Shanghai Revolution And Development In An Asian Metropolis:

Shanghai Christopher Howe, 1981-05-07 This book is a comprehensive study of the way in which old Shanghai was transformed and developed by the Communist Party between 1949 and the later 1970s Urban Growth and Development in Asia Graham P. Chapman, Ashok K. Dutt, 2019-01-15 First published in 1999 this volume begins with a panoramic survey by Nigel Harris of the drama of Asian Urbanization based on the inaugural plenary lecture he gave to the 5th Asian Urbanization Conference held in London In the following chapters many experts and practitioners from different countries and cities provide a stimulating portrayal of the processes and outcomes of one of the greatest shifts of population not just absolutely but proportionately as well ever to have occurred in human history Asia includes more than half the world's population but apart from the Tiger economies and Japan it is still overwhelmingly rural In the last decade or so urbanization has really begun to take off and the shift of population to the cities represents one of the greatest population movements the planet has ever seen By 2030 more than 50% of Asia's population will be urban and between now and then more than 500 million people in Asia will have moved looking for jobs housing food and water They will be both part of a problem and most of the solution building around them the cities they will live in **China's Urban Future and the Quest for Stability** Rebecca Clothey, Richardson Dilworth, 2020-04-16 In recent decades China has used urbanization as an economic development tool to reconstruct the country's traditional institutions culture and society The downside of these many changes is that they have presented the country's government with a massive challenge how can it maintain basic stability China's Urban Future and the Quest for Stability examines the complexities of Chinese cities Together the essays in this book explore how the relatively recent onset of urbanization has altered the country and how that experience is similar to and distinct from developments in other times and places Each chapter analyzes one facet of China's transformation focusing on three main themes urbanization and the rapid growth of Chinese cities mobility in both the abstract and the literal sense and marginalization evidenced by growing residential segregation in cities and diminishing access to education health care and jobs Underlying these themes is the issue of governance the systems by which a state attempts to maintain control and achieve its ends often in ways that differ significantly from what one might expect An up to date concise and multidisciplinary collection China's Urban Future and the Quest for Stability discusses the social economic and political forces at work in the urbanization of a modern superpower **Mr. Science and Chairman Mao's Cultural Revolution** Chunjuan Nancy Wei, Darryl E. Brock, 2013-01-01 Despite the verdict of the Cultural Revolution as a disaster for China a number of scholars have called for reexamining socialist science under Mao's aegis This collection examines the viewpoints on social and scientific enterprises of that era probing medicine the space program and the one child policy as outcomes of earlier Maoist science Shanghai Mundane Lei Ping, 2025-09-18 This book offers a new critical intervention into the studies of the paradox of Chinese socialism Centering on the unremovable Shanghai bourgeoisie and middle class the book brilliantly discovers Chinese society's

persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology from the Mao era to the Xi era Shanghai Mundane offers a new critical intervention into the studies of the paradox of Chinese socialism Through the lens of contested state society relations the book challenges conventional China Studies by repositioning Shanghai as the key to decode the protracted ideological warfare between socialism and capitalism Based on significant archival ethnographic and theoretical evidence unearthed from the distinct cases of Shanghai bourgeoisie and middle class Lei Ping discovers the city s persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology throughout the entire history of the People s Republic of China Ping argues that despite the socialist remolding of capitalist industry and commerce the post 1949 Chinese state failed to eradicate bourgeois heritage in the domain of everyday life in the Mao era which ironically contributed to its controversial policy reversals in the post Mao era from Deng to Xi What lies at the heart of the major intellectual conundrum namely the survival and revival of bourgeois sentiments is what Ping calls the unremovable Shanghai mundane This captivating and provocative account sheds new light on understanding the larger questions as to the crisis ridden practices of Chinese socialism and the raison d tre of the Chinese Communist Party in the twenty first century

Unstately Power Lynn T. White, III, 2015-06-03 A critique of America s flawed Asia policy that centres on US Japan relations but harkens back to the same disastrous views that drew America into Vietnam The technique is a narrative flow of short vignettes woven into longer chapters the main strands are personal reflections and interviews China Michael Dillon, 2010-07-30 China s transformation in the last few decades has been perhaps the most remarkable and most controversial development in modern history Barely a century removed from the struggling and outdated Qing Empire China has managed to reinvent itself on an unprecedented scale from Empire to Communist state to hybrid capitalist superpower Yet the full implications of China s rapid march to modernity are not widely understood particularly the effects of China s meteoric rise on the nation s many ethnic minorities China A Modern History is the definitive guide to this complex contemporary phenomenon Deng Xiaoping s 1980s policy of reform and opening which saw China enter the world market is only the most recent in a series of dramatic shifts that have transformed Chinese society over the past 150 years China A Modern History explores these contrasts in detail while also highlighting the enduring values which have informed Chinese identity for millennia Michael Dillon s China A Modern History is essential reading for those interested in the past present and future course of one of the world s great nations Clearly and compellingly written this will stand as the best introduction to this spectacular and still unfinished story **Colonial Frames, Nationalist Histories** Mrinalini Rajagopalan, Madhuri Shrikant Desai, 2012 A common thread throughout the essays in this volume is a focus on new loci of power that emerge either in collision with colonial power structures or in collaboration with or those that emerge in the wake of decolonization While the authors recognize the presence of a larger structure of colonial hegemony they also investigate those centers of power that emerge in the interstices of crevices of colonial power Interdisciplinary and theoretically innovative this book

offers a global perspective on colonial and national landscapes rewrites the master creator narrative examines national landscapes as sites of contestation and views the globalization of processes such as archaeology beyond the boundaries of the national
