Poststructuralism and Educational Research Michael A. Peters, Nicholas C. Burbules, 2004-01-29 What does poststructuralism mean for authors such as Foucault Lyotard Cixous Derrida and Haraway to name a few and what significance does it have for educational inquiry This book takes on these central questions and explores the impact of poststructuralism in language th

Poststructuralism and Educational Research Michael A. Peters, Nicholas C. Burbules, 2004-10-26 Poststructuralism and its implications for something called postmodernism is a major topic of discussion in social theory and research generally including educational research The works of the major authors in this tradition Foucault Lyotard Cixous Derrida Haraway to name a few are challenging and difficult Yet more and more theorists and researchers in educational scholarship use this term to describe their work What does poststructuralism mean for these authors and what significance does it have for educational inquiry This book takes on these central questions and explores the impact of poststructuralism in language that makes the basic issues at stake accessible for a broad readership Michael Peters and Nicholas C Burbules highlight the implications of a poststructuralist stance for the conception of the research subject and examine its standards of validity and methods of investigation They also lay out the distinguishing characteristics of this approach to educational inquiry using as examples the particular ways in which writers including Giroux McLaren Lather and Ball have tried to incorporate the poststructuralist perspective into their investigations of educational issues The emphasis throughout this book will be on making these complex theoretical issues tangible and salient for the educational researcher

Resources in Education, 1997 **Poststructuralism and Communication** Gerald S. Greenberg, 2005-09-08 This is an annotated bibliography of books and scholarly articles that comment upon the relationship between poststructuralist philosophy and communication Subject areas covered include education philosophy language literature social science theory and cultural studies

Beyond the Philosophy of the Subject Michael A. Peters, Marek Tesar, 2015-11-19 This first volume focuses on a collection of texts from the latter twenty years of Educational Philosophy and Theory selected for their critical status as turning points or important awakenings in post structural theory In the last twenty years the applications of the postmodern and poststructuralist perspectives have become less mono focused less narrowly concerned with technical questions and also less interested in epistemology and more interested in ethics This book covers questions of genealogy ontology the body and the institution giving examples of theoretical applications of post structural theory that testify to the generative and endlessly applicable

potential of this work to different fields and avenues of thought While informed by Foucault's thinking of the political subjugation of docile bodies to individuals as self-determining beings the chapters in this book culminate in amalgamations of different schools of educational philosophy which explore poststructuralist approaches to education Beyond the Philosophy of the Subject will be key reading for academics researchers and postgraduate students in the fields of philosophy of education philosophy education educational theory post-structural theory the policy and politics of education and the pedagogy of education

The Best Books for Academic Libraries: Political science, law, education, 2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers **Naming the Multiple** Michael

Peters, 1998-06-18 Poststructuralism as a name for a mode of thinking a style of philosophizing a kind of writing has exercised a profound influence upon contemporary Western thought and the institution of the university As a French and predominantly Parisian affair poststructuralism is inseparable from the intellectual milieu of postwar France a world dominated by Alexandre Kojève's and Jean Hyppolite's interpretations of Hegel Jacques Lacan's reading of Freud Gaston Bachelard's epistemology George Canguilhem's studies of science and Jean Paul Sartre's existentialism It is also inseparable from the structuralist tradition of linguistics based upon the work of Ferdinand de Saussure and Roman Jakobson and the structuralist interpretations of Claude Lévi-Strauss Roland Barthes Louis Althusser and the early Michel Foucault Poststructuralism considered in terms of contemporary cultural history can be understood as belonging to the broad movement of European formalism with explicit historical links to both Formalist and Futurist linguistics and poetics and with aspects of the European avant-garde especially André Breton's surrealism Each essay in this unique collection by and for educators is devoted to the work and educational significance of one of ten major poststructuralist philosophers

University Futures and the Politics of Reform in New Zealand Michael A. Peters, Peter Richard Roberts, 1999 This book maps the global pressures and trends offers a critique of key New Zealand policy documents and identifies signposts for alternative university futures *Nietzsche's Legacy for Education* Michael Peters, James Marshall, Paul Smeyers, 2001 This

collection of essays provides an introduction to Nietzsche's thought and educational writings and examines questions concerning the centrality of values for education in postmodernity Cognitive Capitalism, Education, and Digital Labor

