Postmodernism, Reason and Religion Ernest Gellner, 2013-03-01 First Published in 1992 On questions of faith Ernest Gellner believes three ideological options are available to us today One is the return to a genuine and firm faith in a religious tradition The other is a form of relativism which abandons the notion of unique truth altogether and resigns itself to treating truth as relative to the society or culture in question The third which Gellner calls enlightenment rationalism upholds the idea that there is a unique truth but denies that any society can ever possess it definitively Learned and stimulating Professor Gellner's book is an important contribution to our understanding of postmodernism and the relations between Islam and the West It will be of great interest to anyone concerned with the ideological condition of contemporary society

Durkheim and Postmodern Culture Stjepan Mestrovic, 2017-09-29 The present work is an elaboration of the author's previous efforts in *Emile Durkheim and the Reformation of Sociology* 1988 and *The Coming Fin de Sicle* 1991 to demonstrate Durkheim's neglected relevance to the postmodern discourse The aims include finding affinities between our fin de sicle and Durkheim's fin de sicle and connecting the contemporary themes of rebellion against Enlightenment narratives found in postmodern culture with similar concerns found in Durkheim's sociology as well as in his fin de sicle culture contributing to Durkheimian scholarship as well as to the postmodern discourse The distinctive aspects of the present

study flow from the focus on culture communication and the feminine voice in culture Durkheim is approached as a fin de siècle student of culture and his insights applied to our fin de siècle culture Furthermore because Durkheim claimed that culture is comprised primarily of collective representations he was a forerunner of the current postmodern concerns with communication Because Durkheim shall be read in the context of his fin de siècle this book shall lead to the conclusion that Durkheim was a kind of psychoanalyst such that society is the patient culture comprises the symptoms and the sociologist must decipher decode and even deconstruct collective representations Yet the Durkheimian deconstruction proposed here is unlike the postmodern deconstructions which criticize and tear apart a text without substituting a better meaning or interpretation Postmodern discourse has made respectable again the synthesis of multidisciplinary insights that was fashionable in Durkheim's fin de siècle In following this postmodern strategy this book is more than a book about Durkheim It is also a book about his contemporaries among them Carl Gustav Jung Thorstein Veblen Henry Adams Georg Simmel and Max Weber The author does not follow the postmodern strategy completely because he follows The Challenges of Contemporaneity Roida Rzaeva Oktay, 2016-06-07 This book presents an overview of postmodernism and its social indicators and of the postmodern condition in consciousness as an indicator of its modification and development The book brings together philosophical sociological and cultural approaches towards contemporary societal issues such as multiculturalism culture of dialogue philosophy of dialogue tolerance and gender In doing so it suggests a framing approach to cross disciplinary research The book also discusses various forms of multiculturalism including multiculturalism as multiple modernities and plural modernities and non Western contemporaneity It explores the background of the dynamics of the development of public consciousness in particular from the modern to postmodern and subsequently examines the West non West dichotomy and how that dichotomy is currently being reconsidered in response to the intellectual spiritual realities of modern life

Navigating Postmodern Theology Michael J. McGraw, 2023-07-03 Theology in the postmodern era has encountered various cultural and narrative shifts which have helped shape the Roman Catholic Church and Christianity at large Negatively the Church has been affected by external factors e.g. globalization immigration emigration increased access to technology etc and internal struggles e.g. reduced church attendance an aging population etc Positively postmodernity has ushered in a return to religion through new philosophical and theological ideas e.g. phenomenology existentialism post metaphysics etc This book aims to contribute to the ongoing postmodern concerns addressed in the cultural and narrative shifts by focusing on the work of Jean Luc Marion and Gianni Vattimo The emphasis of this project focuses on the use of metaphysics as the foundational tool of theology and its corresponding limitations while also addressing the Christian virtue of caritas Addressing this attribute of Christianity this project observes the possibility of a return to religion one that reflects the postmodern exploration of religion by the several philosophers addressed herein While Michael J McGraw avoids offering a reconstruction of theology or more specifically ecclesiology he aims to re establish the importance of philosophy
