Postnational Constellation:

The Postnational Constellation Jürgen Habermas, 2001-02-02 translated edited and with an introduction by Max Pensky Does a global economy render the traditional nation state obsolete Does globalization threaten democratic life or offer it new forms of expression What are the implications of globalization for our understanding of politics and of national and cultural identities In *The Postnational Constellation* Jürgen Habermas addresses these and other questions He explores the historical and political origins of national identity the achievements and catastrophes of the twentieth century the future of democracy in the wake of the era of the nation state the political and moral challenges facing the European Union and the status of global human rights in the ongoing debate on the sources of cultural identity In their scope critical insight and clarity the essays present a powerful vision of the contemporary political scene and the opportunities and challenges facing us Those new to Habermas's work will find in this book a lucid and engaging introduction to one of the twentieth century's most influential thinkers Those familiar with Habermas's writings will appreciate the application of his social and political theories to current political realities

Habermas and Contemporary Society J. Sitton, 2003-08-15 Over the last four decades Jürgen Habermas has forged an innovative and much discussed theory of contemporary capitalist society Building on Max Weber's thesis that the dynamic of capitalism actually erodes individual freedom and the meaningfulness of social life famously resulting in a culture of specialists without spirit sensualists without heart Habermas traces contemporary social conflict to resistance to this dynamic by a variety of social groups His theory of communicative action attempts to show the possibilities in contemporary society for moving toward a more balanced social life that unlike other political currents today would not sacrifice the truly progressive features of complex modern societies By marginalizing methodological and other more specialized theoretical concerns this book focuses on Habermas's substantive portrayal of contemporary society and its discontents

NGOs as Legitimate Partners of Corporations Dorothea Baur, 2011-08-21 The interaction between corporations and non governmental organizations NGOs has become an important topic in the debate about corporate social responsibility CSR Yet unlike the vast majority of academic work on this topic this book explicitly focuses on clarifying the role of NGOs not of corporations in this context Based on the notion of NGOs as political actors it argues that NGOs suffer from a multiple legitimacy deficit they are representatives of civil society without being elected the legitimacy of the claims they raise is often controversial and there are often doubts regarding the legitimacy of the behaviour they exhibit in putting forward their claims Set against an extended sphere of political action in the postnational constellation this book argues that the political model of deliberative democracy provides a meaningful conceptualization of NGOs as legitimate partners of corporations and it develops a conceptual framework that specifically allows distinguishing legitimate partner NGOs from two related actor types with whom they share certain characteristics but who differ with respect to their legitimacy These related actor types are interest groups on the one hand and activists on the other hand In conclusion it argues that a focus on

the behaviour of NGOs is most meaningful for distinguishing them from interest groups and activists

Northern Constellations C. Claire Thomson, 2006 DRAMA THEATRE ARTS SCANDINAVIAN NORDIC *Theater am Hof und für das Volk* Brigitte Marschall, 2002 **Maske und Kothurn**, 2002 **Jürgen Habermas** Martin Beck Matušík, Martin Joseph Matušík, 2001 This philosophical political profile offers the first of its kind intellectual reconstruction of Habermas's defining existential and historical situations his generational profile and interventions his impact on as well as the discontents that his life work generates in others Written as a lively dramatic engagement with major themes of Habermas's adult life in postwar Germany the entire study occupies a unique place between the standard genres of a biography and a theoretical commentary on the oeuvre In this work the reader is taken on a journey with Habermas through the 20th century intellectual and political history from the defeat of Nazism to the Cold War restoration of the 50s the student movement of the 60s the historical revisions of the 70s and 80s the hope of the post Wall era after 1989 all the way to the controversies surrounding the allied wars of intervention against Iraq and Serbia in the 1990s Both beginning and advanced readers of 20th century socio political thought gain greater insight into the existential political and philosophical influences that proved to be formative of Habermas's writing and activism in the public sphere The first part of the study emphasizes the unfolding linear view of Habermas's postwar history punctuated by the major existential and political situations of his young adult life from 1945 to 2000 The second part returns to the same time span in order to reconstruct Habermas's mature post Wall intellectual profile in contrast to the profiles of the preceding generation of 1945 and the later protesting generation of 1968 The third part examines the tremendous Habermas effect exercised on 20th century thought and public policy The concluding chapters discuss critically the lasting place as well as the limits of Habermas's achievement in contribution to a development of new critical theory The book is enhanced by an introduction that provides a historical and conceptual background to the major themes discussed twelve helpful thematic table *Understanding Habermas* Erik Oddvar Eriksen, Jarle Weigard, 2003 This overview of Habermas work explores the way in which his theories have developed and changed leading to an exposition of his more complex ideas and theories His theory of communicative action is analysed as are key themes and how they inter relate *The Americanist*, 2006 Neoliberalism and Migration Sabine Dreher, 2007 This series is dedicated to theoretical contributions and systematic empirical studies of political economic and cultural formations which cross the borders and boundaries of states The focus is on the main areas of public policy security human rights legitimacy of political systems welfare and developments in the Global South This third volume looks at the role of neoliberalism in the institutionalization of differential rules for capital and migration flows in the global economy **Constitutional Patriotism in Obama's Anti-Terror Speeches** Otto Möller, 2019-03-27 Seminar paper from the year 2016 in the subject Politics Region USA grade 1 7 University of Kent language English abstract What is Constitutional Patriotism How is it used in his three speeches to gather the spirits of the Americans How does the notion of nation state differ between the EU and the United States

