Manuscript Matters Lara M. Crowley, 2018-09-05 *Manuscript Matters* illuminates responses to some of John Donne's most elusive texts by his contemporary audiences. Since examples of seventeenth-century literary criticism prove somewhat rare and frequently ambiguous, this book emphasizes a critical framework rarely used for exhibiting early readers' exegeses of literary texts: the complete manuscripts containing them. Many literary manuscripts that include poems by Donne and his contemporaries were compiled during their lifetimes, often by members of their circles. For this reason, and because various early modern poems and prose works satirize topical events and prominent figures in highly coded language, attempting to understand early literary interpretations proves challenging but highly valuable. Compilers, scribes, owners, and other readers—men and women who shared in Donne's political, religious, and social contexts—offer clues to their literary responses within a range of features related to the construction and subsequent use of the manuscripts. This study's findings call us to investigate more extensively and systematically how certain early manuscripts were constructed through analysis of such features as scripts, titles, sequence of contents, ascriptions, and variant diction. While such studies can throw light on many early modern texts, exploring artefacts containing Donne's works proves particularly useful because more of his poetry circulated in manuscript than did that of any other early modern poet. *Manuscript Matters* engages Donne's satiric lyric and religious poetry as well as his prose paradoxes and problems. Analysing his texts within their manuscript contexts enables modern readers to interpret Donne's poetry and prose through an early modern lens.

Shakespeare's Strangers and English Law Paul Raffield, 2023-01-26 Through analysis of 5 plays by Shakespeare, Paul Raffield examines what it meant to be a stranger to English law in the late Elizabethan and early Jacobean period. The numbers of strangers increased dramatically in the late sixteenth century as refugees fled religious persecution in continental Europe and sought sanctuary in Protestant England. In the context of this book, strangers are not only persons ethnically or racially different from their English counterparts, be they immigrants, refugees, or visitors. The term also includes those who transgress or are simply excluded by their status from established legal norms by virtue of their faith, sexuality, or mode of employment. Each chapter investigates a particular category of stranger. Topics include the treatment of actors in late Elizabethan England and the punishment of counterfeits; Measure for Measure: the standing of refugees under English law and the reception of these people by the indigenous population; The Comedy of Errors: the establishment of Troynovant as an international trading centre on the banks of the Thames; Troilus and Cressida: the role of law and the state in determining the rights of citizens and aliens; The Merchant of Venice and the disenfranchised, estranged position of the citizen in a dysfunctional society and an acephalous realm; King Lear. This is the third sole-authored book by Paul Raffield on the subject of Shakespeare and the Law. The others are *Shakespeare's Imaginary Constitution: Late Elizabethan Politics and the Theatre of Law* (2010) and *The Art of Law in Shakespeare* (2017), both published by Hart Bloomsbury.
