Postmodernism in History Beverley C. Southgate, 2003

Postmodernism in History Beverley Southgate, 2003-09-02

This book traces the philosophical precursors of postmodernism and identifies the roots of current concerns. Beverley Southgate describes the core constituents of postmodernism and provides a lucid and profound analysis of the current concerns.

Women in the Great European Revolutions Bailey Stone, 2025-10-30 This book explores and compares the roles, mentalities and destinies of elitist and working class women in Europe's most dramatic revolutions: England's Puritan Revolution of 1640-1660, France's 1789 Revolution, and Russia's 1917 Revolution. By providing one of the most detailed analyses to date of how feminist historians, sociologists, and specialists theorize gender, sexuality, and patriarchy, the author draws connections to current debate over the causation of sociopolitical revolutions and how such scholars speculate about the long-term implications of such revolutions for women in the USA and in other countries. This book briefly outlines the stage-by-stage progression of events in the English, French, and Russian Revolutions, thus enabling the general reader to contextualize more easily its discussion of women's revolutionary experiences in those countries. This book reappraises the relative importance ascribable to gendered cultural and to statist geopolitical factors through the disastrous revolutionary careers of three consort queens: the Henrietta Maria of England, Marie Antoinette of France, and Alexandra Feodorovna of Russia, by contrasting their political failings with the political acumen of three earlier regnant queens in these three countries: the Elizabeth I, Catherine de Medici, and Catherine II the Great. Finally, this book demonstrates how women of humble social station used these unheard-of revolutionary situations either to express their grievances and voice their social aspirations or, on the other hand, to reaffirm their long-held allegiance to traditional principles, customs, and religion. It concludes by discussing race, ethnicity, and statism as challenging issues that need to be confronted in any current discussion of women's revolutionary experiences.

The houses of history Anna Green, Kathleen Troup, 2016-08-15 The houses of history is a clear jargon-free introduction to the major theoretical approaches employed by historians. This innovative critical reader provides accessible introductions to fourteen schools of thought from the empiricist to the postcolonial, including chapters on Marxist history, Freud and psychohistory, the Annales, historical sociology, narrative gender, public history, and the history of the emotions. Each chapter begins with a succinct description of the ideas integral to a particular theory. The authors then explore the insights and controversies arising from the application of this model, drawing upon debates and examples from around the world. Each chapter concludes with a representative example from a historian writing within this conceptual framework. This newly revised edition of the highly successful textbook is the ideal basis for an introductory course in history and theory for students of history at all levels.

Beginning Postmodernism Tim Woods, 2009 Postmodernism became the buzzword of contemporary

society in the 1990s Yet even now it still remains confusing and baffling in its variety of definitions contexts and associations Beginning Postmodernism aims to offer clear accessible and step by step introductions to postmodernism across a wide range of subjects It encourages readers to explore how the debates about postmodernism have emerged from basic philosophical and cultural ideas and to develop comparative connections and ideas from one area to another With its emphasis firmly on postmodernism in practice the book contains questions designed to help readers understand and reflect upon a variety of positions within the following areas of contemporary culture philosophy and cultural theory architecture and concepts of space visual art sculpture and material culture popular culture and music film video and television and the social sciences Militärgeschichtliche Zeitschrift ,2006 **Tropes for the Past** Kuisma Korhonen,2006 In the last decades there has been an intense debate on the relationship between literature and historiography often linked to the debate between empiricists and postmodernists The aim of this collective work is to address this debate and to search for new ways of thinking and encountering the past The key note for the book comes from Hayden White one of the leading academic figures whose role in launching the contemporary history literature debate has been crucial It is followed by three critical readings of his work all suggesting new ways to apply or challenge his views In other chapters of the book history literature question is then addressed from three points of view narrativity history as literature and literature as history Tropes for the Past is an ideal introduction to the literature historiography debate and Hayden White s role in it It will be of use for all students and scholars in the philosophy of history and in historically oriented literary cultural and social studies
