## **Shamus Game:**

The Naive and Sentimental Lover John le Carré, 2018-09-27 Splendid le Carré shows how endowed he is with the gift of storytelling. The Times Aldo Cassidy is a cautious man. He has a pleasant family, drives a safe expensive car and wears luxurious clothes. But his soothing existence is upended when he meets Shamus and Helen, a dazzling bohemian couple who are everything he is not. As he is drawn into their reckless and unpredictable orbit, all that Cassidy thought he understood about his orderly life begins to unravel. Told with le Carré's lacerating wit and penetrating observation, *The Naive and Sentimental Lover* is an acerbic satire of middle class hypocrisies. Le Carré is the equal of any novelist now writing. *Guardian*

*The Essential Mystery Lists* Roger M. Sobin, 2011-09-30 For the first time in one place, Roger M. Sobin has compiled a list of nominees and award winners of virtually every mystery award ever presented. He has also included many of the best of lists by more than fifty of the most important contributors to the genre. Mr. Sobin spent more than two decades gathering the data and lists in this volume; much of that time he used to recheck the accuracy of the material he had collected. Several of the best of lists appear here for the first time in book form. Several others have been unavailable for a number of years. Of special note are Anthony Boucher's Best Picks for the Year. Boucher, one of the major mystery reviewers of all time, reviewed for *The San Francisco Chronicle*, *Ellery Queen Mystery Magazine*, and *The New York Times*. From these resources, Mr. Sobin created Boucher's Best and Important Lists to Consider, lists that provide insight into important writing in the field from 1942 through Boucher's death in 1968. This is a great resource for all mystery readers and collectors. Winner of the 2008 Macavity Awards for Best Mystery Nonfiction. The Game Boy Encyclopedia Chris Scullion, 2024-11-30

*The Game Boy Encyclopedia* is the sixth book in Scottish author and journalist Chris Scullion's critically acclaimed series of video game encyclopedias. There are few video game systems as iconic and important as the Nintendo Game Boy. Released in 1989, the handheld's humble green-tinted display allowed for a low-cost portable console that won over players where it mattered most: the quality of its games. From huge early successes like the iconic *Tetris* and *Super Mario Land* to its revival years later with the groundbreaking *Pokémon* games, the Game Boy stands proudly as one of the greatest gaming systems ever. Its 1998 successor, the Game Boy Color, addressed the one main weak spot in the Game Boy's armor and offered full-color games. Combined, nearly 120 million Game Boy and Game Boy Color handhelds were sold worldwide, with both models playing a huge role in so many childhoods and adulthoods. This book contains every game released in the West for both handhelds: around 580 on the Game Boy and around 560 on the Game Boy Color. With around 1,150 games covered in total, screenshots and trivia factoids for every single title, and a light-hearted writing style designed for an informative but entertaining read, *The Game Boy Encyclopedia* is the definitive guide to a legendary gaming platform.
