**Positioning Theory** Rom Harré, Luk Van Langenhove, 1998-11-18 In this book Rom Harre give a state of the art overview of positioning theory via contributions from some of the world s leading experts in the field **Positioning Theory** ,1999

Theorie der Gruppenidentitäts-Fabrikation Robin Kurilla, 2020-04-06 Bisher gibt es keine umfassende und kohärente Annäherung an die Bestimmung der an der Konstruktion von Gruppenidentitäten beteiligten kommunikativen und pro kommunikativen Prozesse Die vorliegende Untersuchung schließt diese Lücke durch die Entwicklung einer einheitlichen theoretischen Grundlage mit der sich empirische Konstruktionsprozesse erfassen lassen berdies leistet sie einen Beitrag zur Domäne der Gruppenkommunikationsforschung Es wird ein grundlagentheoretisches Flussbett geschaffen das eine begriffliche Fundierung der Konzeption von Inter und Intragruppenkommunikation liefert die nicht von objektiven Kategorien ihren Ausgang nimmt sondern von de facto stattfindenden Vergesellschaftungsprozessen Zudem wird am Beispiel der Gruppenidentitätskonstruktion die Architektur einer innovativen Sozialtheorie vorgestellt die den Ansprüchen kommunikationswissenschaftlicher und womöglich auch in anderen Disziplinen zu verortender Erkenntnisinteressen genügt

**Positioning Theory and Strategic Communication** Melanie James, 2014-06-13 In public relations people talk about positioning an idea a persona a political ideal an ideology but what are they talking about Why do some positions taken by organizations crystallize in the minds of audiences while others fail Whilst positioning is not something new in public relations this book is the first to explicate what it involves how it works and how to do it This is the first in depth exploration of the possibilities of Positioning Theory for the public relations field and it adds a new perspective to the growing body of multidisciplinary work in this rich theoretical area moving the discussion away from the traditional communication plans of previous decades which fail to accommodate the changing media and opinion landscapes The author pulls together various strands of socio cultural theory into an analytical framework providing readers with a tool to analyse the organizational implications of public relations decisions guiding strategic decision making through realistic scenario planning This thought provoking book provides an alternative path to studying communication in increasingly complex environments and as such will be vital reading for researchers and educators advanced communication and public relations students and for senior public relations practitioners *You Belong to Christ* J. Brian Tucker, 2011-01-01 You Belong to Christ explores the way that the Apostle Paul sought to form the social identity of one of his most important Christ following communities It sheds light on the way various social identities function within the Pauline community and provides guidance concerning the social implications of the gospel Drawing from contemporary social identity theories as well as ancient source material J Brian Tucker describes the way 1 Corinthians 1:4 forms social identity in its readers so that what results is an alternative community with a distinct ethos in contrast to the Roman Empire and its imperial ideology This book contends that previous identities are not obliterated in Christ but maintain their fundamental significance and serve to further the Pauline mission

by means of social integration Providing a comprehensive survey of Christian identity in Pauline studies as well as an interesting look into the material remains of Roman Corinth this volume provides a social scientific reading of 1 Corinthians 14 and argues that Paul's strategy was to form salient in Christ social identity in those to whom he wrote

**The Existentialist Moment** Patrick Baert, 2015-08-20 Choice Outstanding Academic Title for 2015 Jean Paul Sartre is often seen as the quintessential public intellectual but this was not always the case Until the mid 1940s he was not so well known even in France Then suddenly in a very short period of time Sartre became an intellectual celebrity How can we explain this remarkable transformation The Existentialist Moment retraces Sartre's career and provides a compelling new explanation of his meteoric rise to fame Baert takes the reader back to the confusing and traumatic period of the Second World War and its immediate aftermath and shows how the unique political and intellectual landscape in France at this time helped to propel Sartre and existentialist philosophy to the fore The book also explores why from the early 1960s onwards in France and elsewhere the interest in Sartre and existentialism eventually waned The Existentialist Moment ends with a bold new theory for the study of intellectuals and a provocative challenge to the widespread belief that the public intellectual is a species now on the brink of extinction

**Making Employee-Driven Innovation Achievable** Justina Tan, Wing On Lee, 2023-07-14 This volume guides workplace trainers in teaching the significance of Employee Driven Innovation EDI and recognising that each and every employee is capable of being the driver of innovation Given that innovation has become imperative to unlock competitive advantage and that employees are increasingly regarded as a quintessential aspect of innovation this focus on EDI and how to enable it is both necessary and opportune The book is split into three parts first focusing on helping trainers to address the challenges of getting employees to engage in innovative work besides their regular job tasks How can organisations instil this mindset in their employees who see themselves as stalwarts of status quo The book then turns to how organisations can engage employees in innovation with an accompanying emphasis that the enactment of EDI may not follow a prescribed or planned flow It then closes by offering real world examples of the unfolding of EDI in both the Finnish and Singaporean contexts The book is aimed at educating enterprises both employers and workplace trainers and adult educators in the practices and approaches to engage employees in innovation It seeks to bridge specifically the theory practice nexus of EDI and nudge the enterprises and TAE training and adult education practitioners that have yet to involve or engage employees systematically in innovation to seriously consider it

**The Hopes and Experiences of Bilingual Teachers of English** Melinda Kong, 2018-07-20 In this age of internationalisation of higher education many bilingual teachers from non English speaking contexts pursue their postgraduate degrees in English speaking countries Most programmes focus on providing content

knowledge to them while neglecting their investments Furthermore not much attention is given to what these bilingual teachers expect to gain from studying abroad as well as their lived experiences and identity construction both inside and outside the classroom in English speaking countries and when they return home Nevertheless these dimensions are crucial to their growth as teachers and users of English This book explores these neglected aspects through case studies of bilinguals from various backgrounds Through these case studies the book examines the hopes struggles and adaptation of bilinguals It provides insights into what international students should realistically expect when studying overseas and how to empower bilingual teachers users and learners of English

**Science & Public Policy** ,2006 **Living and Learning as Semiotic Engagement** Andrew Stables,2005 Explores the possibilities of adopting a view of living and learning as semiotic engagement as foundational to our understandings of education management and other aspects of social and cultural life This book presents a fundamental rethinking of education and social policy based on a different set of premises The Japanese Challenge to the American Neoliberal World Order Yong Wook Lee,2008 This book offers the nature and evolution of Japan s most ambitious postwar foreign policy the Japanese challenge to the U S led neoliberal world order in the politics of economic development **Journal of Anthropological Research** ,2007 *Words of Conflict, Words of War* Fathali M. Moghaddam,Rom Harré,2010-05-05 This highly insightful and cohesive group of studies reveals the power of political narratives to create conflict and peace Words of Conflict Words of War How the Language We Use in Political Processes Sparks Fighting is a fascinating exploration of the narratives leaders use to position both themselves and others in the course of political processes that lead to peace or conflict Drawing on the relatively new field of positioning theory expert essays provide insights into the ways words position us for better or worse and influence our intended results The focus on narratives from the interpersonal to the international leads to a better understanding of political processes and conflict resolution Part one of the study deals with micropolitics and personal positioning Part two explores positioning by political parties and factions Links between micro and macro are illustrated by leadership studies of individuals such as President Barak Obama President Mahmoud Ahmadinejad President George W Bush Governor Sarah Palin and the Reverend Ian Paisley The focus throughout is on how a leader can use language to redirect collective politics in support of conflict or of peace
