

## "Algebraic Perfect Squares"

Some quadratic expressions are known as **"perfect squares"** because they can be factored into the form  $(a + b)^2$ .

$$x^2 + 4x + 4 = (x + 2)^2$$

$$x^2 + 10x + 25 = (x + 5)^2$$

$$x^2 - 20x + 100 = (x - 10)^2$$

What do you notice about the following expression:  $x^2 + 12x + 36$ ?

$$x^2 + 12x + 36 = (x + 6)^2$$

## Positive Teaching In The Secondary School:

**Positive Teaching in the Primary School** Frank Merrett, Kevin Wheldall, 1990-02-28 Managing troublesome behaviour in the classroom is a problem faced by every primary school teacher at some time Some nursery and infant teachers claim that every year more and more young children are starting school with behavioural problems Teachers too frequently complain of lessons being disrupted by unacceptable behaviour and yet the important skills of effective classroom management are seldom mentioned in initial teacher training The authors are much in demand by schools to provide training in their positive teaching methods for dealing with troublesome behaviour In this book they present their tried and tested procedures for establishing effective classroom behaviour management The au

Consulting Students on Classroom Practice, ‘Good’ Teaching and Teacher Performance Craig Skerrett, 2024-09-19 Consulting Students on Classroom Practice Good Teaching and Teacher Performance is about the consultation of students on teaching and learning matters in schools as part of typical school life as opposed to students being consulted as part of a project that includes some kind of external support Craig Skerrett makes not only a conceptual contribution by providing new thinking tools and a new way of understanding and articulating student voice in relation to classroom practice and by developing and presenting a heuristic device to aid research on student voice and classroom practice but a series of empirical contributions by reporting on interview data with a range of school based actors to spotlight existing views practices and issues and to call attention to hopes desires and fears for the future The book provides a critical account of student voice in contemporary schools Student voice is not taken at face value or accepted as being undisputedly positive nor are schools or the people in them treated as homogenous entities devoid of context Significantly researcher subjectivity is central vis vis the generation examination interpretation and presentation of the empirical data There is no claim to objectivity in this book and it is subjectivity that comes to the fore through what Skerrett coins the Interest behind this research major emphasis is placed on his own experiences shaping his outlook Skerrett occupies a certain vantage point and sees student voice through a particular lens and this is reflected in the contents of this book

Positive Teaching Kevin Wheldall, Frank Merrett, 2017-09-13 Problems of classroom management and control are a recurring concern for many teachers Disruptive behaviour and inattention hinder effective learning and impose a constant drain upon the teachers emotional resources Continual nagging at children only increases teacher stress what is needed is an effective alternative set of strategies Originally published in 1984 Positive Teaching seeks to meet this need by presenting the behavioural approach to teaching in a clear direct and lucid way By adopting the behavioural approach problem behaviour can be minimised or rapidly nipped in the bud when it does arise

While punishment may be used in an attempt to stop almost any kind of behaviour only the appropriate use of positive methods applied contingently immediately and consistently can teach new more adaptive behaviour This is a crucial issue in real teaching and is rarely encountered or even discussed in most teacher education programmes It is the central focus of Positive Teaching This book is for all teachers from the beginning student to experienced head teachers for those teaching in a first school and for those teaching sixth formers for those experiencing difficulties and for those whose authority is already well established The behavioural approach offers practical support to those who are struggling and a rationale for the effective positive strategies of the successful We can all improve our teaching
