Pour Une Histoire Comparee Des Intellect:

Pour une histoire comparée des intellectuels Hans Manfred Bock, Michel Trebitsch, Marie-Christine Granjon, 1998

Le premier féminisme allemand (1848-1933) Collectif, 2020-01-14 Dans les années 1970 en pleine deuxième vague féministe on a pu lire les premiers travaux allemands et français sur l'histoire des mouvements de femmes en Allemagne Les féministes visaient explorer l'histoire de leur propre mouvement dans une perspective identificatrice Malgré ces débuts prometteurs la recherche française sur les féminismes allemands restait à l'aube du xxe siècle toutefois lacunaire Le présent ouvrage s'inscrit dans le renouveau historiographique qui caractérise actuellement l'histoire des femmes et du genre La naissance d'un mouvement de revendication des droits des femmes est l'héritage dans les pays de langue allemande de la révolution de 1848 qui a vu merger des figures féministes pionnières La question de femmes a ensuite sans cesse été reconfigurée par les grandes idéologies politiques traversant l'époque l'exemple du libéralisme du nationalisme ou du socialisme Si l'historiographie s'est longtemps contentée de distinguer différentes vagues de féministes ce volume met en avant l'histoire complexe et imbriquée des associations et des lieux de sociabilité féministes L'accent est galement mis sur la présence de réseaux de personnes qui se structurent plusieurs niveaux l'échelle locale nationale et internationale Enfin l'analyse fait une large place à l'histoire croisée et intersectionnelle des féminismes ainsi qu'aux représentations notamment genrées suscitées par leur essor

Birth of the Intellectuals Christophe Charle, 2015-08-06 Who exactly are the intellectuals This term is so widely used today that we forget that it is a recent invention dating from the late nineteenth century In Birth of the Intellectuals the renowned historian and sociologist Christophe Charle shows that the term intellectuals first appeared at the time of the Dreyfus Affair and the neologism originally signified a cultural and political vanguard who dared to challenge the status quo Yet the word expected to disappear once the political crisis had dissolved has somehow endured At times it describes a social group and at others a way of seeing the social world from the perspective of universal values that challenges established hierarchies But why did intellectuals survive when the events that gave rise to this term had faded into the past To answer this question it is necessary to show how the crisis of the old representations the unprecedented expansion of the intellectual professions and the vacuum left by the decline of the traditional ruling class created favourable conditions for the collective affirmation of intellectuals This also explains why the literary or academic avant garde traditionally reluctant to engage gradually reconciled themselves with political activists and developed new ways to intervene in the field of power outside of traditional political channels Through a careful rereading of the petitions surrounding the Dreyfus Affair Charle offers a radical reinterpretation of this crucial moment of European history and develops a new model for understanding the ways in which public intellectuals in France Germany Britain and the United States have addressed politics ever since
