Religious Convictions And Political Choice:

Religious Convictions and Political Choice Kent Greenawalt, 1991 How far may Americans properly rely on their religious beliefs when they make and defend political decisions Are decisions based on religious convictions compatible with liberal democratic premises Kent Greenawalt dissects such issues as abortion and animal rights to illustrate secular and religious bases for decision making concluding that citizens cannot be expected to rely exclusively on rational secular grounds *The Case for Gay Rights* David A. J. Richards, 2005 As Americans wrestle with debates over traditional values defense of marriage and gay rights reason often seems to take a back seat to emotion In response legal scholar Richards reflects upon the constitutional and democratic principles relating to privacy intimate life free speech tolerance and conscience that underpin these often heated debates The distillation of Richards s thirty year advocacy for the rights of gays and lesbians his book provides a reflective treatise on basic human rights that touch all of our lives He places in context two key Supreme Court cases the 1986 Bowers v Hardwick decision and the 2003 Lawrence v Texas decision which overturned it Drawing upon his own experiences as a gay man Richards interweaves personal observations with philosophical political judicial and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys From publisher description *Religion and Contemporary Liberalism* Paul J. Weithman, 1997 This collection of papers makes a step towards increased dialogue among philosophical liberals and their theological sociological and legal critics The text should be significant for those concerned with the place of religion within a liberal society Religious Conviction in Liberal Politics Christopher J. Eberle, 2002-05-02 What role should a citizen s religious convictions play in her political activities Is she for example permitted to decide on the basis of her religious convictions to support laws that criminalize abortion or discourage homosexual relations Christopher Eberle is deeply at odds with the dominant orthodoxy among political theorists about the relation of religion and politics His argument is that a citizen may responsibly ground her political commitments on religious beliefs even if her only reasons for her political commitments are religious in nature His ideal of citizenship allows citizens to engage in politics without privatizing their religious commitments and yet does not license mindless and intransigent sectarianism An inherently controversial book that offers a substantial challenge to political liberalism it will be read by students and professionals in philosophy political science law and religious studies and general readers seeking insight into the relationship between religious commitments and liberal politics *Revue de Droit de McGill* , 1989 **Encyclopedia of Politics and Religion: A-I** Robert Wuthnow, 2007 *University of Toronto Faculty of Law Review* , 1995 **The Library Magazine of Select Foreign Literature** , 1880 The Two Majorities and the Puzzle of Modern American Politics Byron E. Shafer, 2003 Where did the Era of Divided Government come from What sustains split partisan control of the institutions of American national government year after year Why can it shift so easily from Democratic or Republican presidencies coupled with Republican or Democratic Congresses How can the vast array of issues

and personalities that have surfaced in American politics over the last forty years fit so neatly within indeed reinforce the sustaining political pattern of our time These big questions constitute the puzzle of modern American politics The old answer a majority and a minority party plus dominant and recessive public issues will not work in the Era of Divided Government Byron Shafer a political scientist who is regarded as one of the most comprehensive and original thinkers on American politics provides a convincing new answer that has three major elements These elements in combination not divided government as a catch phrase are the real story of politics in our time The first element is comprised of two great sets of public preferences that manifest themselves at the ballot box as two majorities The old cluster of economic and welfare issues has not so much been displaced as simply joined by a second cluster of cultural and national concerns The second element can be seen in the behavior of political parties and party activists whose own preferences don t match those of the general public That public remains reliably left of the active Republican Party on economic and welfare issues and reliably right of the active Democratic Party on cultural and national concerns The third crucial element is found in an institutional arrangement the distinctively American matrix of governmental institutions which converts those first two elements into a framework for policymaking year in and year out In the first half of the book Shafer examines how dominant features of the Reagan first Bush Clinton and second Bush administrations reflect the interplay of these three elements Recent policy conflicts and institutional combatants in Shafer s analysis illuminate this new pattern of American politics In the second half he ranges across time and nations to put these modern elements and their composite pattern into a much larger historical and institutional framework In this light modern American politics appears not so much as new and different but as a distinctive recombination of familiar elements of a political style a political process and a political conflict that has been running for a much much longer time
