Posle Liberalizma After Liberalism:

The Institutional Economics of Russia's Transformation Anton N. Oleinik, 2017-11-30 This book applies institutional theory to the analysis of the post Soviet Russian economy to bring to light the reasons why reforms have gone awry Emphasis is put on the elements missed in the early blueprints of reforms constraints embodied in formal and especially informal institutions Other aspects considered include the dominant model of power relationships and the networks of localized and personalized relationships among economic actors The first part provides a general description of the core concepts of institutional theory including both the old institutionalism of T Veblen and J Commons and the new institutional economics of R Coase O Williamson and D North and in the second part an institutional model of the post Soviet Russian economy is developed In the course of the analysis the authors discuss such unresolved issues as post privatization development in Russia and validity of the Coase theorem in the post Soviet institutional context Rich empirical data grounds the discussion throughout

After Liberalism Immanuel Wallerstein, 2010-09-27 In *After Liberalism* the distinguished historian and political scientist Immanuel Wallerstein examines the process of disintegration of our modern world system and speculates on the changes that may occur during the next few decades He explores the historical choices before us and suggests paths for reconstructing our world system on a more rational and socially equitable basis

Russian Liberalism Paul Robinson, 2023-09-15 *Russian Liberalism* charts the development of liberal ideas and political organizations in Russia as well as the implementation of liberal reforms by the Russian and Soviet governments at various points in time Paul Robinson's comprehensive survey covers the entire period from the late eighteenth century to the present day Robinson demonstrates that liberalism has always lacked strong roots in the Russian population being largely espoused by a narrow group of intellectuals whose culture it has reflected and has tended toward a form of historical determinism that sees Russia as destined to become like the West Many see the current political struggle between Russia and the West as being in part a conflict between the liberal West and an illiberal Russia By explaining the historical causes of liberalism's failure in that country *Russian Liberalism* offers an understanding of a significant aspect of contemporary international affairs After Putin's February 2022 invasion of Ukraine understanding Russian political thought is a matter of considerable importance

Kritika, 2004 *После либерализма* Immanuel Maurice Wallerstein, 2003

Liberalism After Communism Jerzy Szacki, 1995 This study is devoted to recent developments in Central European especially Polish political thought and concentrates on the emergence of liberal ideas a subject largely neglected by Western observers It provides an account of liberal thinking in East

Liberalism and Its Discontents Francis Fukuyama, 2022-03-17 A TIMES BEST PHILOSOPHY IDEAS BOOK OF 2022 A defence of liberalism by the renowned political philosopher We need more thinkers as wise as Fukuyama digging their fingers into the soil of our predicament The New York Times A brilliantly acute summary of the way

some aspects of liberal thought have consumed themselves Guardian One of the West's most interesting public intellectuals Times Hard to think of a better case for liberal centrism FT Liberalism the comparatively mild mannered sibling to the more ardent camps of nationalism and socialism has never been so divisive as today From Putin's populism the Trump administration and autocratic rulers in democracies the world over it has both thrived and failed under identity politics authoritarianism social media and a weakened free press the world over Since its inception following the post Reformation wars liberalism has come under attack from conservatives and progressives alike and today is dismissed by many as an obsolete doctrine In this brilliant and concise exposition Francis Fukuyama sets out the cases for and against its classical premises observing the rule of law independence of judges means over ends and most of all tolerance Pithy to the point and ever pertinent this is political dissection at its very best

Post-Liberalism Melvyn L. Fein, 2017-09-08 Liberalism is dying despite its superficial appearance of vigor Most of its adherents still believe it is the wave of the future but they are clinging to a sinking dream So says Melvyn L Fein who argues that liberalism has made countless promises almost none of which have come true Under its auspices poverty was not eliminated crime did not diminish the family was not strengthened education was not improved nor was universal peace established These failures were not accidental they flow directly from liberal contradictions In Post Liberalism Fein demonstrates why this is the case Fein contends that an inverse force rule dictates that small communities are united by strong forces such as personal relationships and face to face hierarchies while large scale societies are integrated by weak forces such as technology and social roles As we become a more complex techno commercial society the weak forces become more dominant This necessitates greater decentralization in direct opposition to the centralization that liberals celebrate Paradoxically this suggests that liberalism as an ideology is regressive rather than progressive If so it must fail Liberals assume that some day under their tutelage these trends will be reversed but this contradicts human nature and history's lessons According to Fein we as a species are incapable of eliminating hierarchy or of loving all other humans with equal intensity Neither as per Emile Durkheim are we able to live in harmony without appropriate forms of social cohesion

