Postmodernism, or, The Cultural Logic of Late Capitalism Fredric Jameson, 2013-07-22 Now in paperback Fredric Jameson's most wide ranging work seeks to crystalize a definition of postmodernism Jameson's inquiry looks at the postmodern across a wide landscape from high art to low from market ideology to architecture from painting to punk film from video art to literature

Fredric Jameson Adam Charles Roberts, 2000 Widely recognised as one of today's most important cultural critics Adam Roberts offers an engaging introduction to this crucial figure which will convince any student of contemporary theory that Jameson must be read

Postmodernism, Or, The Cultural Logic of Late Capitalism Fredric Jameson, 2003

A Postmodern Reader Joseph P. Natoli, Linda Hutcheon, 1993-01-01 These readings are organized into four sections The first explores the wellsprings of the debates in the relationship between the postmodern and the enterprise it both continues and contravenes modernism Here philosophers social and political commentators as well as cultural and literary analysts present controversial background essays on the complex history of postmodernism The readings in the second section debate the possibility or desirability of trying to define the postmodern given its cultural agenda of decentering challenging even undermining the guiding master narratives of Western culture The readings in the third section explore postmodernism's complicated complicity with these very narratives while the fourth section moves from theory to practice in order to investigate in a variety of fields the common denominators of the postmodern condition in action

The Cultural Turn Fredric Jameson, 2009-06-09 Fredric Jameson a leading voice on the subject of postmodernism assembles his most powerful writings on the culture of late capitalism in this essential volume Classic insights on pastiche nostalgia and architecture stand alongside essays on the status of history theory Marxism and the subject in an age propelled by finance capital and endless spectacle Surveying the debates that blazed up around his earlier essays Jameson responds to critics and maps out the theoretical positions of postmodernism's prominent friends and foes

Postmodernism Fredric Jameson, 2021-03-30 In his most wide ranging and accessible work Frederic Jameson argues that postmodernism is the cultural response to the latest systemic change in world capitalism He seeks here to crystallize a definition of a term which has taken on so many meanings that it has virtually lost all historical significance He presents an extensive discussion on the cultural landscape both high and low of postmodernity evaluating the political fortunes of the new term and surveying postmodern developments in a range of different fields from market ideology to architecture from painting and instalment art to contemporary punk film from video art and high literature to deconstruction Finally Jameson reevaluates the concept of postmodernism in light of postmodern critiques of totalization and historical narratives from the notion of decadence to the

dynamics of small groups from religious fundamentalism to hi tech science fiction while touching on the nature of contemporary cultural critique and the possibilities of cognitive mapping in the present multinational world system

Post-Postmodernism Jeffrey Nealon, 2012-08-01 Post Postmodernism begins with a simple premise we no longer live in the world of postmodernism famously dubbed the cultural logic of late capitalism by Fredric Jameson in 1984 Far from charting any simple move beyond postmodernism since the 1980s though this book argues that we've experienced an intensification of postmodern capitalism over the past decades an increasing saturation of the economic sphere into formerly independent segments of everyday cultural life If fragmentation was the preferred watchword of postmodern America intensification is the dominant cultural logic of our contemporary era Post Postmodernism surveys a wide variety of cultural texts in pursuing its analyses everything from the classic rock of Black Sabbath to the post Marxism of Antonio Negri from considerations of the corporate university to the fare at the cineplex from reading experimental literature to gambling in Las Vegas from Badiou to the undergraduate classroom Insofar as cultural realms of all kinds have increasingly been overcoded by the languages and practices of economics Nealon aims to construct a genealogy of the American present and to build a vocabulary for understanding the relations between economic production and cultural production today when American style capitalism despite its recent battering seems nowhere near the point of obsolescence Post postmodern capitalism is seldom late but always just in time As such it requires an updated conceptual vocabulary for diagnosing and responding to our changed situation

Taking Back Desire: A Psychoanalytic Approach to Queerness and Neoliberalism on Screen

James Lawrence Slattery, 2025-05-13 Taking Back Desire studies film television and video art texts through a Lacanian prism to restore a sense of queer as troubling identity and resistance to neoliberal forms of inclusion James Lawrence Slattery illuminates how the framing of desire identity enjoyment resistance and knowledge contribute to the investment in neoliberal formations of being and success despite the corrosive effects neoliberalism has had for much of society The book does not read queerness on screen as a discernible group of characters or narrative formulas but as a point that meaning fails in the visual and temporal field Examining the interrelation of the real the imaginary and the symbolic in contemporary politics and contemporary media Slattery investigates how a diverse selection of moving image texts forge queerness as a relationship to the lack while crucially resisting the creation of a new or definitive canon Taking Back Desire will be essential reading for academics and scholars of Freudian and Lacanian psychoanalysis queer theory late capitalism film television and media studies sexuality studies critical race theory cultural studies and feminist theory

