Poverty And Development In The Nineteen Nineties

Angus Deaton, Valerie Kozel

Poverty And Development In The Nineteen Nineties:

Imagine There's No Country Surjit Bhalla, 2002-09-24 A new era of globalization which began in the 1980s brought about a significant decline in costs of transportation communication and production considerably improved intercountry competitiveness and broke down trade and cultural barriers among countries The concept of a sovereign nation has been increasingly questioned in recent years Some indeed have imagined a world without boundaries without countries Others who doubt the benefits of globalization have called for increased protectionism and greater regulation of economic activity Has globalization made the world grow faster Has poverty declined at a faster pace during globalization If yes why If not is it because the growth rate was lower or because inequality worsened or both Who gained from globalization Was it the elite in both the developed and developing world What about the middle class Who are they How did they benefit from or lose to the forces of globalization This comprehensive study firmly debunks several popular myths such as the belief that globalization has resulted in lower overall growth rates for poor countries increasing world inequality and stagnating poverty levels Through rigorous integrated methodologies and an enhanced dataset the author Surjit Bhalla answers some of the most pressing policy issues confronting us today

The Politics of Social Exclusion in India Harihar Bhattacharyya, Partha Sarkar, Angshuman Kar, 2009-12-16 Social exclusion and inclusion remain issues of fundamental importance to democracy Both exclusion and inclusion relate to the access to participation in the public realm public goods and services for certain groups of people who are minorities marginalized and deprived Democratization has led to the inclusion of the previously excluded in the political process While the problems of exclusion remain even in advanced Western countries in respect of the minorities of sorts and the underprivileged the problem of deep rooted social and cultural exclusions is acute in post colonial countries including India This book analyses social exclusions in India which remain the most solid challenges to Indian democracy and development Communal clashes ethnic riots political secessionist movements and extremist violence take place almost routinely and are the outward manifestations of the entrenched culture of social exclusion in India With its interdisciplinary approach the book looks at the multidimensional problems of social exclusion and inclusion providing a critical comprehensive analysis of the problem and of potential solutions The authors are experts in the fields of historical sociology anthropology political theory social philosophy economics and indigenous vernacular literature Overall the book offers an innovative theoretical perspective of the long term issues facing contemporary Indian democracy

The Great Indian Poverty Debate Angus Deaton, Valerie Kozel, 2005 This book brings together the key papers in the Indian poverty debate together with a new introduction that provides an overview and synthesis The collection also contains some seminal papers that link the current debates to the earlier literature as well

The Long Road to Sustainability Alexander Gillespie, 2018-02-01 For the last few thousand years humanity has struggled to achieve sustainable development Gillespie sees the problem as multi faceted a three legged stool of economic social and environmental conundrums have stalled the

quest for the long term viability of both our species and the ecosystems in which we reside Gillespie moves from the low life expectancy excessive deforestation and wetland drainage of the medieval period through the species loss coal burning free trade and poor waste management of the seventeenth and eighteenth centuries and to the more recent concerns of climate change unsustainable fisheries and chemical pollutants By delivering a comprehensive examination of human survival over the past millennium Gillespie illustrates that the challenges we face are not new that we now have the means to counter them is

Challenge of Sustainable Development Ramprasad Sengupta,2003 The volume is the outcome of a symposium held at the Indian Institute of Management Calcutta IIMC in February 2001 A number of senior scholars participated from all over India Professor Ramprasad Sengupta and Professor Anup K Sinha organized the symposium under the aegis of C DEP Centre for Development and Environment Policy in IIMC Professor Ramprasad Sengupta has since then been at JNU in New Delhi Sengupta and Sinha are both professors of economics and are the editors of the proposed volume The symposium of Population Life Support and Human Development was set in the backdrop of the 2001 Census We had adopted an interdisciplinary approach in addressing questions about population trends and whether we have sufficient land for food adequate water and the ability to provide education and health for all along with the increased need for urban space In the twenty first century education and health are considered as important life support systems as the ability to access adequate food clean air and water The challenge of human development can be met by focusing on basic and substantive issues of technology as well as social institutions and policies that create the capability priorities and the distribution patterns for new and existing resources This concern lies at the core of this volume that seeks to understand the process of sustainable human development and the environmental and technological problems that constrain such improvements

Indian Economy Since Independence Uma Kapila,2003 Collection of selected articles original readings supported by editorial notes and excerpts from plan documents that together present a comprehensive and critical analysis of Indian economy since independence 1947 2001

IFAD Annual Report International Fund for Agricultural Development,1990

Global Common Good Michael Reder,2015-04-02 Global problems such as poverty climate change and economic crises constitute challenges that the global community can only face collectively It therefore seems indispensable to engage in an intercultural dialogue on alternative approaches to development that are ethically justifiable politically acceptable and ecologically sustainable For this reason the Institute for Social and Development Studies at the Munich School of Philosophy in cooperation with MISEREOR the German Catholic Bishops Organization for Development Cooperation invited academics from different continents to engage in such an intercultural dialogue Under the notion of the global common good the contributors investigate normative ideals analyze obstacles that prevent their realization and indicate paths for transformation