The Politics of Virtue John Milbank, Adrian Pabst, 2016-08-22 Contemporary politics is dominated by a liberal creed that champions negative liberty and individual happiness This creed undergirds positions on both the right and the left free market capitalism state bureaucracy and individualism in social life The triumph of liberalism has had the effect of subordinating human association and the common good to narrow self interest and short term utility By contrast post liberalism promotes individual fulfilment and mutual flourishing based on shared goals that have more substantive content than the formal abstractions of liberal law and contract and yet are also adaptable to different cultural and local traditions In this important book John Milbank and Adrian Pabst apply this analysis to the economy politics culture and international affairs In each case having diagnosed the crisis of liberalism they propose post liberal alternatives notably new concepts and fresh policy ideas They demonstrate that amid the current crisis post liberalism is a programme

that could define a new politics of virtue and the common good **Post-Liberalism** Fred Dallmayr, 2019-04-11 The conflict within liberal democracy is now between the pursuit of selfish interest and a people increasingly fractured by economic and cultural differences Dallmayr sets out to rescue democracy as a shared public and post liberal regime Drawing on a wide range of contemporary political religious and secular thought Dallmayr charts a possible path to a liberal socialism that is devoid of egalitarian imperatives and a private sphere free from acquisitiveness **Postliberal** Erik Ahrens, Bruno Wolters, 2021 **Neo-Liberal Ideology** Rachel S. Turner, 2008-02-07 Neo liberalism has been one of the most influential ideologies since the Second World War This book provides an original account of its intellectual foundations development and conceptual configuration as an ideology Newly available in paperback this book presents a comparative study of the development and the nature of neo liberal ideas in the national contexts of Germany Britain and the United States since the twentieth century addressing the following questions What are neo liberalism s intellectual origins What influence did neo liberalism have on public policy debates What are neo liberalism s core concepts and how have they been interpreted in different national contexts that make it a distinctive ideology In answering these questions the book provides a deeper insight into the historical and intellectual origins and conceptual configuration of an ideology that reshaped politics and societies across the world Liberalism, Neoliberalism, Social Democracy Mark Olssen, 2009-09-11 The Credit Crunch of 2008 has exposed the fallacies of neoliberalism and its thesis of the self regulating market which has been ascendant in both economic theory and policy over the last 30 years In moving beyond neoliberalism social democratic arguments are once again coming to the fore however in the context of the 21st century they will need to be theorized in relation to new global concerns This book critically revisits the core theses of liberalism and neoliberalism that have provided philosophical support to free market economics as enunciated in the writings of liberal political philosophers such as Friedrich von Hayek Karl Popper and Isaiah Berlin and seeks to expose the deficiencies of their beliefs that became hegemonic from the 1970s until the first decades of the present century In moving beyond the formulas and mantras of liberalism the book seeks to re theorize social democracy and articulate a new vision of the political arrangements needed for the 21st century by reconsidering issues such as liberty autonomy social dependence and multiculturalism **How We Became Post-Liberal** Russell Blackford, 2023-11-16 Liberalism is in trouble As a set of ideas it has lost much of its historical authority in guiding public policy and personal behaviour In this post liberal climate Russell Blackford asks whether liberalism is truly over How We Became Post Liberal examines how Western liberal democracies became nations where traditional liberal principles of toleration religious and otherwise individual liberty and freedom of speech are frequently dismissed as outdated or twisted to support conservative policies Blackford traces the lineage of liberalism from problems of toleration that emerged when Christianity triumphed in the late centuries of classical antiquity with comparison to non Western civilizations The political and philosophical story culminates in the recent development over the past 30 to 50 years of post liberal ideologies in the

