The Historical Archaeology of the Pacific Northwest Douglas C. Wilson, 2024-12-17 In this book Douglas Wilson uses historical documents Indigenous oral traditions and the material record to provide a comprehensive overview of the historical archaeology of the Pacific Northwest region from the seventeenth through the twenty first centuries **Peace Arch Port of Entry Redevelopment, Whatcom County** ,2005 **Bull Run Water Supply Habitat Conservation Plan** ,2008

Making Salmon Joseph E. Taylor III, 2009-11-23 Winner of the George Perkins Marsh Award American Society for Environmental History *A Very Remarkable Sickness* Paul Hackett, 2002-12-04 The area between the Great Lakes and Lake Winnipeg bounded on the north by the Hudson Bay lowlands is sometimes known as the Petit Nord Providing a link between the cities of eastern Canada and the western interior the Petit Nord was a critical communication and transportation hub for the North American fur trade for over 200 years Although new diseases had first arrived in the New World in the 16th century by the end of the 17th century shorter transoceanic travel time meant that a far greater number of diseases survived the journey from Europe and were still able to infect new communities These acute directly transmitted infectious diseases including smallpox influenza and measles would be responsible for a monumental loss of life and would forever transform North American Aboriginal communities Historical geographer Paul Hackett meticulously traces the diffusion of these diseases from Europe through central Canada to the West Significant trading gatherings at Sault Ste Marie the trade carried throughout the Petit Nord by Hudson Bay Company ships and the travel nexus at the Red River Settlement all provided prime breeding ground for the introduction incubation and transmission of acute disease Hackett s analysis of evidence in fur trade journals and oral history combined with his study of the diffusion behaviour and characteristics of specific diseases yields a comprehensive picture of where when and how the staggering impact of these epidemics was felt

America, History and Life ,1991 *Bibliographic Guide to Anthropology and Archaeology* ,1991 **American Indian Culture and Research Journal** ,1991 *Marmes Rockshelter* Brent A. Hicks, 2004 The Marmes Rockshelter is one of the most significant archaeological sites in the Pacific Northwest not only due to its 11 000 year record of human use beginning in early Holocene times but also because of the attention it generated toward American archaeology This volume includes a complete analysis and interpretation of all of the available information from the site s rockshelter and floodplain areas *The Cumulative Book Index* ,1991 A world list of books in the English language **Cascadia Wild** Mitch Friedman, Paul J. Lindholdt, 1993 *Indian Slavery, Labor, Evangelization, and Captivity in the Americas* Russell M. Magnaghi, 1998-03-12 This bibliography is focused on the history of the imposition of policies upon Native Americans by the governments of other peoples All of the books and articles included in this work were selected because they represent activities in which Native Peoples were forced into work religion or a lifestyle that ran contrary to their traditions *A Pest in the Land* Suzanne Austin Alchon, 2003 This study of disease among the native peoples of the New World before and after

1492 challenges many widely held notions about encounters between European and native peoples Whereas many late twentieth century scholars blamed the catastrophic decline of postconquest native populations on the introduction of previously unknown infections from the Old World Alchon argues that the experiences of native peoples in the New World closely resembled those of other human populations Exposure to lethal new infections resulted in rates of morbidity and mortality among native Americans comparable to those found among Old World populations Why then did native American populations decline by 75 to 90 percent in the century following contact with Europeans Why did these populations fail to recover in contrast to those of Africa Asia and Europe Alchon points to the practices of European colonialism Warfare and slavery increased mortality and forced migrations undermined social political and economic institutions This timely study effectively overturns the notion of New World exceptionalism By showing that native Americans were not uniquely affected by European diseases Alchon also undercuts the stereotypical notion of the Americas as a new Eden free of disease and violence until the intrusion of germ laden rapacious Europeans The British National Bibliography Arthur James Wells,1992 **Antiquity** Osbert Guy Stanhope Crawford,2000 Includes section Reviews **Ecological Stewardship** William T. Sexton,1999 Subject Guide to Books in Print ,1996 **Books in Print** ,1991 *Archaeology in Washington* Ruth Kirk,Richard D. Daugherty,2007 Archaeology along with Native American traditions and memories holds a key to understanding early chapters of the human story in Washington This all new book draws together and brings up to date much of what has been learned about the state s prehistory and the environments early people experienced It presents a sample of sites representing Washington s geographic regions and touches on historical archaeology including excavations at fur trade forts and the Whitman mission and Cathlapotle a Columbia River village visited by Lewis and Clark The authors portray the discovery of a mastodon butchered by hunters on the Olympic Peninsula 14 000 years ago the nearly 13 000 year old Clovis points in an East Wenatchee apple orchard an 11 200 year old Marmes Man in the Palouse and the controversial Kennewick Man more than 9 000 years old eroded out of the riverbank at Tri Cities They discuss a 5 000 year old camas earth oven in the Pend Oreille country 5 000 years of human habitation at Seattle s Metro sewage treatment site the recovery at Hoko River near Neah Bay of a 3 200 year old fishnet made of split spruce boughs and tiny stone knife blades still hafted in cedar handles and the world renowned coastal excavations at Ozette where mudslides repeatedly swept into houses burying and preserving them The tale ranges from the earliest bands of hunters fishers and gatherers to the complex social organizations and highly developed technologies of native peoples at the time of their disruption by the arrival of Euro American newcomers Also included is a summary of the changing role techniques and perspectives of archaeology itself from the surveys and salvage excavation barely ahead of dam construction on the Snake and among Columbia rivers to today s collaboration between archaeologists Native Americans private landowners and public agencies Color photographs line drawings and maps lavishly illustrate the text **PostColombian Culture History in the Northern Columbia Plateau,**
