Post Impressionism:

Impressionism and Post-Impressionism Nathalia Brodskaja, 2018-03-13 Impressionism is the most famous artistic movement. But what appears today as a charming and exquisite landscape painting was actually one of the first avant garde movements whose members had decided to fight the values of traditional art. The impressionist outdoor paintings shocked the public by the technique used but also by their apparent banality. As Monet, Sisley, Pissarro and many others sought to capture the ephemeral nature of light, the next generation would reject naturalism. Indeed, post impressionists such as Gauguin, Van Gogh, Cézanne and Seurat favored the subjective rather than the objective and the eternal rather than the concrete. In doing so, they laid the formal foundations of 20th century modern art. This book is a visual guide through the crucial moments in the history of art and the progression of the 19th century to modernity. **Post-impressionism** Nathalia Brodskaja, 2010-01-01 Rich in its variety and in the singularity of its artists, Post Impressionism was a passage taken by the well known figures of 20th century painting including Van Gogh, Cézanne and Seurat. **Post-impressionism** John Rewald, 1978 A lavishly illustrated book that concentrates on the works of Van Gogh and Gauguin. **Critical Readings in Impressionism and Post-Impressionism** Mary Tompkins Lewis, 2007 The essays in this wide ranging text capture the theoretical range and scholarly rigor of criticism that has fundamentally transformed the study of French Impressionist and Post Impressionist art. **Post-impressionism** Colin Wiggins, 1993 A visual guide to the post impressionist painters and the influences that shaped their work. **Post-Impressionism** Emilie Dufresne, 2021-07-15 The work of post impressionists is some of the best known art in the world. Vincent van Gogh was a post impressionist painter and so was Paul Cézanne. Readers learn all about these famous post impressionists in this book alongside a friendly gallery worker guide. The main features and techniques of post impressionism are covered and activities help readers create their own post impressionist masterpieces. Including examples of famous post impressionist works, an explanation of what an art gallery is and a quiz to aid in comprehension, this book is a great introduction to an important movement in art history. **Cézanne and the End of Impressionism** Richard Shiff, 1984 Drawing on a broad foundation in the history of nineteenth century French art, Richard Shiff offers an innovative interpretation of Cézanne's painting. He shows how Cézanne's style met the emerging criteria of a technique of originality and how it satisfied critics sympathetic to symbolism as well as to impressionism. Expanding his study of the interaction of Cézanne and his critics, Shiff considers the problem of modern art in general. He locates the core of modernism in a dialectic of making technique and finding originality. Ultimately, Shiff provides not only clarifying accounts of impressionism and symbolism but of a modern classicism as well. **Post-impressionism** Thomas Parsons, Iain Gale, 1999 Within a year of closing the last Impressionist exhibition in 1886, a large and disparate group of movements had appeared, each with its own beliefs about the nature and function of art. From Neo Impressionism to Symbolism, from Gauguin and van Gogh to Matisse and Munch, the program of 20th century art was emerging. These individual styles are now collectively

referred to as Post Impressionism This book imposes coherence and a sense of pattern upon this diverse mix of movements and individuals that reacted against the style and subject matter of the Impressionists The sociohistoric background against which Post Impressionism evolved and the international reverberations of the movement are presented Special emphasis is given to the revolution that Post Impressionism created in Russia which had effects far beyond the confines of art

represented both an extension of Impressionism and a rejection of that style's inherent limitations. The term Post Impressionism was coined by the English art critic Roger Fry for the work of such late 19th century painters as Paul Cézanne, Georges Seurat, Paul Gauguin, Vincent van Gogh, Henri de Toulouse-Lautrec and others. Most of these painters began as Impressionists; each of them abandoned the style, however, to form his own highly personal art. Impressionism was based in its strictest sense on the objective recording of nature in terms of the fugitive effects of colour and light. The Post Impressionists rejected this limited aim in favour of more ambitious expression, admitting their debt, however, to the pure brilliant colours of Impressionism, its freedom from traditional subject matter and its technique of defining form with short brushstrokes of broken colour. The work of these painters formed a basis for several contemporary trends and for early 20th century modernism. Cézanne and Post-impressionism Diana Vowles, 1994
