entwickelt sich zunehmend zu einem Traumziel für Architekten. Die vielfältige Architektur fasziniert und inspiriert gleichermaßen. Als einzige deutschsprachige Zeitschrift dokumentiert DETAIL seit Jahren konsequent das Baugeschehen in Japan. Aus dem großen Erfahrungsschatz ist nun ein Band entstanden, der die aktuellen und interessantesten Bauten der verschiedenen architektonischen Strömungen vorstellt und in großstäblichen Details und Planzeichnungen dokumentiert. Darunter das Museum für zeitgenössische Kunst in Naoshima von Tadao Ando, die Mediothek in Sendai von Toyo Ito, ein Wohnhaus in Tokyo von Kazuyo Sejima, die Galerie einer Tempelanlage in Kyoto von Takashi Yamaguchi und mehr. Einführende Essays analysieren die Entwicklung der japanischen Baukunst. Ergänzt durch ausführliche Porträts bekannter, aber auch junger aufstrebender Architekten und Büros wie etwa dem Atelier Bow Wow, werden neben der traditionellen Architektur auch neuere Richtungen im Zusammenhang vorgestellt und diskutiert.

The Architecture of Ruins Jonathan Hill, 2019-03-25. The Architecture of Ruins: Designs on the Past, Present and Future identifies an alternative and significant history of architecture from the sixteenth century to the twenty-first century in which a building is designed, occupied and imagined as a ruin. This design practice conceives a monument and a ruin as creative interdependent and simultaneous themes within a single building dialectic, addressing temporal and environmental questions in poetic, psychological and practical terms and stimulating questions of personal and national identity, nature and culture, weather and climate, permanence and impermanence and life and death. Conceiving a building as a dialogue between a monument and a ruin intensifies the already blurred relations between the unfinished and the ruined and envisages the past, the present and the future in a single architecture. Structured around a collection of biographies, this book conceives a monument and a ruin as metaphors for a life and means to negotiate between a self and a society. Emphasising the interconnections between designers and the particular ways in which later architects learned from earlier ones, the chapters investigate an evolving interdisciplinary design practice to show the relevance of historical understanding to design. Like a history, a design is a reinterpretation of the past that is meaningful to the present. Equally, a design is equivalent to a fiction convincing users to suspend disbelief. We expect a history or a novel to be written in words but they can also be delineated in

drawing cast in concrete or seeded in soil The architect is a physical novelist as well as a physical historian Like building sites ruins are full of potential In revealing not only what is lost but also what is incomplete a ruin suggests the future as well as the past As a stimulus to the imagination a ruin s incomplete and broken forms expand architecture s allegorical and metaphorical capacity indicating that a building can remain unfinished literally and in the imagination focusing attention on the creativity of users as well as architects Emphasising the symbiotic relations between nature and culture a building designed occupied and imagined as a ruin acknowledges the coproduction of multiple authors whether human non human or atmospheric and is an appropriate model for architecture in an era of increasing climate change In Detail: Japan

Christian Schittich,2002 Japan is becoming a popular travel destination for more and more architects today With its wide variety of architecture it is both a source of fascination and inspiration Over a number of years the review Detail has been consistently documenting the construction activities which have taken place in Japan and this book draws on the best of their experience and connections to present and analyse with plans and details the most interesting buildings from various architectural trends in contemporary Japan including Ando s Museum for Contemporary Art in Naoshima Toyo Ito s Mediathek a residential building by Kazuyo Sejima and a temple gallery in Kyoto by Takashi Yamaguchi Introductory essays discuss the developments in Japanese architecture and together with portraits of not only well known Japanese architects and offices but also young offices such as Atelier Bow Wow this volume provides a stimulating discussion of current Japanese building in the context of traditional architecture **Der Baumeister** ,2000 **The Architects' Journal** ,1999-11

Faith and Power in Japanese Buddhist Art, 1600-2005 Patricia Jane Graham,2007 Faith and Power in Japanese Buddhist Art explores the transformation of Buddhism from the premodern to the contemporary era in Japan and the central role its visual culture has played in this transformation Although Buddhism is generally regarded as peripheral to modern Japanese society this book demonstrates otherwise Its chapters elucidate the thread of change over time in the practice of Buddhism as revealed in temple worship halls and other sites of devotion and in imagery representing the religion s most popular deities and religious practices It also introduces the work of modern and contemporary artists who are not generally associated with institutional Buddhism and its canonical visual requirements but whose faith inspires their art scholars results from erroneous presumptions about the aesthetic superiority of early Japanese Buddhist artifacts and an asserted decline in the institutional power of the religion after the sixteenth century She demonstrates that recent works constitute a significant contribution to the history of Japanese art and architecture providing evidence of Buddhism s compelling presence at all levels of Japanese society and its evolution in response to the needs of new generations of supporters *Japanese Design* Sarah Lonsdale,2001 This timely collection of the best of modern Japan is an authoritative introduction to the country s contemporary design and the histories behind them *World Architecture* ,2000 **Books on Japan in Western Languages Recently Acquired by the National Diet Library** Kokuritsu Kokkai Toshokan (Japan),1999 *Built*