Methodology of the Oppressed Chela

Sandoval, 2013-11-30 In a work with far reaching implications Chela Sandoval does no less than revise the genealogy of theory over the past thirty years inserting what she terms U S Third World feminism into the narrative in a way that thoroughly alters our perspective on contemporary culture and subjectivity What Sandoval has identified is a language a rhetoric of resistance to postmodern cultural conditions U S liberation movements of the post World War II era generated

specific modes of oppositional consciousness Out of these emerged a new activity of consciousness and language Sandoval calls the methodology of the oppressed This methodology born of the strains of the cultural and identity struggles that currently mark global exchange holds out the possibility of a new historical moment a new citizen subject and a new form of alliance consciousness and politics Utilizing semiotics and U S Third World feminist criticism Sandoval demonstrates how this methodology mobilizes love as a category of critical analysis Rendering this approach in all its specifics Methodology of the Oppressed gives rise to an alternative mode of criticism opening new perspectives on any theoretical literary aesthetic social movement or psychic expression The Political Unconscious of Architecture Professor Nadir Lahiji, 2013-06-28

Thirty years have passed since eminent cultural and literary critic Fredric Jameson wrote his classic work *The Political Unconscious Narrative as a Socially Symbolic Act* in which he insisted that there is nothing that is not social and historical indeed that everything is in the last analysis political Bringing together a team of leading scholars this book critically examines the important contribution made by this eminent cultural and literary critic and breaks new ground in architectural criticism offering insights into the interrelationships between politics culture space and architecture Fredric Jameson himself provides an afterword *Transnational Canadas* Kit Dobson, 2009-08-04 *Transnational Canadas* marks the first sustained inquiry into the relationship between globalization and Canadian literature written in English Tracking developments in the literature and its study from the centennial period to the present it shows how current work in transnational studies can provide new insights for researchers and students Arguing first that the dichotomy of Canadian nationalism and globalization is no longer valid in today's economic climate *Transnational Canadas* explores the legacy of leftist nationalism in Canadian literature It examines the interventions of multicultural writing in the 1980s and 1990s investigating the cultural politics of the period and how they increasingly became part of Canada's state structure Under globalization the book concludes we need to understand new forms of subjectivity and mobility as sites for cultural politics and look beyond received notions of belonging and being An original contribution to the study of Canadian literature *Transnational Canadas* seeks to invigorate discussion by challenging students and researchers to understand the national and the global simultaneously to look at the politics of identity beyond the rubric of multiculturalism and to rethink the slippery notion of the political for the contemporary era *The Seeds of Time* Fredric Jameson, 1994 Long considered the foremost American Marxist theorist Fredric Jameson continues his investigation of postmodernism under late capitalism in *The Seeds of Time* In three parts Jameson presents the problem of Utopia attempting to diagnose the cultural present and to open a perspective on the future of a world that is all but impossible to predict with any certainty a telling of the future as Jameson calls it with an imperfect deck *The Antinomies of Postmodernity* highlights the seemingly unresolvable paradoxes of intellectual debate in the age of postmodernity Jameson suggests that these paradoxes revolve around the idea of nature the terms of antifoundationalism and antiessentialism and contemporary society's inability or refusal to consider the idea of Utopia The chapter attempts to

sketch the unrepresentable exterior of these debates which is the locus of the future according to Jameson In Utopia
 Modernism and Death Jameson meditates on the fascinating and terrifying Utopian fiction Chevengur written in the 1920s by
 the Soviet author Andrei Platonov He discusses the unique character of Utopian visions in the Second World of communism
 where commodity fetishism has not had as profound an effect on social relations as we have seen in the First World under
 late capitalism The Seeds of Time continues in The Constraints of Postmodernism with an examination of contemporary
 architectural trends in an attempt to suggest the limits of the postmodern By delineating these limits Jameson stakes out a
 prediction of the boundaries of postmodernity the unrepresentable exterior approached in Part One which we need to
 recognize and surpass

Postmodernism's Effects on Masculinity and Consumerism in Bret Easton Ellis's "American Psycho" F.
 Mandi, 2023-03-29 Bachelor Thesis from the year 2023 in the subject Didactics for the subject English Literature Works
 grade 1.3 University of Göttingen language English abstract The purpose of this paper is to analyze Patrick Bateman in
 American Psycho as a symbol and personification of a particular kind of society that critics have called the postmodern era of
 late capitalism Bret Easton Ellis portrays Patrick as an individual whose life focuses primarily on obsessive consumerism The
 condition of postmodernity marks the production of countless commodities that lead to excessive consumerism This aspect is
 eminent in Patrick Bateman's behavior which leads to his toxic masculine conduct and seriality of repetitiveness I argue that
 the main character Patrick Bateman represents these aspects because of a society that focuses above all on outer appearance
 and status The aspiration for this ideal causes people to treat themselves and others harmfully That circumstance makes
 characters such as Patrick Bateman and others like him treat people as consumer goods while disregarding their feelings and
 values American Psycho represents this pattern by portraying Patrick Bateman as an ideal performer who endlessly

consumes which shapes his view on others and leads to the subsequent murders since everyone has no real identity and becomes therefore interchangeable Under the economic conditions of postmodernity where everything is a commodity people treat other people like commodities and in the same way that products are disposable people become throwaway as well Hence people particularly women turn into products for Patrick that he may repeatedly kill because he values having the most of everything accumulating killing adds to his sense of status He describes commodities in his environment in the same way he describes the narratives of his serial killings and other acts of violence Patrick Bateman is merely a part of his environment where everyone feels the urge to be more significant and superior to everyone else which inevitably leads to the perpetuation of the same pattern
