histoire critique du marketing Thibault Le Texier,2022-02-03 La physionomie de nos sociétés dépend de vendeurs et d'acheteurs qui ne se rencontrent plus comme autrefois sur les marchés de plein air ou dans les ateliers des artisans Depuis un siècle les articles jugés sur place ont fait place des produits préemballés bardés de marques et poussés travers des canaux de distribution matériels et médiatiques les clients sont devenus des consommateurs Ajustant chaque jour la production la consommation et la consommation la production le marketing est loin d'être un simple intermédiaire il exerce une influence profonde nourrie de toutes les sciences sociales y compris dans la sphère intime en politique et l'université La société tout entière est orientée vers le marché sous la benédiction de l'état et malgré bien des résistances individuelles Avec le management le marketing a fait de l'entreprise l'institution cardinale de notre époque dont notre survie dépend toujours davantage Bien mieux que la science économique la rationalité marketing permet de comprendre intimement les entreprises et les marchés Et pourtant l'histoire de ce savoir pratique indispensable au bon fonctionnement du capitalisme reste méconnue **Design & Applied**
