Pottery Ethnoarchaeology In The Central Maya Highlands:

Pottery Ethnoarchaeology in the Central Maya Highlands Michael Deal, 1998 Draws upon both archaeological and ethnographic techniques to study prehistoric cultural change village ethnoarchaeology focuses on a range of archaeological problems at the village or household level including the important socioeconomic role of specific craft activities In this context recent studies of contemporary pottery making follow trends in ethnoarchaeology involving model building formation processes and evaluation and refinement of existing archaeological recovery techniques Einführung in das Grundproblem des archäologisch-kulturhistorischen Vergleichens und Deutens Ulf F. Ickerodt, 2010 Arch ologie Theorie Forschung Kulturgeschichte *Tracing Pottery-Making Recipes in the Prehistoric Balkans 6th-4th Millennia BC* Silvia Amicone, Patrick Sean Quinn, Miroslav Marić, Neda Mirković-Marić, Miljana Radivojević, 2019-07-31 Balkan ceramic studies is an emerging field within archaeology This book brings together diverse studies by leading researchers and upcoming scholars capturing the variety of current archaeological ethnographic experimental and scientific studies on Balkan ceramic production distribution and use Pottery Analysis, Second Edition Prudence M. Rice, 2015-07-09 Just as a single pot starts with a lump of clay the study of a piece s history must start with an understanding of its raw materials This principle is the foundation of Pottery Analysis the acclaimed sourcebook that has become the indispensable guide for archaeologists and anthropologists worldwide By grounding current research in the larger history of pottery and drawing together diverse approaches to the study of pottery it offers a rich comprehensive view of ceramic inquiry This new edition fully incorporates more than two decades of growth and diversification in the fields of archaeological and ethnographic study of pottery It begins with a summary of the origins and history of pottery in different parts of the world then examines the raw materials of pottery and their physical and chemical properties It addresses ethnographic and ethnoarchaeological perspectives on pottery production reviews the methods of studying pottery s physical mechanical thermal mineralogical and chemical properties and discusses how proper analysis of artifacts can reveal insights into their culture of origin Intended for use in the classroom the lab and out in the field this essential text offers an unparalleled basis for pottery research *Outside the Hacienda Walls* Allan Meyers, 2012-11-01 The Mexican Revolution was a tumultuous struggle for social and political reform that ousted an autocrat and paved the way for a new national constitution The conflict however came late to Yucat n where a network of elite families with largely European roots held the reins of government This privileged group reaped spectacular wealth from haciendas cash crop plantations tended by debt ridden servants of Maya descent When a revolutionary army from central Mexico finally gained a foothold in Yucat n in 1915 the local custom of agrarian servitude met its demise Drawing on a dozen years of archaeological and historical investigation Allan Meyers breaks new ground in the study of Yucat n haciendas He explores a plantation village called San Juan Bautista Tabi which once stood at the heart of a vast sugar estate Occupied for only a few generations the village was abandoned during the revolutionary upheaval Its ruins now lie within a state owned ecological

reserve Through oral histories archival records and physical remains Meyers examines various facets of the plantation landscape He presents original data and fresh interpretations on settlement organization social stratification and spatial relationships His systematic approach to things underfoot small everyday objects that are now buried in the tropical forest offers views of the hacienda experience that are often missing in official written sources In this way he raises the voices of rural mostly illiterate Maya speakers who toiled as laborers What emerges is a portrait of hacienda social life that transcends depictions gleaned from historical methods alone Students researchers and travelers to Mexico will all find something of interest in Meyers s lively presentation Readers will see the old haciendas once forsaken but now experiencing a rebirth as tourist destinations in a new light These heritage sites not only testify to social conditions that prevailed before the Mexican Revolution but also remind us that the human geography of modern Yucat n is as much a product of plantation times as it is of more ancient periods

Human Adaptation in Ancient Mesoamerica Nancy Gonlin,Kirk D. French,2015-10-28 This volume explores the dynamics of human adaptation to social political ideological economic and environmental factors in Mesoamerica and includes a wide array of topics such as the hydrological engineering behind Teotihuacan s layout the complexities of agriculture and sustainability in the Maya lowlands and the nuanced history of abandonment among different lineages and households in Maya centers The authors aptly demonstrate how culture is the mechanism that allows people to adapt to a changing world and they address how ecological factors particularly land and water intersect with nonmaterial and material manifestations of cultural complexity Contributors further illustrate the continuing utility of the cultural ecological perspective in framing research on adaptations of ancient civilizations This book celebrates the work of Dr David Webster an influential Penn State archaeologist and anthropologist of the Maya region and highlights human adaptation in Mesoamerica through the scientific lenses of anthropological archaeology and cultural ecology

