The American Design Adventure, 1940-1975 Arthur J. Pulos, 1988 The American Design Adventure continues the fascinating and detailed examination of industrial design begun by Arthur Pulos in *American Design Ethic*. The first volume discussed and illustrated the objects and artifacts, the major designers and schools of design from Colonial times to the 1940s. This second splendidly illustrated volume carries the story into the heroic era of American industrial design from the 1940s to the 1970s. These were the decades of American industrial design's dominance when special exhibitions and world fairs made design a subject of national pride. Big business realized the influence that trademarks, packaging and corporate identity programs could have on their bottom line and the world of fashion created a consumer demand for name brands and well designed products. Industrial design flourished under the capable hands of Raymond Loewy and Charles Eames while corporations like IBM, RCA, Herman Miller and Knoll were sponsors of the great American design adventure. The extraordinary collection of illustrations that Pulos has assembled documents all of these important design trends while evoking the nostalgia of the 50s and 60s when Pop and Rock held sway. Pulos probes all aspects of industrial designers and their work in education and private corporations, in professional organizations and governmental agencies. He also covers prefabricated housing, graphics, manufactured products from the exotic to the pragmatic and public systems from the sociopolitical to the economic.

Speed Read Car Design Tony Lewin, 2017-12-05 This beautifully designed and illustrated essential guide to car design from Motorbooks' Speed Read series traces the inspirations of the first car designers and tracks the craft, the art and the science that have propelled successive generations of designers and shaped the contours of the vehicles we see all around us. Never before has the car buying public been more aware of how a car's design fits into their everyday lives and what it communicates about the driver behind the wheel. Like all design, car design is a complex subject. Every part of a car represents myriad decisions by the design team, ruled by engineering, aesthetics, human interface and emotion. *Speed Read Car Design* helps you understand the hows and whys of that design process, offering an engaging review of history, theory, key concepts and key designers. It's a book for car enthusiasts, design fans and anyone with a desire to better understand why our wheeled world looks the way it does. In sections divided by topic, you'll explore the birth of car design, how it evolved over the last century, successes and failures in innovation, the elements that make up a car's style, the engineering behind the design, the creative process and design fads, and finally the road ahead in car design. Each section ends with a glossary of related terms and informational sidebars provide fun facts, historical tidbits and mini bios of key people in car design. Sleek illustrations of the cars give clear design examples throughout. With Motorbooks' Speed Read series, become an instant expert in a range of fast moving subjects from Formula 1 racing to the Tour de France. Accessible language, compartmentalized sections, fact-filled sidebars, glossaries of key terms and event timelines deliver quick access to insider knowledge. Their brightly colored covers, modern design, pop art inspired illustrations and handy size make them

perfect on the go reads **American Design in the Twentieth Century** Gregory Votolato,1998 Author Greg Votolato presents the intricate story of how design evolved as a profession and a leisure activity Votolato demonstrates that design in affluent American culture is as much about personalization of the material world as it is about the performance and appearance of manufactured goods 114 illustrations **Ebony** ,1994-09 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine **LIFE** ,1957-02-18 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today s people and events They have free access to share print and post images for personal use *The Great Bronze Age of China* Metropolitan Museum of Art (New York, N.Y.),Robert W.
