Education and Society in a Changing Mizoram Lakshmi Bhatia, 2012-12-06 Located in the domain of cultural politics the book with rich ethnographical data from Mizoram a lesser known and understood state brings the community state and culture to centre stage along with family and stratification of the sociological discourse in education The book argues for a re look at school education in Mizoram besides providing critical insights into the North East region as a whole It also points to the dilemmas of development in that region and suggests possible ways out of the impasse Marking a significant departure from conventional thinking on education as human capital as reflected in North East Vision 2020 the book strongly advocates the need for critical pedagogies based on learning from conflict inculcating the values of tolerance and compassion as a precursor to peace reconceptualising development not merely as economic but as indicator of national happiness and valuing lives equally besides respect for traditional institutions thus marking a break from the much resented paternalism that underpins all state interventions in education One of the first studies of its kind regarding experience and practice of education the book makes an important contribution to the role that education can play to usher in peace and promote respect for differences

Critical Race Consciousness Gary Peller, 2015-10-23 Despite the apparent racial progress reflected in Obama s election the African American community in the United States is in a deep crisis on many fronts economic intellectual cultural and spiritual This book sets out to trace the ideological roots of this crisis Challenging the conventional historical narrative of race in America Peller contends that the structure of contemporary racial discourse was set in the confrontation between liberal integrationism and black nationalism during the 1960s and 1970s Arguing that the ideology of integration that emerged was highly conservative apologetic and harmful to the African American community this book is sure to provide a new lens for studying and learning from American race relations in the twentieth century

The Central Politics School and Local Governance in Nationalist China Chen-cheng Wang, 2023-01-09 This book is a political history of global attempts to reduce politics to science and the results of such an attempt in modern China The book follows the discourses and activities of a special group of local officials in China s Nationalist government 1928 1949 These officials had been

students or faculty at the Central Politics School CPS the only national university in modern Chinese history that trained professional bureaucrats according to the blueprint of the United States science of public administration conceived by Frank Goodnow Through its accounts of how these officials handled land administrative reforms the battlefield of statebuilding during World War II and rebellions of ethnic minorities the book discusses why some of the most talented CPS officials resorted to non modern humanistic political techniques and achieved a Chinese statecraft more efficient and sustainable than science As such the book invites readers to think whether science and the rational legal authority proposed by Woodrow Wilson and Max Weber is a proper conceptual framework for understanding politics in China and the rest of world

Commentationes Humanarum Litterarum ,1961 Administering Affect Daniel White,2022-07-19 How do the worlds that state administrators manage become the feelings publics embody In Administering Affect Daniel White addresses this question by documenting the rise of a new national figure he calls Pop Culture Japan Emerging in the wake of Japan s dramatic economic decline in the early 1990s Pop Culture Japan reflected the hopes of Japanese state bureaucrats and political elites seeking to recover their country s standing on the global stage White argues that due to growing regional competitiveness and geopolitical tension in East Asia in recent decades Japan s state bureaucrats increasingly targeted political anxiety as a national problem and built a new national image based on pop culture branding as a remedy Based on sixteen months of ethnographic fieldwork among rarely accessible government bureaucrats Administering Affect examines the fascinating connection between state administration and public sentiment White analyzes various creative policy figures of Pop Culture Japan such as anime diplomats Cool Japan branding campaigns and the so called Ambassadors of Cute in order to illustrate a powerful link between practices of managing national culture and the circulation of anxiety among Japanese publics Invoking the term administering affect to illustrate how anxiety becomes a bureaucratic target technique and unintended consequence of promoting Japan s national popular culture the book presents an ethnographic portrait of the at times surprisingly emotional lives of Japan s state bureaucrats In examining how anxious feelings come to drive policymaking White delivers an intimate anthropological analysis of the affective forces interconnecting state governance popular culture and national identity

