Shimko,2007-07 International Relations Perspectives and Controversies offers an innovative approach to this introductory course Each of the topical chapters covers an enduring and important debate in the field and examines how political actors or political thinkers explain and defend their different opinions This format offers the students the chance to understand important issues in International Relations as dynamic struggles over resources and power Each chapter is structured in four parts The first part provides a historical overview of the issue its origins evolution and current status The middle two sections of each chapter map out the opposing or contrasting points of view within the debate These debates are followed by an evaluation of the merits of each position and the scholarly and political assessment of the situation The goal of the text is to help students think systematically and critically about international affairs By distilling the discussion from a variety of viewpoints rather than simply providing articles by scholars who disagree the author highlights meaningful distinctions among differing political positions in a way that helps students understand not only the headlines from today and yesterday but more importantly those from tomorrow New The text has been reorganized to present the discussion of power politics Chapter 3 before the coverage of war and human nature Chapter 5 New Expanded coverage of IOs NGOs includes the European Union as related to security amidst anarchy Chapter 3 and the role of Amnesty International and other NGOs in human rights activism Chapter 10 New Expanded and updated coverage of the Clash of Civilizations in Chapter 12 is found both in the body of the chapter and in the Points of View readings at the end of the chapter New Updated Points of View readings which present primary sources such as official foreign policy statements government documents news stories debate transcripts and editorials expand on the chapter discussions New topics include Should We Practice Free Trade in Agriculture Does Foreign Aid Promote Development Can a Nuclear Iran be Deterred and Did 9 11 Reflect a Clash of Civilizations Marginal glossary allows students to access key terms without interrupting their reading End of chapter pedagogy includes bulleted chapter summaries a list of key terms with page numbers suggestions for further reading critical thinking questions endnotes and references to relevant web sites