On the Periphery of the Periphery Samuel Sweitz,2011-11-17 This book examines from an archaeological perspective the social and economic changes that took place in Yucat n Mexico beginning in the 18th century as the region became increasingly articulated within global networks of exchange Of particular interest is the formation and ultimate supremacy of the hacienda system in Yucat n and the effect that new forms of capitalist organized production had on native Maya social organization Household archaeology and spatial analysis conducted on the grounds of the former Hacienda San Juan Bautista Tabi provides the data for analyzing the results of this change on the daily lives and existence of those individuals incorporated within the hacienda system The use of archaeological excavation to place the lives of local individuals within the context of larger global processes makes this book a worthy contribution to the study of archaeology

Archaeology, Ethnohistory, and Ethnoarchaeology in the Maya Highlands of Chiapas, Mexico ,1988 İşıklar Stephan W. E. Blum,2003

The

Development of Pottery Technology from the Late Sixth to the Fifth Millennium B.C. in Northern Jordan Nabil

Ali, 2005 This study is divided into two main parts Part one presents the ethnoarchaeological study that has been conducted on late Sixth to Fifth Millennium BC pottery production in northern Jordan the Ajlun Mountain area It includes the location and environmental setting of the study area the context of pottery production with reference to potters socio economical contexts and their identity It also includes the context of pottery production and a description of the technological traditions that have been identified among the potters Chapters 4 and 5 have been devoted to measuring and explaining the causes of technological similarities as well as differences in the potters output Part 2 presents the archaeological study It includes a description of the site of Abu Hamid and its environmental setting Moreover it presents the chronology and the sequence of occupation at the site as well as the spatial and temporal contexts of the sampled pottery sherds Further it presents morphological and metric descriptions of the pottery assemblages Chapters 8 and 9 are devoted to the identification of archaeological pottery forming techniques and the measuring of the technical variations among them The last chapter presents the explanations of these technical variations

Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures Helaine Selin, 2008-03-12 Here at last is the massively updated and augmented second edition of this landmark encyclopedia It contains approximately 1000 entries dealing in depth with the history of the scientific technological and medical accomplishments of cultures outside of the United States and Europe The entries consist of fully updated articles together with hundreds of entirely new topics This unique reference work includes intercultural articles on broad topics such as mathematics and astronomy as well as thoughtful philosophical articles on concepts and ideas related to the study of non Western Science such as rationality objectivity and method You ll also find material on religion and science East and West and magic and science

Social Change and the Evolution of Ceramic Production and Distribution in a Maya Community Dean E. Arnold, 2008-11-30 Dean E Arnold made ten visits to Ticul Yucatan Mexico witnessing the changes in transportation infrastructure the use of piped water and the development of tourist resorts Even in this context of social change and changes in the demand for pottery most of the potters in 1997 came from the families that had made pottery in 1965 This book traces changes and continuities in that population of potters in the demand and distribution of pottery and in the procurement of clay and temper paste composition forming and firing

Style, Function, Transmission Michael John O'Brien, R. Lee Lyman, 2003 Darwin s theory of evolutionary descent with modification rests in part on the notion that there is heritable continuity affected by transmission between ancestor and descendant It is precisely this continuity that allows one to trace phylogenetic histories between fossil taxa of various ages and recent taxa Darwin was clear that were an analyst to attempt such tracings then the anatomical characters of choice are those least influenced by natural selection or what are today referred to as adaptively neutral traits The transmission of these traits is influenced solely by such mechanisms as drift and not by natural selection The application of Darwin s theory to

archaeological phenomena requires that the theory be retooled to accommodate artifacts One aspect that has undergone this retooling concerns cultural transmission the mechanism that affects heritable continuity between cultural phenomena Archaeologists have long traced what is readily interpreted as heritable continuity between artifacts but the theory underpinning their tracings is seldom explicit Thus what have been referred to as artifacts styles underpin such tracings because styles are adaptively neutral Other traits are referred to as functional In their introduction to *Style Function Transmission* Michael O'Brien and R Lee Lyman outline in detail the interrelations of a theory of cultural descent with modification and the concepts of drift style and function The chapters in the volume specifically address the issues of selection and drift and their relation to style and function In non polemic presentations contributors specify empirical implications of aspects of cultural transmission for evolutionary lineages of artifacts and then present archaeological data for those implications **Choice**, 1999 *The Review of Archaeology* Frederick Hadleigh West, Constance F. West, 1999

Latin America Juan Manuel Pérez, 2004 This is a general bibliography on Latin America covering a wide variety of subjects from pre Columbian civilizations to Columbus to Castro to the foreign debt to pollution ect This work will not only be of use to the general casual reader on Latin America but also to the more specialized researcher The book contains over 800 topics with over 8 000 titles identified Journal of Field Archaeology Association for Field Archaeology, 2003
