Shaping The Eighteenth Amendment:

Prohibition, the Constitution, and States' Rights Sean Beienburg, 2019-06-20 Colorado's legalization of marijuana spurred intense debate about the extent to which the Constitution preempts state enacted laws and statutes Colorado's legal cannabis program generated a strange scenario in which many politicians including many who freely invoke the Tenth Amendment seemed to be attacking the progressive state for asserting states rights Unusual as this may seem this has happened before in the early part of the twentieth century as America concluded a decades long struggle over the suppression of alcohol during Prohibition Sean Beienburg recovers a largely forgotten constitutional debate revealing how Prohibition became a battlefield on which skirmishes of American political development including the debate over federalism and states rights were fought Beienburg focuses on the massive extension of federal authority involved in Prohibition and the passage of the Eighteenth Amendment describing the roles and reactions of not just Congress the presidents and the Supreme Court but political actors throughout the states who jockeyed with one another to claim fidelity to the Tenth Amendment while reviling nationalism and nullification alike The most comprehensive treatment of the constitutional debate over Prohibition to date the book concludes with a discussion of the parallels and differences between Prohibition in the 1920s and debates about the legalization of marijuana today

Crime, Gender, and Sexuality in Criminal Prosecutions Louis A. Knafla, 2002-07-30 Knafla and his contributors explore the common problems and issues that emerge from the study of class and gender in criminal prosecutions ranging from late medieval Europe to the early 20th century The chapters demonstrate that conceptions of crime and criminal behavior are influenced decisively by the roles of class gender and later race as societies evolve in search of continuity and conformity The seven chapters in this volume together with a major book review essay and critical reviews of sixteen major works in the area reinforce the series as a major forum for exploring new directions in criminal justice research as it relates to issues and problems of class gender and race in their historical criminological legal and social aspects The chapters explore common themes and issues that emerge from the study of class and gender through policing and criminal prosecutions in the local community to growing attempts of the new nation state to gain control of the prosecutorial system Trevor Dean and Lee Beier examine prosecutorial energy in local communities of 15th and 16th century Europe and see instruments of peace agreement and war prosecution and conviction as worthy institutions of social control Andrea Knox studies the prosecution of Irish women finding that they were prominent as perpetrators of crime as well as victims Antony Simpson shows how sexual indiscretions developed the law of blackmail in the 18th century influencing subtle changes in gender roles David Englander's study of Henry Mayhew reinterprets the role of class in the criminal prosecutions of the 19th century while Arvind Verma and Philippa Levine extend

the roles of class and gender that had been developed in the criminal justice system into the imperial colonies of south east and east Asia in the 19th and early 20th centuries An important resource for scholars students and researchers involved with legal political social and women s history criminal justice studies sociology and criminology and criminal law **Shaping the Eighteenth Amendment** Richard F.
