Department of Economic and Social Affairs,2008 The World Economic and Social Survey provides objective analysis of pressing long term social and economic development issues and discusses the positive and negative impact of corresponding policies The analyses are supported by analytical research and data included in the annex The World Economic and Social Survey 2007 analyses the challenges and opportunities associated with ageing populations and aims to facilitate discussions in furthering the Madrid International Plan of Action on Ageing which focuses on three sets of priorities older people and development advancing health and well being into old age and enabling and supportive environments for older persons The Survey underscores the need to fully recognize and better harness the productive and social contributions to societies that older persons can make but are in many instances prevented from making **The Environment of Insecurity in Turkey and the Emigration of Turkish Kurds to Germany** Ibrahim Sirkeci,2006 Focusing on an understudied ethnic group this book draws linkages between ethnic conflict international migration and individual strategies and networks It triangulates quantitative survey

Ethnicity Versus Nationalism Partha S Ghosh, 2003-07-26 This book constitutes a comprehensive and in depth study of federalism and devolution in the Sri Lankan context The author leads us on a journey of discovery spanning various phases of the evolution of the problem from pre independence Sri Lanka to the victory of the Kumaratunga government in 1994 and its subsequent failure to implement the much promised federal structure for the country How and why the Kumaratunga government failed is the main topic of this book Partha Ghosh skilfully presents the various proposals of that government including the draft constitution meant to convert the unitary state of Sri Lanka into a federal one He discusses the issues involved in the debate and deals with the devolution discourse both at the political and the intellectual level The broad theoretical premises that govern the concept of devolution in an ethnically divided society are also examined in detail The author concludes with an analysis of the current situation in particular the on going peace talks *State of Democracy in South Asia* , 2008 This report seeks to shift the locus of discourse on democracy away from the global North to most of the world It does so by examining democratic experience in South Asia a region marked by poverty illiteracy complex diversities and multiple and overlapping structures of social hierarchy and by daring to ask not just what democracy has done to South Asia but also what South Asia has done to democracy Based on the first ever social scientific survey of political opinions and attitudes across the five countries in the region Bangladesh India Nepal Pakistan and Sri Lanka the report offers a fresh analysis of the promise of democracy for the ordinary people its institutional slippages obstacles in its functioning and its mixed outcomes The report combines public opinion data with expert assessment case studies and dialogue with democracy activists BOOK JACKET **Abraka Humanities Review** , 2012 *Pakistan Defence Review* , 1995 Bibliographie Mensuelle United Nations Library (Geneva, Switzerland), 1992 **Directory of Individuals and Institutions Engaged in South Asian Strategic Studies** Regional Centre for Strategic Studies (Colombo, Sri Lanka), 1998 **Human Insecurity** David Roberts, 2008 Confronting the avoidable deaths of women and children each year this title provides an urgent call for us to face up to our responsibilities to the millions killed needlessly each year It is a powerful intervention in the debate on human security **The Ethics of Violence** David Glover, Renata Salecl, 1998 This issue examines the concept of violence It argues that ethics are deeply imbued with violence and explores the ambiguous relations between them The argument is that Kantian ethics are based on the violent split Kant makes between the physical which includes the body and spiritual worlds This is why absolute ethical stances for example that of Antigone or of those who renounce their families in the name of a higher cause are often perceived of as inhuman Some contributors then go on to draw parallels between Kantian ethics and

those of Sade while others discuss the contextualisation of violence the same act body piercing can be viewed as savage ritual or urban chic Ghana in Search of National Security Policy Gilbert Bluwey, Kofi Kumado, 2007 **Guide to Indian Periodical Literature**, 2004 **Security and Insecurity** Jeane J.
