Postmodern Philosophy And Law Rorty Nietzsche Lyotard Derrida Foucault:

Postmodern Philosophy and Law Douglas E. Litowitz, 1997 The author presents a two tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists notably Friedrich Nietzsche Michel Foucault Jacques Derrida Francois Lyotard and Richard Rorty He concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system Annotation copyrighted by Book News Inc Portland OR

The Analysis of Legal Cases Flora Di Donato, 2019-07-04 This book examines the roles played by narrative and culture in the construction of legal cases and their resolution It is articulated in two parts Part I recalls epistemological turns in legal thinking as it moves from theory to practice in order to show how facts are constructed within the legal process By combining interdisciplinary paradigms and methods the work analyses the evolution of facts from their expression by the client to their translation within the lawyer client relationship and the subsequent decision of the judge focusing on the dynamic activity of narrative construction among the key actors client lawyer and judge Part II expands the scientific framework toward a law and culture oriented perspective illustrating how legal stories come about in the fabric of the authentic dimensions of everyday life The book stresses the capacity of laypeople who in this activity are equated with clients to shape the law dealing not just with formal rules but also with implicit or customary rules in given contexts By including the illustration of cases concerning vulnerable clients it lays the foundations for developing a socio clinical research programme whose aims including enabling lay and expert actors to meet for the purposes of improving forms of collective narrations and generating more just legal systems

Contemporary Methods in International Legal Research Juan J Garcia Blesa, 2024-12-01 This book is a concise practical guide to some of the most relevant ways of thinking and doing international legal research today It is designed to help students and early career researchers to get acquainted with the theory and practice of a selection of non doctrinal modes of legal research that include feminist international law critical international law and TWAIL complemented with qualitative methods of empirical legal research The book also encourages a meaningful dialogue with traditional doctrinal styles of legal research The book's most innovative aspect is its practical learner centred approach which focuses on the applied learning of the modes of research presented
