## **Shattered Spectrum A Survey Of Contemporary Theology:**

*The Shattered Spectrum* Lonnie D. Kliever, 1981      **Evangelical Theological Method** Stanley E. Porter, Steven M. Studebaker, 2018-07-10 How should one approach the task of theology This Spectrum volume brings together five evangelical theologians with distinctly different approaches to the theological task who present their own approach and respond to each of the other views Emerging from this theological conversation is an awareness of our methodological commitments and the benefits that each can bring to the theological task      **Scripture in the Theologies of W. Pannenberg and D.G. Bloesch** Frank M. Hasel, 2004-03-01 Scripture has always played an important role in Christian theology This study provides an issue oriented overview of the concepts of Scripture in Protestant theology from the 16th century Reformation onward It then sets forth the concepts of Scripture in the theologies of two contemporary systematic theologians W Pannenberg and D G Bloesch It analyzes compares and evaluates the theological and anthropological presuppositions that have influenced their concept of Scripture Despite fundamentally different starting points and other significant distinctions Pannenberg and Bloesch reveal surprising similarities This seems to suggest that for both the concept of Scripture is determined ultimately by presuppositions that are derived and shaped extra scripturam      Genetic Turning Points James C. Peterson, 2001-04-09 This timely volume clearly lays out the central ethical questions raised by today s rapid advances in biotechnology James Peterson sorts through the maze of clinical decisions occasioned by human genetic intervention organizing the range of moral considerations that now face us and exploring their practical impact on individuals families and communities The ethical question are covered in the order of how soon the particular technologies that raise them are becoming available This unique format allows readers to go directly to issues of particular interest Peterson assumes no prior knowledge of genetics or ethics making his work one of the most accessible discussions of bioethics available today      *Religion and the Natural Sciences* James E. Huchingson, 2005-02-07 The first half of Religion and the Natural Sciences is an introduction to the discussion of science and religion Here the reader learns why there is any debate at all and what resources exist for responding to it The second half deals with specific issues that arise in the individual sciences from astronomy and physics to biology and ecology Any project hoping to connect science and religion must supply the categories of connection which are found primarily although not exclusively in philosophy The simplicity of the arrangement and the nature of the selections are intended to make Religion and the Natural Sciences available to as wide an audience as possible including students from the sciences and technology the professions the humanities and liberal studies and theology      Soul in Society Gary J. Dorrien, 1995 Gary Dorrien s major work addresses the roots of and remedy to the current crisis in American Christian social ethics Focusing on the story of American liberal Protestantism the book examines in fascinating depth the three major movements in this century the Social Gospel Christian Realism and Liberation Theology in a way that also brings African American feminist environmentalist Catholic and other voices into the increasingly multicultural quest Dorrien then carefully assesses the crisis

of social Christian thought in a culture that is increasingly secular materialistic and dominated by capitalism He shows how the progressive Christian vision of social and economic democracy can be redeemed in the face of its apparent defeat He argues strongly for a social Christianity faithful to the spiritual reality and kingdom oriented ethic of the way of Christ Dorrien s engaging narrative knowledgeable and fair analysis and thoughtful proposal bring desperately needed clarity and commitment to the Christian social conscience

**The Community of the Weak** Hans-Peter Geiser,2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story *Theologische Revue* ,1983

**Reconstructing Old Testament Theology** Walter Brueggemann,2005-06-15 In this informative and keen look at contemporary trends in Old Testament theology Perdue builds on his earlier volume The Collapse of History 1994 He investigates how a variety of perspectives and methodologies have impacted how the Old Testament is read in the twenty first century including literary criticism rhetorical criticism feminist womanist and mujerista theologies liberation theology Jewish theology postmodernism and postcolonialism Perdue provides a sensitive reading of the aims of these approaches as well as providing critique and setting them in their various cultural contexts In his conclusion the author provides a look at the future and how these various voices and approaches will continue to impact how we carry out Old Testament theology

**Hermeneutics as Theological Prolegomena** Charles J. Scalise,1994 *The Collapse of History* Leo G. Perdue,1994 With the waning influence of history and historical criticism as the normative context and method of Old Testament study alternative approaches and new perspectives have appeared These current developments Leo Perdue points out need not halt progress in the doing of Old Testament theology but can move the discipline in a variety of new and imaginative directions *Theological and Religious Reference Materials: Systematic theology and church history* G. E. Gorman,1984

**Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur** ,2006 Pandemonium Tremendum James Edward Huchingson,2001 **Liberation Theology** Atilio René Dupertuis,1987 Liberation theology emerged as a response to the historical reality of Latin American political and economic problems with the purpose of bringing justice and liberation to the masses This investigation concludes that liberation theology in spite of its timeliness and virtues has to a

large extent neglected the transcendent due to its absorbing preoccupation with the historical and has emptied the Gospel of much of its saving content      Entertainment Theology Barry Taylor, 2008 An entertainment expert offers a broad understanding of religion in a postsecular age and explores the factors that have contributed to fashioning religious life in the twenty first century      **Reflections on Francis Schaeffer** Ronald W. Ruesegger, 1986      Southern Baptists & American Evangelicals David S. Dockery, 1993      *A Salvation Audit* Colin Grant, 1994 The gospel of salvation will not be restored because it is promoted as a means of addressing social injustice or environmental devastation but only insofar as its own intrinsic significance is recognized Although the current promotion of social salvation identifies neglected dimensions of the gospel on its own this direction could further submerge the gospel in the anthropocentric technological horizon whereby God becomes another resource for people whose predicament so largely derives from a resource mentality Reactions against privatistic distortions of the gospel must not be permitted to obscure the importance of personal appreciation and appropriation The social thrust of the gospel and its personal impact depend upon the reality of the theological basis of salvation in the being and activity of God The significance of the Christian gospel of salvation is not primarily a matter of its usefulness but of its truth That truth is more a matter of otherness than other worldliness of directive than determinism of destiny than finality BOOK JACKET      After Fundamentalism Bernard Lawrence Ramm, 1983 The Enlightenment of the eighteenth century brought into existence modern learning and modern attitudes at the same time it created the most serious challenge to Christianity since the early days of the Church Liberal Christianity was created to formulate a way of living with the aftermath of the Enlightenment but made the fateful mistake of surrendering the substance of Christianity as historically understood At the same time orthodoxy evangelicalism and fundamentalism have struggled to respond properly to the Enlightenment Now Bernard Ramm s groundbreaking *After Fundamentalism* offers a way of doing theology using Karl Barth s methodology as a model that allows a Christian to both be a child of the Enlightenment and maintain the historic substance of Christianity *After Fundamentalism* reconciles the great gains of the Enlightenment with authentic Christianity to show how a Christian can without compromising his or her beliefs live fully as a modern person in the modern world
