Shaw Abroad:

Bernard Shaw's Marriages and Misalliances Robert A. Gaines, 2017-10-25 This book combines the insights of thirteen Shavian scholars as they examine the themes of marriage relationships and partnerships throughout all of Bernard Shaw's major works. It also connects Shaw's own experiences of love and marriage to the themes that emerge in his works, showing how his personal relationships in and out of matrimonial bonds change the ways his characters enter and exit marriages and misalliances. While providing a wealth of new analysis, this collection of essays also leaves lingering questions for the reader to spark continuing dialogue in both individual and academic settings.

Bernard Shaw's Bridges to Chinese Culture Kay Li, 2016-11-10 This book explores the cultural bridges connecting George Bernard Shaw and his contemporaries such as Charles Dickens and Arthur Miller to China. Analyzing readings, adaptations, and connections of Shaw in China through the lens of Chinese culture, Li details the negotiations between the focused and culturally specific standpoints of eastern and western culture while also investigating the simultaneously diffused multi-focal and comprehensive perspectives that create strategic moments that favor cross-cultural readings. With sources ranging from Shaw's connections with his contemporaries in China to contemporary Chinese films and interpretations of Shaw in the digital space, Li relates the global impact of not only what Chinese lenses can reveal about Shaw's world but how intercultural and interdisciplinary readings can shed new light on familiar and obscure works alike.

Showcasing the Great Experiment Michael David-Fox, 2011-10-01 During the 1920s and 1930s, thousands of European and American writers, professionals, scientists, artists, and intellectuals made a pilgrimage to experience the Soviet experiment for themselves. *Showcasing the Great Experiment* explores the reception of these intellectuals and fellow travelers and their cross-cultural and trans-ideological encounters in order to analyze Soviet attitudes towards the West. Many of the twentieth century's greatest writers and thinkers, including Theodore Dreiser, Andr  Gide, Paul Robeson, and George Bernard Shaw, notoriously defended Stalin's USSR despite the unprecedented violence of its prewar decade. While many visitors were profoundly affected by their Soviet tours, so too was the Soviet system. The early experiences of building showcases and teaching outsiders to perceive the future in the making constitute a neglected international part of the emergence of Stalinism at home. Michael David-Fox contends that each side critically examined the other, negotiating feelings of inferiority and superiority, admiration and enmity, emulation and rejection. By the time of the Great Purges, these tensions gave way to the dramatic triumph of xenophobia and isolationism, whereas in the twenties the new regime assumed it had much to learn from Western modernity. By the Stalinist thirties, the Soviet order was declared superior in all respects. Drawing on the declassified archival records of the agencies charged with crafting the international image of communism, David-Fox shows how Soviet efforts to sell the Bolshevik experiment abroad through cultural diplomacy shaped and were in turn shaped by the ongoing project of defining the Soviet Union from within. These interwar Soviet methods of mobilizing the intelligentsia for the

international ideological contest he argues directly paved the way for the cultural Cold War