According to Ernest Gellner It is nationalism which engenders nations and not the other way round Surely most nations were formed on a nationalistic idea but with nationalism follows patriotism and a sense of proselytisation First of all what is a nation and why is it of relevance for today s international system A nation defines itself through its territory its culture and its political community which is represented and run by a sovereign organized government The unite state acts motivated by self interests States are the most common structure of state organisation in the international system They enjoy independence and legitimacy Nation states are of extraordinary relevance for the field of international relations because they are more robust once they are established based on a distinct nationality Moreover it is the only structure in which the growth of democracy is possible and which does not have a tendency to expand its territory This strong and steady status of nations turned out to be crucial for the development of modern financial industrial and technological civilization in Western Europe in the 17th and 18th centuries It was only in the 16th and 17th century that the people of a state obtained the right to choose their representatives before that they were subjects to the ruler of the state States ruled in that way had seven different forms personal rule theocracy city state oligarchy military state tribal state and empire

Radical Philosophy,2004 *The Chartering of Europe* Erik Oddvar Eriksen,2003 This book stems from a concern with the role of the Charter in fostering a constitutional moment in Europe It addresses the question of the nature and character of the Charter why it is needed and what is its contribution to the constitution making process in the EU The book is divided in three sections The first section deals with why a charter of fundamental rights is needed The section includes a chapter comparing the European and the Canadian Charters In the second section the processes and deliberations leading to the formation of the Charter are discussed The last section deals with the legal and normative coherence of the Charter and includes a chapter on the need for a European constitution This book is composed of 12 essays from specialists in the field of European Integration Processes and Constitutionalism among others Neil MacCormick and Jurgen Habermas

Contemporary Drama in English,2003 *Liberal Humanism and the Non-western Other* Sushil Kumar,2014 New German Critique ,2010 **Of States, Rights, and Social Closure** Oliver Schmidtke,Saime Ozcurumez,2008-04-09 Increased levels of immigration sparked scholarly and public debate about its consequences for immigrants liberal democracies sovereignty and rights in both Europe and North America This book addresses questions such as Do nation states act to facilitate or limit immigration and integration how and why How do nation states themselves transform in understanding and interpreting rights respond to immigration Does the European Union make a difference in terms of how immigrants are perceived or how they act as stakeholders in liberal democracies Through a collection of rich theoretical and empirical contributions diverse and intriguing responses are provided with case studies from Europe and North America

Die Bilderwelt der Goldhagen-Debatte Sabine Manke,2004 Es sind nicht allein Texte gesprochene oder geschriebene die medial vermittelte Debatten um Geschichte konstituieren Vielmehr sind diese Texte eingebunden und begleitet von audio visuellen

Inszenierungen die über ihre Erlebnisqualität gleichermaßen Sinn transportieren Die vorliegende Veröffentlichung wählt deswegen mit beiden Helden im Bildermittel der Goldhagen Debatte aus den Jahren 1996/97 um aus den auffindbaren Versatzstücken ein multimediales Bedeutungsmosaik zusammenzusetzen Verspinnene Vorberichte und Studioarrangements von in Deutschland produzierten Podiumsdiskussionen sowie Gegenwartsaufnahmen und dokumentarisches Bildmaterial aus den Printmedien dienen dabei als Grundlage zur Rekonstruktion kollektiver Vorstellungen Konflikte und Wünsche im wiedervereinigten Deutschland In diesem Zusammenhang rückt auch die frappierende Unterrepräsentation von Frauen in der Fernsehöffentlichkeit der Kontroverse ins Visier die mit der stark geschlechtsspezifisch konnotierten Bilderwelt der Goldhagen Debatte kontrastiert **Osteuropa** ,2004 *LiLi, Zeitschrift für Literaturwissenschaft und Linguistik* ,2004
