Post-Imperial Camões João Ricardo Figueiredo, 2003 Scholars discuss the role of Camões's poetry after the demise of the empire

The Worldmakers Ayesha Ramachandran, 2015-10-13 Ayesha Ramachandran reconstructs the imaginative struggles of early modern artists, philosophers and writers to make sense of something that we take for granted: the world imagined as a whole. *The Worldmakers* moves beyond histories of globalisation to explore how the world itself variously understood as an object of inquiry, a comprehensive category and a system of order was self-consciously shaped by human agents

Portuguese Literary & Cultural Studies, 2004

The Collected Lyric Poems of Luís de Camões Luís de Camões, 2016-07-08 Luís de Camões is world famous as the author of the great Renaissance epic *The Lusads* but his large and equally great body of lyric poetry is still almost completely unknown outside his native Portugal. In *The Collected Lyric Poems of Luís de Camões* the award-winning translator of *The Lusads* gives English readers the first comprehensive collection of Camões's sonnets, songs, elegies, hymns, odes, eclogues and other poems: more than 280 lyrics altogether, all rendered in engaging verse. Camões (1524-1580) was the first great European artist to cross into the Southern Hemisphere and his poetry bears the marks of nearly two decades spent in north and east Africa, the Persian Gulf, India and Macau. From an elegy set in Morocco to a hymn written at Cape Guardafui on the northern tip of Somalia to the first modern European love poems for a non-European woman, these lyrics reflect Camões's encounters with radically unfamiliar peoples and places. Translator Landeg White has arranged the poems to follow the order of Camões's travels, making the book read like a journey. The work of one of the first European cosmopolitans, these poems demonstrate that Camões would deserve his place among the great poets even if he had never written his epic.

Literature, Speech Disorders, and Disability Christopher Eagle, 2013-10-08 Examining representations of speech disorders in works of literature, this first collection of its kind founds a new multidisciplinary subfield related but not limited to the emerging fields of disability studies and medical humanities. The scope is wide-ranging, both in terms of national literatures and historical periods considered, engaging with theoretical discussions in poststructuralism, disability studies, cultural studies, new historicism, gender studies, sociolinguistics, trauma studies and medical humanities. The book's main focus is on the development of an awareness of speech pathology in the literary imaginary from the late eighteenth century to the present, studying the novel, drama, epic, poetry, lyric, poetry autobiography and autopathography and clinical case studies and guidebooks on speech therapy. The volume addresses a growing interest both in popular culture and the humanities regarding the portrayal of conditions such as stuttering, aphasia and mutism, along with the status of the self in relation to those conditions. Since speech pathologies are neither illnesses nor outwardly physical disabilities, critical studies of their representation have tended to occupy a liminal position in relation to other discourses such as literary and cultural theory and even disability studies. One of the primary aims of this collection is to address this marginalization and to position a cultural criticism of speech pathology within literary studies.

Milton and

the Climates of Reading Balachandra Rajan, Joseph A. Wittreich, 2006-01-01 Scholarly criticism of John Milton's writings has in recent decades been distinguished by a methodological prudence that separates it from other forms of literary scholarship. One critic however stands apart from his colleagues and has consistently offered a corrective to this prudence. Balachandra Rajan's *In Milton and the Climates of Reading* Elizabeth Sauer undertakes the daunting work of bringing together a selection of Rajan's essays on Milton, some hitherto unpublished, in order to chart trends and changes in Milton scholarship over the last sixty years and to consider future directions in this vital field of inquiry. This collection, which is framed by Sauer's insightful introduction and an eloquent afterword by Joseph Wittreich, demonstrates Rajan's critical range and his ability to adapt to new ideas always reformulating them in his own characteristic and individual manner. *In Milton and the Climates of Reading* offers timely statements about the ways in which Milton's writings not only addressed their own time but also speak profoundly and powerfully to ours.

Chaos and Splendor and Other Essays Eduardo Lourenço, 2002 Seen from the dawn of the twenty-first century, the essays of Eduardo Lourenço from 1923 are a philosophical arch that spans the twentieth century, analyzing it and revealing its imaginary borders, dreams, contradictions, ghosts, and angels. The symbol the Portuguese essayist derives from the previous century that best portrays the cultural oscillations of that century is the labyrinth. The act of searching for knowledge impels a person to enter a labyrinth insofar as he tends to grasp meanings from different sources and phenomena. The more he tries to find his way out of the labyrinth to transform doubts into certainty, the more he finds himself immersed in contradiction in a continuous re-memorization of his inner ghosts. Literary works are the best guides. Lourenço has found to free himself from the maze of culture, although he is aware that his literary friends may also turn out to be his enemies and nightmares. His philosophical background allows him to deal with literature in an emotional, passionate way; his literary analyses are most of the time starting points for mythological interpretations of Portugal and Europe that merge poetry, sociology, anthropology, political science, and art history.

Rhythm Vincent Barletta, 2024-05-31 More than the persistent beat of a song or the structural frame of poetry, rhythm is a deeply imbedded force that drives our world and is also a central component of the condition of human existence. It's the pulse of the body, a power that orders matter, a strange and natural force that flows through us. Virginia Woolf describes it as a wave in the mind that carries us something we can no more escape than we could stop our hearts from beating. Vincent Barletta explores rhythm through three historical moments, each addressing it as a phenomenon that transcends poetry, aesthetics, and even temporality. He reveals rhythm to be a power that holds us in place, dispossesses us, and shapes the foundations of our world. In these moments, Barletta encounters rhythm as a primordial and physical binding force that establishes order and form in the ancient world, as the anatomy of lived experience in early modern Europe, and as a subject of aesthetic and ethical
