Possible World Poems:

A Possible World Kenneth Koch, 2002 For the last thirty years or more Kenneth Koch has been writing the most exuberant poems in America In an arena where such good spirits are rare he has become a national treasure In his book of personal addresses to what has mattered most in his seventy plus years on the planet there is a dimension of pathos and joy rare in the poetry of any era National Book Award 2000 finalist citation for *New Addresses* The three long poems *Bel Canto* *Possible World* and *A Memoir* in this brilliant successor to *New Addresses* are ambitious attempts at rendering the complete story of a life Taken together they present a dazzling picture of the pleasures and confusions of existence as well as the pleasures and difficulties of expressing them Other poems bring Koch's questioning lyrical attention to more particular aspects of experience real and imagined a shipboard meeting the Moor not taken or the unknowable realm of mountaintops As in all of Koch's work one hears the music of unconquerable exuberance in stormy conflict with whatever resists it death the injustice of power the vagaries of life in Thailand China or Rome Thomas Disch has written in the Boston Book Review that Koch is the most capable technician on the American scene the brightest wit and the emeritus most likely to persist into the next millennium His work is full of ribaldry and wit musicianship pitch perfect mimicry of the Great Tradition and the celebration of pleasure for its own sunlit sake The ebullience and stylistic variety that one has come to expect of this protean poet is everywhere present in this scintillating collection *Language and World Creation in Poems and Other Texts* Elena Semino, 2014-09-25 *Language and World Creation in Poems and Other Texts* introduces an interdisciplinary and practical approach to the analysis of poetry which focuses on text worlds namely the contexts scenarios or types of reality that readers construct in their interaction with the language of texts The book demonstrates in detail three ways of approaching poetic text worlds namely as discourse situations possible worlds and mental constructs Clear and detailed introductions to linguistic theories of definiteness and deixis possible world theory and schema theory are included making the book accessible to readers who are unfamiliar with these frameworks **In This Maybe Best of All Possible Worlds** William Page, 2016 Winner of the 2016 FutureCycle Poetry Book Prize In his fifth poetry collection William Page explores humankind's complex relationships with the world's inhabitants We encounter teens feeling the illusion of immortality a French prostitute slipping into heaven a spire building beetle the relentless cacophony of a katydid Subjects range from the mighty bull and lion to the flight of the swift from the sleeping fly to the postman's angry daughters from the envisioned celestial flight of the dead to the actual flight of the living Page sees heroism in the relationship of spouses of parents and offspring in the warmth and ferocity of friendship the simple life of a farmer and the courage and generosity of an innocent girl dying of AIDS Humanity and machinery stand together in awesome contrast and similarity At times meditative surreal dramatic philosophical witty and humorous these poems unite truth and fiction The dead come to life again and the lost are found
