Punch and Judy in 19th Century America Ryan Howard,2014-01-02 The hand puppet play starring the characters Punch and Judy was introduced from England and became extremely popular in the United States in the 1800s This book details information on nearly 350 American Punch players It explores the significance of the 19th century American show as a reflection of the attitudes and conditions of its time and place The century was a time of changing feelings about what it means to be human There was an intensified awareness of the racial cultural social and economical diversity of the human species and a corresponding concern for the experience of human oneness The American Punch and Judy show was one of the manifestations of these conditions *Whitaker's Five-year Cumulative Book List* ,1968 *Whitaker's Books in Print* ,1998 **Biographical Books, 1950-1980** R.R. Nineteenth-century Literature Criticism Laurie Lanzen Harris,1981 Excerpts from criticism of the works of novelists poets playwrights short story writers and other creative writers who lived between 1800 and 1900 from the first published critical appraisals to current evaluations **Discerning Characters** Christopher J. Lukasik,2011-07-11 In this path breaking study of the intersections between visual and literary culture Christopher J Lukasik explores how early Americans grappled with the relationship between appearance and social distinction in the decades between the American Revolution and the Civil War Through a wide range of evidence including canonical and obscure novels newspapers periodicals scientific and medical treatises and plays as well as conduct manuals portraits silhouettes and engravings *Discerning Characters* charts the transition from the eighteenth century s emphasis on performance and manners to the search for a more reliable form of corporeal legibility in the wake of the Revolution The emergence of physiognomy which sought to understand a person s character based on apparently unchanging facial features facilitated a larger shift in perception about the meanings of physical appearance and its relationship to social distinction The ensuing struggle between the face as a pliable medium of cultural performance and as rigid evidence of social standing Lukasik argues was at the center of the post Revolutionary novel which imagined physiognomic distinction as providing stability during a time of cultural division and political turmoil

As Lukasik shows this tension between a model of character grounded in the fluid performances of the self and one grounded in the permanent features of the face would continue to shape not only the representation of social distinction within the novel but more broadly the practices of literary production and reception in nineteenth century America across a wide range of media The result is a new interdisciplinary interpretation of the rise of the novel in America that reconsiders the political and social aims of the genre during the fifty years following the Revolution In so doing *Discerning Characters* powerfully rethinks how we have read and continue to read both novels and each other *American Book Publishing Record Cumulative, 1950-1977* R.R. Bowker Company. Department of Bibliography, 1978 *Writing from the Hearth* Mildred Mortimer, 2007-11-01 If space is important in the realm of imagination and a key theme in feminist theory cross cultural studies of social maps reveal that men and women s spatial experiences differ women rarely control physical or social space directly Positing the thesis that women s writing of Francophone Africa and the Caribbean offers important perspectives on the relationship of gender to space *Writing from the Hearth* proposes close readings of Francophone women writers of Africa Aoua KZita Mariama B% Ken Bugul Calixthe Beyala and Aminata Sow Fall and the Caribbean Marie Chauvet Simon Schwarz Bart Maryse CondZ and Edwidge Danticat As critical readings of postcolonial African and Caribbean literature show that tropes of confinement appear frequently in female authored texts_where home is often depicted as a place of alienation_this critical study examines ambiguities associated with domestic space as enclosure as it explores the relationship between the female protagonist and the inner and outer spaces of her world domestic imaginative and public space *Writing from the Hearth* probes the hypothesis that the female protagonist can move toward empowerment by entering public space from which she has been excluded by indigenous patriarchs and European colonizers and by establishing a new relationship to domestic space or securing a liberating alternative space within it Flexible and multipurpose alternative space is a place of possibilities that can function as a refuge for meditation recollection or fantasy an antechamber for action and a site of resistance and performance Here by telling the tale writing the creative work a woman can affirm her sense of self
