Natoli, Linda Hutcheon, 1993-01-01 These readings are organized into four sections The first explores the wellsprings of the debates in the relationship between the postmodern and the enterprise it both continues and contravenes modernism Here philosophers social and political commentators as well as cultural and literary analysts present controversial background essays on the complex history of postmodernism The readings in the second section debate the possibility or desirability of trying to define the postmodern given its cultural agenda of decentering challenging even undermining the guiding master narratives of Western culture The readings in the third section explore postmodernism s complicated complicity with these very narratives while the fourth section moves from theory to practice in order to investigate in a variety of fields the common denominators of the postmodern condition in action **The Postmodernism Reader** Michael Drolet, 2004 The Postmodernism Reader traces the origins development and the politics of postmodernism through the key writings of postmodernist thinkers This collection of foundational essays restores the poignancy that has been lost or even emphatically rejected in the debate about postmodernism by focusing on central formative texts and the predominant thinkers we have come to associate with postmodernist theory Michael Drolet s authoritative introductory essay and his careful selection of texts provide a solid basis for the study of postmodernism by uncovering the philosophical origins of present theories and focusing on their major aspects guiding the reader through the maze of knowledge that we call
