Retrotopia Zygmunt Bauman, 2017-11-15 Jedes einzelne von Baumans Buchern in der letzten Dekade kann als Meisterwerk gelesen werden Ulrich Beck Make America great again lautet der Leitspruch des amtierenden US Präsidenten Nicht vorwärts soll es gehen wie Barack Obama noch im Wahlkampf von 2012 versprochen hatte sondern zurück zu alter Größe Die Menschen scheinen die Hoffnung auf ein besseres Leben in der Zukunft aufgegeben zu haben und wenden sich stattdessen einer angeblich guten alten Zeit zu In seinem letzten zu Lebzeiten vollendeten Buch untersucht der große Soziologe und Philosoph Zygmunt Bauman die Gründe für diese globale Epidemie der Nostalgie Gut fünf hundert Jahre nach der Veröffentlichung von Thomas Morus Utopia so seine These haben die Nationalstaaten die Fiktion eingebettet ihre Versprechen auf Wohlstand und Sicherheit einzulösen Wer in einer globalisierten Welt nach Orientierung sucht der richtet seinen Blick daher nicht länger auf einen als Ideal verkörperten Ort einen topos sondern in eine untote Vergangenheit

developmente tm Articles 1 55 and 56 and e to promote the establishment and maintenance of international peace and security with the least diversion for armaments of the worlde tm s human and economic resourcese tm Article 26 The countries of Africa Latin America Asia and the Middle East hold 51 percent of the worlde tm s heavy weapons Excessive or inappropriate arms purchases are a drain on social and economic resources which developing countries simply cannot afford The Millennium Development Goals will not be achieved without addressing the issue of sustainable development in all aspects of policy including arms transfers Both arms importers and exporters must ensure that arms transfers do not undermine sustainable development For arms exporters various export control regimes already include this requirement as does the proposed Arms Trade Treaty but few governments fully respect these commitments Lip service leads to arms falling into the wrong hands and the diversion of scarce resources from fighting poverty To protect the social and economic rights of poor people exporting governments must apply an effective and systematic methodology to assess whether proposed arms transfers will affect sustainable development This report proposes such a methodology and explains why excepting legitimate security needs arms transfers with an adverse impact on sustainable development must not go ahead **Shattered Lives**

Debbie Hillier,Brian Wood,2003 Summary Med separat sammanfattning *Machel Study 10-year Strategic Review* ,2009 The organisation of this report aims to heighten our understanding of the myriad ways in which armed conflict affects children and how children regard their participation not only in war but in programmes aimed at preventing violence against them and in promoting their recovery and reintegration The central message of this 10 year strategic review is that war violates every right of the child The report thus frames its findings within three categories political and diplomatic actions and responsibilities system wide international policies standards and architectures and prevention and response

Disarmament Diplomacy and Human Security Denise Garcia, 2011-02-08 This book assesses how progress in disarmament diplomacy in the last decade has improved human security In doing so the book looks at three cases of the development of international norms in this arena First it traces how new international normative understandings have shaped the evolution of and support for an Arms Trade Treaty the supply side of the arms trade and second it examines the small arms international regime and examines a multilateral initiative that aims to address the demand side by the Geneva Declaration and third it examines the evolution of two processes to ban and regulate cluster munitions The formation of international norms in these areas is a remarkable development as it means that a domain that was previously thought to be the exclusive purview of states i e how they procure and manage arms has been penetrated by multiple influences from worldwide civil society As a result norms and treaties are being established to address the domain of arms and states will have more multilateral restriction over their arms and less sovereignty in this domain This book will be of much interest to students of the arms trade international security international law human security and IR in general Denise Garcia is Assistant Professor in the Department of Political Science at Northeastern University Boston She is author of *Small Arms and Security* Routledge 2006

Amnesty International Report Amnesty International, 2004 Huge challenges confronted the international human rights movement in 2003 The UN faced a crisis of legitimacy and credibility because of the US led war on Iraq and the organization s inability to hold states to account for gross human rights violations International human rights standards continued to be flouted in the name of the war on terror resulting in thousands of women and men suffering unlawful detention unfair trial and torture often solely because of their ethnic or religious background Around the world more than a billion people s lives were ruined by extreme poverty and social injustice while governments continued to spend freely on arms This Amnesty International s report reflects those challenges It documents the human rights situations in 155 countries and territories in 2003 and summarizes regional trends It reports on areas of work being prioritized and developed by Amnesty International such as violence against women economic social and cultural rights justice and protection of refugees and migrants and celebrates the achievements of activists in these and other areas