Michael A. Peters, Ergin Bulut (Ed), 2011 Cognitive capitalism sometimes referred to as third capitalism after mercantilism and industrial capitalism is an increasingly significant theory given its focus on the socio-economic changes caused by Internet and Web 2.0 technologies that have transformed the mode of production and the nature of labor The theory of cognitive capitalism has its origins in French and Italian thinkers particularly Gilles Deleuze and Félix Guattari's *Capitalism and Schizophrenia* Michel Foucault's work on the birth of biopower and Michael Hardt and Antonio Negri's *Empire* and *Multitude* as well as the Italian Autonomist Marxist movement that had its origins in the Italian operaismo workerism of the 1960s In this collection leading international scholars explore the significance of cognitive capitalism for education especially

focusing on the question of digital labor Knowledge Economy, Development and the Future of Higher Education Michael A. Peters, 2007 This book reflects on the post war Western university and its discourses charting the crisis of the concept of the modern university **Urban Education** Joe L. Kincheloe, 2007-08-24 Maintaining that urban teaching and learning is characterized by numerous contradictions this book proposes that there is a wide range of social cultural psychological and pedagogical knowledge that urban educators must possess in order to engage in effective and transformative practice It is necessary for teachers in urban schools to be scholar practitioners as opposed to bureaucrats who only follow rather than analyze understand and create Ten major sections cover the myriad issues of urban education as it exists today context of urban education race and ethnicity social justice teaching and pedagogy power and urban education language issues cultural issues of urban schools as seen in the media research in city schools aesthetics and the proximity of cultural institutions and education policy Sixty one essays written by specialists in teacher education public policy sociology psychology applied linguistics forestry urban studies school administration cultural studies evaluation and linguistics provide a blueprint for scholars teachers parents urban politicians school administrators policy professionals and others seeking to understand the situation of urban schools across America today **Bell Hooks' Engaged Pedagogy** Namulundah Florence, 1998-08-27 Bell hooks proposes an engaged pedagogy to counteract the overwhelming boredom disinterest and apathy that so often characterizes the way professors and students feel about the learning experience Hooks attributes student alienation in schools to discriminatory racist sexist and classist policies and practices This study is a critical analysis of hooks engaged pedagogy its basis challenge and promise for the learning teaching process xvi **The Trouble with Theory** Gavin Kitching, 2020-07-23 Postmodern theory has engaged the hearts and heads of the brightest students because of its apparent political and social radicalism Despite this Professor Gavin Kitching claims that At the heart of postmodernism is very poor deeply confused and misbegotten philosophy As a result even the very best students who fall under its sway produce radically incoherent ideas about language meaning truth and reality This is not another conservative attack on postmodernism Rather it is a carefully considered analysis from a dedicated university teacher who is convinced that we have gone terribly astray He shows that postmodern theory is at best irrelevant to and at worst undermining of persuasive political arguments and reveals the basic philosophical confusion at its heart which makes this so Essential reading for any student writing a thesis in the humanities and the social sciences and for their teachers It is the strongest and best attack on the ravages of routine post modernism that I have ever read I applaud the way he lists the good causes that students warmly espouse and then suggests a simpler way to support them without the self destructive it s all just language that is implicit in their work Professor Sir Bernard Crick Emeritus Professor of Politics Birkbeck College University of London Gavin Kitching rattles the cages Will the inmates hear this They should if only for the reason that there is virtue in learning to argue against yourself This is a serious book Professor Peter Beilharz Sociology La Trobe University Required reading for anyone who wants to understand how and

why postmodernism has had such disastrous pedagogical consequences Professor David G Stern Philosophy University of Iowa

International Encyclopedia of the Sociology of Education Lawrence J. Saha, 1997 This book provides a state of the art resource for an international audience of the cumulative results of research and to identify the substantive developments which will take the sociological study of education into the next century This encyclopedia presents the full range of paradigms theoretical points of view together with many research methodologies Cover

Education and the Postmodern Condition Michael Peters, 1997-07-23 This collection of essays brings together a number of contributions on Lyotard's work made by philosophers educationalists and sociologists around the special focus of education Their intent is to examine Lyotard's notion of the postmodern condition and its relevance to education

Positioning Subjects Stephen W. Appel, 1996-12-09 This book addresses an area that is theoretically undeveloped in educational studies the constitution of the human subject The author uses psychoanalysis to explore this gap in critical studies of education Educational progressivism overestimates the power of rationality and represses any understanding of unconscious mental processes What is needed is the development of a psychodynamic social psychology of classes According to the author we need to investigate the differential relations between institutional and self formative processes
