## **Post Cold War Policy The Social And Domestic Context:**

**Public Policymaking in a Democratic Society** Larry N. Gerston, 2014-12-18 While people profess a disdain for politics in a democracy politics is the primary vehicle for citizens to influence the decisions and decision makers that shape public policy at every level This widely acclaimed work provides an overview of public policymaking in all its aspects along with basic information tools and examples that will equip citizens to participate more effectively in the policymaking process It is intended for use in internships and service learning programs but will serve equally as a resource for any organized effort to involve citizens in community service and the exercise of civic responsibility This updated edition includes an all new case study on the issue of immigration and all other case studies have been revised **Japan's Security Identity** Bhubhindar Singh, 2013 Since the end of the Cold War there has been a significant change in Japanese security policy as Japan's security identity has shifted from a peace state to an international state In this book Bhubhindar Singh argues that from the 1990s onwards the Japanese security policymaking elite recognized that its earlier approach to security policy which was influenced by the peace state security identity was no longer appropriate Rather as a member of the international community Japan had to carve out a responsible role in regional and international security affairs which required greater emphasis on the role of the military in Japan's security policy To explore the change in Japan's security identity and its associated security behaviour this book contrasts the three areas that define and shape Japanese security policy Japan's conception or definition of national security the country's contribution in military terms to regional and international affairs and the changes to the security policy regime responsible for the security policy formulation Further it seeks to challenge the dominant realist interpretation of Japanese security policy by adopting an identity based approach and showing how whilst realist accounts correctly capture the trajectory of Japanese post Cold War security policy they fail to explain the underlying causes of the change in Japanese security behaviour in the post Cold War period This book is an important addition to the current literature on Japanese security policy and will be of great use to students and scholars interested in Japanese and Asian politics as well as security studies and international relations more broadly **The Publishers' Trade List Annual**, 1998 *African Foreign Policies* Stephen Wright, 2018-02-22 This volume of thirteen original essays provides a timely analysis of African foreign policies in a post Cold War environment where African marginalization from the global economy appears to be increasing Three thematic essays give an overview of critical changes occurring in African foreign policies and ten country by country case studies provide specific analyses of decisionmaking intraregional relations and the struggles over policy with external agencies including the World Bank and the International Monetary Fund *African Foreign Policies* offers explanations for how African states are adapting to the international challenges of the late twentieth century **Policy Evaluation**, 1998 **Political Science & Feminisms** Kathleen A. Staudt, William G. Weaver, 1997 The volumes in this series examine the impact of feminist advocacy theory and methodology on the humanities social sciences and natural sciences **Post-cold War Policy** William

J. Crotty, 1995 The end of the Cold War has facilitated a rethinking of national priorities Now the threat of cataclysmic war has abated policymakers are turning to domestic economic and social problems the demand of expanding populations for social services the decline of an industrial base the transition to a peacetime economy the retaining of a work force the protection of the environment the remedying of race gender and class inequality and the ability to compete in international markets This text is the first to address these issues within a comprehensive framework **Politics of Presidential Selection** William Crotty, John S. Jackson, 1996-07 Hallam International Journal of Aging, 2002 Public Administration and Democratic Governance United Nations. Division for Public Administration and Development Management, 2007 Strengthening trust accountability and participation in government are essential to serving the needs of citizens This volume brings together concepts and ideas from around the world on how to achieve more responsive and accountable public administration within the framework of democratic governance Public officials and administrators are provided with conceptual and policy tools to help them understand today's complex challenges and to pursue ideas that are most likely to enhance service delivery from the citizen's perspective The publication is one of the analytical products emerging from the Global Forum on Reinventing Government **American Government and Politics** Fenton S. Martin, Robert Goehlert, 1997 A unique new bibliography that helps teachers and students particularly at the high school level find information about government topics The selected books reflect a variety of scholastic levels but avoid works that are beyond the level of most high school students or works that rely heavily on statistical methods The entries are organized in a classified arrangement by topics that appear in most high school government textbooks Each entry lists the title author year of publication page count and publisher and also provides a brief description of the book **Trump and the Remaking of American Grand Strategy** Bastiaan van Apeldoorn, Jaša Veselinović, Naná de Graaff, 2023-07-27 This book offers a comprehensive explanatory account of Trump's foreign policy by assessing its nature determining the extent to which it broke with the policy of preceding presidencies and explaining how this shift came about We argue that Trump has succeeded in remaking America's grand strategy by unmaking its long standing strategy of what we call Open Door Globalism a strategy of economic expansionism through the promotion of open markets across the globe and its institutionalization into a US led liberal world order Trump has broken with Open Door Globalism in probably lasting ways by adopting an outlook and strategy of neo mercantilist economic nationalism based upon an America First redefinition of US sovereignty and national interests We explain this Trumpian shift in US foreign policy by focusing on the social sources of Trump's foreign policy making elite's agency analysing it both in terms of foreign policy makers embeddedness in elite networks and within the changing global and domestic context The latter coupled with a crisis of established elite power also indicates why Biden has not returned to Open Door Globalism but doubled down on some aspects of the Trumpian economic nationalist break *Knowledge for Inclusive Development* Pedro Conceição, 2002 The essays in this book examine the role of education and the university in

economic development It is the contention of the contributors that knowledge ideas and skilled and educated people are increasingly important for economic development How to promote inclusive development the process of development that includes every citizen in any country has become a wide ranging puzzle After framing the problems associated with globally integrated learning processes from the perspective of science and technology policies the essayists look at the role of the university in the knowledge economy drawing examples from the United States Japan and Portugal They then review the role of innovation in the industrial policies of a variety of countries look at systems of knowledge creation and diffusion and conclude with commentary on the roles of public planning and policy in the achievement of sustainable development This wide ranging examination of knowledge and development issues will be of value to scholars researchers and policy makers involved with economic growth and development

LSC CPSX (U S MILITARY ACADEMY) : CPSR Military Geography: From Peace to War Eugene Joseph Palka, Francis Anthony Galgano, 2005-03-24 The conduct of any military enterprise is conditioned by the character of the area of operations the military operating environment The book focuses on the synergy between geography and military operations wherever they occur

**Western Public Lands And Environmental Politics** Charles Davis, 1997-02-06 The war between environmentalists and the wise use movement that represents traditional user groups is becoming an increasingly bitter struggle to influence public land use decisions Charles Davis a professor of political science at Colorado State University has compiled a collection of articles some written by Davis himself exploring the issues on both sides This accessibly written volume will be of interest to students and scholars of environmental politics and policy as well as the general reader