West At each stage Blackford discusses arguments for and against liberal principles identifying why no argument to date has been totally successful in convincing opponents while maintaining that liberalism's ideas and language are still worth saving From campus wars over academic freedom to the Charlie Hebdo attack and the murder of Samuel Paty this is an indispensable guide for anyone wanting to understand the why what and how of the post liberal world

The New Leviathans John Gray,2023-11-07 A bold provocative reckoning with our current political delusions and dysfunctions Ever since its publication in 1651 Thomas Hobbes's Leviathan has unsettled and challenged how we understand the world Condemned and vilified by each new generation his cold political vision continues to see through any number of human political and ethical vanities In his wonderfully stimulating book The New Leviathans John Gray allows us to understand the world of the 2020s with all its contradictions moral horrors and disappointments The collapse of the USSR ushered in an era of near apoplectic triumphalism in the West a genuine belief that a rational liberal well managed future now awaited humankind and that tyranny nationalism and unreason lay in the past Since then so many terrible events have occurred and so many poisonous ideas have flourished and yet our liberal certainties treat them as aberrations that will somehow dissolve Hobbes would not be so confident Filled with fascinating and challenging observations The New Leviathans is a powerful meditation on historical and current folly As a species we always seem to be struggling to face the reality of base and delusive human instincts Might a more self aware realistic and disabused ethics help us

The False Promise of Liberal Order Patrick Porter,2020-07-07 In an age of demagogues hostile great powers and trade wars foreign policy traditionalists dream of restoring liberal international order This order they claim ushered in seventy years of peace and prosperity and saw post war America domesticate the world to its values This book exposes the flaws in this nostalgic vision of liberal order The world America made was wrought through coercion and sometimes brutal compromise Liberal projects to spread capitalist democracy led inadvertently to illiberal results To make peace the US made bargains with authoritarian forces As its power grew Washington came to believe that its order was exceptional and even permanent a mentality that has led to spiraling deficits permanent war and Trump Romanticizing the liberal order makes it harder to adjust to today's global disorder Only by confronting the false promise of liberal order and adapting to current realities can the United States survive as a constitutional republic in a plural world

Liberalism and Socialism Matthew McManus,2021-09-01 In times of pandemic and global economic crisis little more than a decade after the last there are serious questions about how the liberal order can stand who its friends are and what the future will look like This edited collection provides a comprehensive overview of the principles and stakes at play in the dispute between liberalism and socialism It explores the 21st century appeal of socialism particularly to millennials and other relatively young citizens and shows why modern classical liberalism and neoliberalism have generated tepid support leading to the resurgence of socialism after it was thought dead and buried due to the dramatic failures of statist models in 1989 The authors put modern socialism and liberalism into renewed dialogue with another to

examine whether the two can coexist peacefully or even reach an overlapping consensus on social reform going forward It delves into the history and theory of both liberalism and socialism to determine points of overlap and tension in addition to a cross disciplinary interpretive analysis of the present epoch to determine how both traditions have evolved since the 20th century The book is interdisciplinary and provides a broad array of perspectives including a diversity of ideological perspectives ranging from committed Marxists to libertarians It will be of interest to academics and students in economics and contemporary political culture

Post-säkularer Liberalismus Ana Honnacker, 2015 Wie ist mit religiösen Stimmen im öffentlichen Diskurs umzugehen In einer post-säkularen Gesellschaft muss diese Frage neu verhandelt werden Die klassische Strategie hat der Liberalismus im Anschluss an John Rawls vorgegeben Er hat einen weitgehenden Ausschluss religiöser Überzeugungen aus der Sphäre des öffentlich Politischen vorgesehen und ihnen den Bereich des Privaten zugewiesen Dies wird den Herausforderungen einer post-säkularen Gesellschaft jedoch nicht gerecht Ein angemessenes Modell demokratischer Deliberation berücksichtigt dass wir von keiner allgemeinen absoluten Form der Vernunft ausgehen können