Multipolarity in the 21st Century Donette Murray,David Brown,2012-01-30 This book seeks to help shape the debate surrounding power and polarity in the twenty first century both by assessing the likelihood of US decline and by analysing what each of the so called rising powers can do As the twenty first century moves out of its first decade American supremacy continues to generate intense debate about the nature quality and sustainability of US power At the same time significant developments in four rising powers China Russia India and the European Union have provoked analysts to ask whether multipolarity is a realistic prospect Multipolarity in the 21st Century assesses the likelihood of a multipolar world developing either by a marked US decline and or by the ability of these putative rivals to continue to rise to the level necessary to be credibly considered a superpower Written by a combination of emerging scholars

and recognised experts this volume will provide a timely and authoritative analysis of one of the most controversial and compelling security debates of the twenty first century This book will be of much interest to students of Security Studies Foreign Policy and International Relations in general **New Standards in Industry, Politics, Education** Margaret Cole,1923 *Rediscovering the Democratic Purposes of Education* Lorraine McDonnell,P. Michael Timpane,Roger W. Benjamin,2000 Why do America s public schools seem unable to meet today s social challenges As competing interest groups vie over issues like funding and curricula we seem to have lost sight of the democratic purposes originally intended for public education Public schools were envisioned by the Founders as democratically run institutions for instilling civic values but today s education system seems more concerned with producing good employees than good citizens Meanwhile our country s diversity has eroded consensus about citizenship and the professionalization of educators has diminished public involvement in schools This volume seeks to demonstrate that the democratic purposes of education are not outmoded ideas but can continue to be driving forces in public education Nine original articles by some of today s leading education theorists cut a broad swath across the political spectrum to examine how those democratic purposes might be redefined and revived It both establishes the intellectual foundation for revitalizing American schools and offers concrete ideas for how the educational process can be made more democratic The authors make a case for better empirical research about the politics of education in order to both reconnect schools to their communities and help educators instill citizenship An initial series of articles reexamines the original premise of American education as articulated by important thinkers like Jefferson and Dewey A second group identifies flaws in how schools are currently governed and offers models for change A final section analyzes the value conflicts posed by the twin strands of democratic socialization and governance and their implications for education policy Spanning philosophy history sociology and political science this book brings together the best current thinking about the specifics of education policy vouchers charter schools national testing and about the role of deliberation in a democracy It offers a cogent alternative to the exchange paradigm and shows how much more needs to be understood about an issue so vital to America s future **Education and Power** Michael W. Apple,2013-10-31 In his seminal volume first published in 1982 Michael Apple articulates his theory on educational institutions and the reproduction of unequal power relations and provides a thorough examination of the ways in which race gender class dynamics are embedded in and reflected through curricular issues This second edition contains a re examination of earlier arguments as well as reflections on recent changes in education *Globalization and Education* Carlos Alberto Torres,2009 Collects seminal essays by the author a critical theorist and scholar devoted to interpreting the work of Paulo Freire and has done much over the years to raise the visibility of Freire s contribution to educational theory This title contains the strands of the author s thinking with his commitment to employing scholarship for social change [The Cumulative Book Index](#) ,1963 A world list of books in the English language **Current Index to Journals in Education** ,1992 *Educational Leadership* Spencer J. Maxcy,Ontario Institute for

Studies in Education,1991 Underlying the controversy surrounding educational reform and the crisis facing American public education today is the question of leadership Who is to exercise it and what direction should it take In his systematic redefinition of educational leadership Spencer J Maxcy develops a democratic participatory model of leadership at all levels Drawing on the work of philosophers from John Dewey and William James to contemporary neo pragmatists he explores the nature of shared leadership and its potential to foster socio cultural reform through schooling Soviet Attitudes Towards Non-military Regional Co-operation Klaus Törnudd,1961 *The Politics of Education* Paulo Freire,1985 Constitutes the voice of a great teacher who has managed to replace the melancholic and despairing discourse of the post modern Left with possibility and human compassion Educational Theory Thesaurus of ERIC Descriptors Educational Resources Information Center (U.S.),James E.
