traces the concept of humanity through revolutionary politics feminist biography portraiture explorer narratives libertine and Orientalist fiction the philosophy of conversation and musicology *Ignaz Kolisch* Fabrizio Zavatarelli, 2015-10-27 An enthusiastic verve brio some could say marked both Ignaz Kolisch's personality and his games This book documents the life of the Hungarian chess champion 1837 1889 and successful financier setting it in the cosmopolitan framework of mid 19th century Europe The text is enriched by about 125 or so gleanings about the lives of his competitors including Arnous de Riviere Anderssen Morphy Mackenzie Paulsen Falkbeer Rosenthal Steinitz Winawer More than 300 specimens of his play are presented by far the largest collection ever complete with sources and coeval annotations translated from many languages Several widespread and long standing errors are corrected A work deeply researched among sources in many languages the book serves also as a record of European chess in the late 1850s through the 1880s **The Gramophone**, 1999 A Certain Share of Low Cunning David J. Cox, 2010-02 This book provides an account and analysis of the history of the Bow Street Runners precursors of today's police force Through a detailed analysis of a wide range of both qualitative and quantitative research data this book provides a fresh insight into their history arguing that the use of Bow Street personnel in provincially instigated cases was much more common than has been assumed by many historians It also demonstrates that the range of

activities carried out by Bow Street personnel whilst employed on such cases was far more complex than can be gleaned from the majority of books and articles concerning early nineteenth century provincial policing which often do little more than touch on the role of Bow Street By describing the various roles and activities of the Bow Street Principal Officers with specific regard to cases originating in the provinces it also places them firmly within the wider contexts of provincial law enforcement and policing history The book investigates the types of case in which the Runners were involved who employed them and why how they operated including their interaction with local law enforcement bodies and how they were perceived by those who utilized their services It also discusses the legacy of the Principal Officers with regard to subsequent developments within policing Bow Street Police Office and its personnel have long been regarded by many historians as little more than a discrete and often inconsequential footnote to the history of policing leading to a partial and incomplete understanding of their work This viewpoint is challenged in this book which argues that in several ways the utilization of Principal Officers in provincially instigated cases paved the way for important subsequent developments in policing especially with regard to detective practices It is also the first work to provide a clear distinction between the Principal Officers and their less senior colleagues
