## **Power Morality:**

**Feminists Doing Ethics** Peggy DesAutels, Joanne Waugh, 2001-09-10 *Feminists Doing Ethics* is the debut title in the new Rowman Littlefield series *Feminist Constructions*. In this thoughtful collection contributors refashion essays from the international conference on feminist ethics *Feminist Ethics Revisited* October 1999 with an aim to critique social practice and develop an ethics of universal justice. The essays in this exciting volume explore the intricacies and impact of reasoned moral action, the virtues of character and the empowering responsibility that morality generates. *Feminists Doing Ethics* brings to light concepts and ideas that are intended to extend our understanding of morality and of ourselves. *Moral Contexts* Margaret Urban Walker, 2002-11-23 Many contexts shape and limit moral thinking in philosophy and life. Human conditions of vulnerability and interdependency, of limited awareness and control, of imperfect insight into ourselves and others are inevitable contexts that neither moral thought nor theory should forget. To be truly reflective moral thinking and moral philosophy must become aware of the contexts that bind our thinking about how to live. This collection of essays by Margaret Urban Walker seek to show how to do this and why it makes a difference. Contingent and changeable contexts that shape moral thinking include our individual histories, our social positions and institutional roles, relationships, cultural settings and social arrangements and the specific moral idioms we pick up along the way. The paradigms and specialized language of ethical theory are contexts too; they shape how moral theory looks and what or whom it looks at. Ethical theory and practice are meaningless without these *Moral Contexts*. **Nietzsche, Nihilism and the Philosophy of the Future** Jeffrey Metzger, 2009-09-15 *Nietzsche, Nihilism and the Philosophy of the Future* examines Nietzsche's analysis of and response to contemporary nihilism, the sense that nothing has value or meaning. Eleven newly commissioned essays from an influential team of contributors illustrate the richness and complexity of Nietzsche's thought by bringing together a diverse collection of perspectives on Nietzsche. Nietzsche's engagement with nihilism has been relatively neglected by recent scholarship despite the fact that Nietzsche himself regarded it as one of the most original and important aspects of his thought. This book addresses that gap in the literature by exploring this central and compelling area of Nietzsche's thought. The essays concentrate on Nietzsche's philosophical analysis of nihilism, the cultural politics of his reaction to nihilism and the rhetorical dimensions and intricacies of his texts. Europe, Russia and the Liberal World Order Timofei Bordachev, 2021-08-30 This book analyses Russia-Europe-EU relations by exploring their practical essence and conceptualizing them in terms of the main categories of international relations research. It argues that the liberal world order established in Cold War days whereby international relations are underpinned by a global balance of power and a highly institutionalized framework of international relations thereby balancing power and morality continued after the Cold War with high hopes in the early 1990s for a new order of security and cooperation for all Europe including Russia. It goes on to show how the liberal world order has broken down, one manifestation of this being the new conflict between Russia and Europe in recent years, a conflict resulting from

the failure of European countries the EU to acknowledge the actual balance of military economic and political power the lack of limits on the policy of European countries in terms of infringing on Russia's interests and Russia's consequent revision after 1999 of its policy of co operation Overall the book provides huge insight into the nature of Europe Russia relations
