Shaman Of Oberstdorf:

Shaman of Oberstdorf Wolfgang Behringer, 1998 Shaman of Oberstdorf tells the fascinating story of a sixteenth century mountain village caught in a panic of its own making Four hundred years ago the Bavarian alpine town of Oberstdorf surrounded by the towering peaks of the Vorarlberg was awash in legends and rumors of prophets and healers of spirits and specters of witches and soothsayers The book focuses on the life of a horse wrangler named Chonrad Stoeckhlin 1549 1587 whose extraordinary visions of the afterlife and enthusiastic practice of the occult eventually led to his death and to the death of a number of village women for crimes of witchcraft Wolfgang Behringer is one of the premier historians of German witchcraft not only because of his mastery of the subject at the regional level but because he also writes movingly forcefully and with an eye for the telling anecdote Amazon.ca The Witch Ronald Hutton, 2017-01-01 This book sets the notorious European witch trials in the widest and deepest possible perspective and traces the major historiographical developments of witchcraft

Popular Magic: Cunning-folk in English History Owen

Davies, 2007-06-01 Cunning folk were local practitioners of magic providing small scale but valued service to the community. They were far more representative of magical practice than the arcane delvings of astrologers and necromancers. Mostly unsensational in their approach, cunning folk helped people with everyday problems: how to find lost objects, how to escape from bad luck or a suspected spell, and how to attract a lover or keep the love of a husband or wife. While cunning folk sometimes fell foul of the authorities, both church and state often turned a blind eye to their existence and practices, distinguishing what they did from the rare and sensational cases of malvolent witchcraft. In a world of uncertainty before insurance and modern science, cunning folk played an important role that has previously been ignored.

Fantastical Imaginations

Lizanne Henderson, 2009 In Scotland, the subject of the supernatural has been largely ignored by mainstream historians and academics who considered it to be irrelevant or trivial. This collection of essays by some of the foremost commentators in the field seeks to redress the balance by tackling such topics as prophecy, astrology, witchcraft, fairy belief, amulets, and charming. Other issues include the role of the supernatural in Enlightenment Scotland, in almanacs, in Gaelic society, and in literature, folktale, and legend. This is a multi-disciplinary volume with contributions utilizing historical, literary, and folkloristic methodologies and ranging in time from the late medieval period to the present day. It explores the perennial fascination of how people in the past viewed their world.

Magic, Ritual, and Witchcraft, 2006 *The Politics and Experience of Ritual Abuse* Sara Scott, 2001 Sara Scott's book is a very powerful work not only in terms of the subject matter and the politics of intense violence and violation that it explores, but also as a commentary on methodology and the nature of power. She thus contributes to the empowerment of survivors and the breaking of closures on debate and intervention. Professor Jeff Hearn, University of Manchester, author of *The Violences of Men*, Through exemplary use of theory and research, Scott's analysis of ritual abuse moves forward key debates within feminism, therapy, and social science more generally. This eloquent book confirms established sociological wisdom that great insights are produced from skilful research into boundary cases. Lois Bryson, Emeritus Professor, Research Institute for Gender and Health, University of Newcastle, Australia, very carefully researched, argued, and presented. It contains some very important, if highly shocking and disturbing material, which is handled in a highly sensitive way. Professor Mary Maynard, Department of Social Policy and Social Work, University of York. This book makes an important contribution to the existing literature and debate on ritual abuse, as well as to the understanding of gendered violence and abuse more generally. Marianne Hester, Professor of Sociology and Social Policy, University of Sunderland. We live in an era characterised by contradictions, not least in relation to the issue of ritual abuse, which emerged as a social problem only to have its existence immediately challenged by a discourse of disbelief. While many academics have ranked amongst the sceptics in this debate, Sara Scott is a sociologist who takes her respondents seriously, as well as acknowledging the interests and experiences which

have shaped her own position The Politics and Experience of Ritual Abuse offers insight into why ritual abuse has become such a contested issue while enabling the reader to explore the meaning of ritual abuse through the accounts of those who claim direct experience Drawing on her research with adults who identified themselves as survivors the author argues that the wholesale dismissal of such accounts as false memories produced by a moral panic may be somewhat premature The Politics and Experience of Ritual Abuse has been written for anyone interested in the specific controversy over ritual abuse including students and researchers in criminology social work sociology and women s studies **Archiv Für**

The first discusses the prospects of microhistory as an instrument for uncovering the relationship between culture and the personal experience of an individual in historical documents The second follows its theoretical underpinnings arguing in

clinical terms what may look like thick theorization to many historians and ethnohistorians that in our contemporary academics only cognitive science can be the leading approach to answer the question of the relationship between culture and an individual s experiences Cognitive science studies internal mental processes like memory attitudes motivation and

reflection It has shown that the brain's guesses of what is happening around it are based on an extensive unconscious system of conceptual metaphor that is part of our everyday conceptual systems and that can be thought of as a kind of language of the unconscious The third argument brings the others together in the specific case of conscious dreaming as can be recognized in the documents of Mexican cult leader Anton the Shepherd and his movements from 1759-61 In particular it interprets a flight to Purgatory one of Anton's experiences The unfolding of the three arguments intertwined as they are eventually should help to deepen the understanding of the ways in which Anton the Shepherd operated within the eighteenth century Central Mexican colonial milieu with his experiences in Purgatory illustrating the cultural resilience of Amerindian peoples in the region Acta Ethnographica Hungarica, 2008 Divining Science Warren Alexander Dym, 2005 **In Luther's Wake** Peter Elsel Starenko, 2002 **Satan** P.
